This Section shall not be construed as limiting or otherwise modifying the Model Traffic Code, adopted by reference by the City of Fruita.

- A. At the time that any person is arrested or charged for the commission of a Class A or B criminal offense set forth pursuant to Section 2.28.180 of this Chapter, or as set forth pursuant to Court Order, the arresting officer may offer to give a Penalty Assessment Notice to the defendant. If any person is charged with a noncriminal municipal offense,

the citing officer shall issue a Penalty Assessment Notice to the defendant, unless otherwise provided by law. This Notice shall be made by notation upon the summons and complaint issued in conformance with law.

- B. If a person charged with a criminal offense does not possess a valid Colorado driver's license, such person, in order to secure release, as provided in this Section, must give his written acknowledgment of guilt or give his written promise to appear in court by signing the Penalty Assessment Notice prepared by the charging officer. Should the person to whom the Penalty Assessment Notice is tendered accept the notice by acknowledging his guilt in writing, said acceptance shall constitute a promise on such person's part to pay the fine or penalty specified in the schedule issued pursuant to Section 2.28.180 of this Chapter, or specified in a schedule issued by Court order, for the violation involved at the office of the Clerk of the Municipal Court, Fruita, Colorado, either in person or by mail within ten (10) days of the date of issuance. Refusal or inability to remit the specified fine by mail when required shall constitute a refusal to accept a Penalty Assessment Notice, by acknowledgment of guilt.

Should a person cited for a criminal violation refuse to give his written acknowledgment of guilt or give his written promise to appear in Court by signing the Penalty Assessment Notice, the officer shall proceed to issue a Summons in accordance with Colorado law. Should such person accept the notice, by acknowledgment of guilt, but fail to pay the prescribed penalty within ten (10) days thereafter, the Notice shall be construed to be a Summons and Complaint, and the prosecution for said violation shall thereafter be heard in the Municipal Court, in which event such person shall be privileged to answer the charge made against him in the same manner as if he had not been tendered a Penalty

Assessment Notice. In such event, the maximum penalty which may be imposed may exceed the penalty assessment amount.

- C. If the person cited for a criminal violation does possess a valid Colorado driver's license, the person shall not be required to give his written acknowledgment of guilt or written promise to appear on the Penalty Assessment Notice. For the purposes of this Section, tender by an arresting officer of the Penalty Assessment Notice to such a person shall constitute notice to the violator to appear in Court at the time specified on such notice or to pay the required fine. Should such person fail to pay the prescribed penalty within ten (10) days thereafter, the notice shall be construed to be a Summons, and the prosecution for said violation shall thereafter be heard in the Municipal Court, in which event such person shall be privileged to answer the charge made against him in the same manner as if he had not been tendered a Penalty Assessment Notice. In such event, the maximum penalty which may be imposed may exceed the penalty assessment amount.
- D. Payment of the prescribed penalty assessment within ten (10) days shall be deemed a complete satisfaction for the violation. Checks tendered by the violator to, and accepted by the Municipal Court, and upon which payment is received by the Municipal Court, shall be deemed sufficient receipt.
- E. Penalty Assessment Notices issued for noncriminal violations shall also be in accordance with Section 2.28.190 of this Chapter.
- F. Nothing contained herein shall be construed as requiring a law enforcement officer to issue a Penalty Assessment Notice for a criminal violation. Penalty Assessment Notices for criminal violations shall not be issued in the event of an offense involving property damage, injury to any person, or in the event the complaint is made by a private party. Penalty Assessment Notices shall be issued in all cases involving noncriminal municipal offenses, unless otherwise provided by law.

Such fee shall be in addition the applicable docket fee. Nothing contained in this Chapter shall prevent the Court from assessing additional fees if a human services agency, mental health professional or similar professional is utilized by the Court to supervise the Defendant's compliance with the terms of the deferred judgment, deferred prosecution, or probation.
- G. Bench Warrant Fee. In all actions in which a bench warrant is issued for the arrest of a defendant for failure to appear or failure to pay fines and costs as ordered by the Court, the Court shall assess against said defendant a fee in addition to all other fees and costs due and owing.

The director is authorized to determine the percentage based upon the ratio of the tangible personal property included in the consideration as it bears to the total of the consideration paid under the combination contract or sale which shall be subject to the sales tax levied pursuant to the provisions of this chapter. This section shall not be construed to include items upon which the sales tax is imposed on the full purchase price as provided by this chapter.

- B. Except as provided in subsection C of this section, retailers shall add the tax imposed hereby, or the average equivalent thereof, to the sale price or charge, showing such tax as a separate and distinct item, and when added such tax shall constitute a part of such price or charge and shall be a debt from the consumer to the retailer until paid and shall be recoverable at law in the same manner as other debts. The retailer shall be entitled, as collecting agent of this city, to apply and credit the percent rate to be paid by him under the provisions of this chapter, remitting any excess of collections over said 3% collection expense allowance, to the director of revenue in the retailer's next monthly sales tax return.

The schedule set forth in subsection A of this section shall be used by such retailer in determining amounts to be included in such sales price. Any person violating any of the provisions of this section shall be subject to the penalties herein provided. (Ord. 230, S26, 1969)

3.12.120 VENDOR--REPORTS REQUIRED WHEN. This tax shall be charged and collected by the seller. No refund or credit shall be

If any vendor, during the reporting period, collects as a tax an amount in excess of 3% of his total taxable sales, he shall remit to the Director of Revenue the full net amount of the tax herein imposed, and also such excess. The retention by the retailer or vendor of any excess tax collections or the intentional failure to remit punctually to the Director of Revenue the full amount required to be remitted by the provisions of this chapter is declared to be a violation of this chapter. (Ord. 1982-6, S9, 1982; Ord. 526, S9, 1981; Ord. 430 b, S4, 1980; Ord. 2008-15, S1)

3.12.170 EXEMPTIONS--DISPUTE SETTLEMENT PROCEDURES--REFUNDS AND CLAIMS.

- A. Should a dispute arise between the purchaser and seller as to whether or not any sale, service or commodity is exempt from taxation under this chapter, nevertheless the seller shall collect and the purchaser shall pay the tax, and the seller shall thereupon issue to the purchaser a receipt or certificate, on forms prescribed by the Director of Revenue, showing the names of the seller and the purchaser, the items purchased, the date, price, amount of tax paid, and a brief statement of the claim or exemption. The purchaser thereafter may apply to the Director of Revenue for a refund of such taxes, and it shall then be the duty of the Director of Revenue to determine the question of exemption. The

purchaser may request a hearing pursuant to Section 138-9-2, CRS 1963, and the final determination of the Director of Revenue may be appealed to the Colorado District Court pursuant to Section 138-9-4, CRS 1963.

- C. Upon receipt of such application the Director shall examine same with all due speed and shall give notice to the applicant by order in writing of his decision thereon. Aggrieved applicants, within thirty days after such decision is mailed to them, may petition the Director for a hearing on the claim in the manner provided in Section 138-9-2, CRS 1963, and may appeal to the district courts in the manner provided in Section 138-9-4, CRS 1963. The right of any person to a refund under this article shall not be assignable and, except as provided in paragraph E of this section, such application for refund must be made by the same person who purchased the goods and paid the tax thereon as shown in the invoice of the sale thereof. Any applicant for refund under the provisions of this section, or any other person who shall make any false statement in connection with an application for a refund of any taxes shall be deemed guilty of a violation of this chapter and shall be punishable as hereinafter provided.
- D. A refund shall be made or a credit allowed by the Director of Revenue to any person entitled to an exemption where such person establishes:

 3. That the person entitled to exemption paid or reimbursed the purchaser for such tax.
- E. Such application for refund under paragraph C of this section shall be made within three years after the date of purchase and shall be made on forms prescribed and furnished by the Director of Revenue, which form shall contain in addition to the foregoing information such pertinent data as the Director shall prescribe. - F. Claims for tax moneys paid in error or by mistake may be processed for refund in accord with regulations promulgated and adopted by the Director of Revenue.
- G. If any person be convicted under the provisions of this section, such convictions shall be prima facie evidence that all refunds received by such person during the current year were obtained unlawfully and the Director of Revenue is empowered and directed to bring appropriate action for recovery of such refunds. A brief summary statement of the above mentioned penalties shall be printed on each form application for refund.
- H. The burden of proving that sales, services and commodities, on which tax refunds are claimed are exempt from taxation under provisions of this chapter, or were not at retail, shall be on the one making such claim under such reasonable requirements of proof as the Director of Revenue may prescribe. Should the applicant for refund be aggrieved at the final decision of the Director, he may proceed to have the same reviewed by the district courts in the manner provided for review of other decisions of the Director as provided in Section 138-9-4, CRS 1963.

(Ord. 230, S32, 1969)

3.15.054 USE TAX--ALTERNATIVE DISPUTE RESOLUTION PROCEDURE --DEFICIENCY NOTICE OR CLAIM FOR REFUND. For transactions consummated on or after January 1, 1986, the taxpayer may elect a state hearing on the City Manager's final decision on a deficiency notice or claim for refund pursuant to the procedure set forth in this section.

- A. As used in this section 3.15.054, "state hearing" means a hearing before the executive director of the department of revenue or delegate thereof as provided in 29-2-106.1 (3), C.R.S.
- B. When the City asserts that use taxes are due in an amount greater than the amount paid by a taxpayer, the City shall mail a deficiency notice to the taxpayer by certified mail. The deficiency notice shall state the additional use taxes due. The deficiency notice shall contain notification, in clear and conspicuous type, that the taxpayer has the right to elect a state hearing on the deficiency pursuant to 29-2-106.1 (3), C.R.S. The taxpayer shall also have the right to elect a state hearing on the City's denial of such taxpayer's claim for a refund of use tax paid.
- C. The taxpayer shall request the state hearing within thirty days after the taxpayer's exhaustion of local remedies. The taxpayer shall have no right to such hearing if he has not exhausted local remedies or if he fails to request such hearing within the time period provided for in this subsection (c). For purposes of this subsection (c), "exhaustion of local remedies" means:
1. The taxpayer has timely requested in writing a hearing before the City and such City has held such hearing and issued a final decision thereon. Such hearing shall be informal and no transcript, rules of evidence or filing of briefs shall be required; but the taxpayer may elect to submit a brief, in which case the City may submit a brief. The City shall hold such hearing and issue the final decision thereon within ninety days after the City's receipt of the taxpayer's written request therefor, except the City may extend such period if the delay in holding the hearing or issuing the decision thereon was occasioned by the taxpayer, but, in any such event, the City shall hold such hearing and issue the decision thereon within one hundred eighty days of the taxpayer's request in writing therefor; or
 2. The taxpayer has timely requested in writing a hearing before the City and the City has failed to hold such hearing or has failed to issue a final decision thereon within the time periods prescribed in paragraph (1) above.
- D. If a taxpayer has exhausted his local remedies as provided in subsection (c) above, the taxpayer may request a state hearing on such deficiency notice or claim for refund, and such request shall be made and such hearing shall be conducted in the same manner as set forth in 29-2-106.1 (3) through (7), C.R.S.
- E. If the deficiency notice or claim for refund involves only the City, in lieu of requesting a state hearing, the taxpayer may appeal such deficiency notice or denial of a claim for refund to the district court of the county of Mesa as provided in 29-2-106.1 (8), C.R.S., provided the taxpayer complies with the procedures set forth in subsection (c) of this section.
- F. If the City reasonably finds that the collection of use tax will be jeopardized by delay, the City may utilize the procedures set forth in 39-21-111, C.R.S.

3.15.055 SEVERABILITY CLAUSE. It is hereby declared to the intention of the City Council that each and every part of this ordinance is severable, and if any term, phrase, clause, sentence, paragraph or section of this ordinance shall be declared unconstitutional or invalid by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality or invalidity shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this ordinance since the same would have been enacted by the City Council without the incorporation in this ordinance of any such unconstitutional or invalid term, phrase, clause, sentence, paragraph or section. - C. Where the provisions of subsection (b) of this section are utilized, the credit provisions of section 3.15.040 (f) of this ordinance shall apply at such time as the aggregate sales and use taxes legally imposed by and paid to other statutory and home rule municipalities or any such equipment equal 3%.
- D. In order to avail himself of the provisions of subsection (b) of this section, the taxpayer shall comply with the following procedure:
 - 1. Prior to or on the date the equipment is located within the boundaries of the City, the taxpayer shall file with the City Clerk an equipment declaration on a form provided by the City. Such declaration shall state the dates on which the taxpayer anticipates the equipment will be located within and removed from the boundaries of the City, shall include a description of each such anticipated piece of equipment, shall state the actual or anticipated purchase price of each such anticipated piece of equipment and shall include such other information as

 3. The taxpayer need not report on any equipment declaration any equipment for which the purchase price was under \$2,500.
- E. If the equipment declaration is given as provided in subsection (d) of this section, then as to any item of construction equipment for which the customary purchase price is under \$2,500 which was brought into the boundaries of the City temporarily for use on a construction project, it shall be presumed that the item was purchased in a jurisdiction having a local sales or use tax as high as 3% and that such local sales or use tax was previously paid. In such case the burden of proof in any proceeding before the City, the executive director of the department of revenue, or the district court, shall be on the City to prove such local sales or use tax was not paid.
- F. If the taxpayer fails to comply with the provisions of subsection (d) of this section, the taxpayer may not avail himself of the provisions of subsection (b) of this section and shall be subject to the provisions of subsection (a) of this section. However, substantial compliance with the provisions of subsection (d) of this section shall allow the taxpayer to avail himself of the provisions of subsection (b) of this section.

After review of these documents, the city clerk may excuse such person from paying an estimated use tax if he finds that the person requesting an exemption qualifies for such exemption under Section 3.15.040.
 - D. Before a final building inspection is allowed and a certificate of occupancy is issued, a use tax return, in such form and with such supporting documentation as the city clerk may require, must be filed with the city clerk, and all use tax due to the city must be paid. If estimated use taxes were paid according to ICBO table valuations per section 3.15.070 (a) (1), and if no credit or refund is being claimed, the City shall consider estimated use taxes paid in to equal use taxes due, and no use tax return shall be required.

The Finance Director is hereby authorized to waive, for good cause shown, any penalty assessed.
- C. If any vendor fails to make a return and pay the tax imposed by the chapter, the City may make an estimate, based upon available information of the amount of tax due and add the penalty and interest provided above. The City shall mail notice of such estimate, by certified or registered mail, to the vendor at his address as indicated in the City records. Such estimate shall thereupon become an assessment, and such assessment shall be final and due and payable from the taxpayer to the Finance Director ten (10) days from the date of service of the notice or the date of mailing by certified or registered mail; provided, however, that within the ten (10) day period such delinquent taxpayer may petition the Finance Director for a revision or modification of such assessment and shall, within such ten day period, furnish the Finance Director the documents, facts and figures showing the correct amount of such taxes.

Such actions may be actions in attachment, and writs of attachment may be issued to the police or sheriff, as the case may be, and in any such proceeding no bond shall be required of the Finance Director, nor shall any policeman or sheriff require of the Finance Director an indemnifying bond for executing the writ of attachment or writ of execution upon any judgment entered in such proceedings. The Finance Director may prosecute appeals in such cases without the necessity of providing bond therefor.

The monthly returns of the vendor as required hereunder shall be made

in such manner and upon such forms as the Finance Director may prescribe.

- C. *Accounting Practice.* If the accounting methods regularly employed by the vendor in the transaction of business, or other conditions, are such that the returns aforesaid made on a calendar month basis will impose unnecessary hardship, the Finance Director may, upon request of the vendor, accept returns at such intervals as will, in the Director's opinion, better suit the convenience of the vendor and will not jeopardize the collection of the tax; provided, however, the Director may by rule permit a vendor whose monthly tax collected is less than sixty dollars (\$60.00) to make returns and pay taxes at intervals not greater than three (3) months.
- D. *Duty to Keep Books and Records.* It shall be duty of every vendor to keep and preserve suitable records of all sales made by the vendor and such other books or accounts as may be required by the Finance Director in order to determine the amount of the tax for the collection or payment of which the vendor is liable under this Chapter. If the amount paid is less than the amount due, the difference together with interest shall be paid by the vendor within then (10) days after receiving written notice and demand from the Finance Director. The Finance Director may extend that time for good cause.
- B. If any part of the deficiency is due to negligence or intentional disregard of this Chapter,

or any regulations promulgated thereunder, but without intent to defraud, there shall be added ten percent (10%) of the total amount of the deficiency, and interest, from the person required to file the return. If any part of the deficiency is due to fraud with the intent to evade the tax, then there shall be added fifty percent (50%) of the total amount of the deficiency and in such case, the whole amount of the unpaid tax, including the additions, shall become due and payable ten (10) days after written notice and demand by the Finance Director.

- C. Upon receipt of such application, the Finance Director shall examine the same within fourteen (14) days and shall give notice to the applicant by an order in writing of the decision thereon.

The Finance Director is hereby authorized to waive, for good cause shown, any penalty assessed.

- C. If any vendor fails to make a return and pay the tax imposed by the Chapter, the City may make an estimate, based upon available information of the amount of tax due and add the penalty and interest provided above. The City shall mail notice of such estimate, by certified or registered mail, to the vendor at his address as indicated in the City records. Such estimate shall thereupon become an assessment, and such assessment shall be final and due and payable from the taxpayer to the Finance Director ten (10) days from the date of service of the notice or the date of mailing by certified or registered mail; provided, however, that within the ten (10) day period such delinquent taxpayer may petition the Finance Director for a revision or modification of such assessment and shall, within such ten (10) day period, furnish the Finance Director the documents, facts and figures showing the correct amount of such taxes due.
- D. Such petition shall be in writing and the facts and figures submitted shall be submitted either in writing or orally, and shall be given by the taxpayer under oath and under penalty of perjury.
- E. Thereupon, the Finance Director may modify such assessment in accordance with the facts submitted in order to effectuate the provisions of this Chapter. Such assessment shall be considered the final order of the Finance Director, and may be reviewed under the Rule 106(a)(4) of the Colorado Rules of Civil Procedure, provided that the taxpayer gives written notice to the Finance Director of such intention within ten (10) days after receipt of the final order of assessment.
- F. The tax imposed by this Chapter shall be a lien upon the goods and business fixtures of the vendor and upon the real property and appurtenant premises at which the taxable transactions occurred. The City may foreclose such lien in accordance with law and record notices of such lien in the records of the Mesa County Clerk and Recorder's Office.
- G. The City may also certify the amount of any delinquent taxes as a delinquent charge upon the property at which the taxable transaction occurred to the County Treasurer for collection in the same manner as delinquent general ad valorem taxes are collected pursuant to Section 31-20-105, C.R.S.

(Ord. 2010-02, S1)

above provided. (Ord. 2010-02, S1)

3.19.140 TRUST STATUS OF TAX IN POSSESSION OF VENDOR. All sums of money paid by the purchaser to the vendor as taxes imposed by this Chapter shall be and remain public money, the property of the City, in the hands of such vendor, and the vendor shall hold the same in trust for the sole use and benefit of the City until paid to the Finance Director as herein provided, and for failure so to pay to the Finance Director, such vendor shall be punished for a violation hereof. (Ord. 2010-02, S1)

Hearings before the Finance Director pursuant to provisions in this Chapter shall be held pursuant to Chapter 2.60, Rules Governing Administrative Proceedings, of this Code. Any subpoena issued pursuant to this Chapter may be enforced by the Fruita Municipal Court pursuant to Section 13-10-112(2), C.R.S. Subpoenas issued under the terms of this Chapter may be served by any person of full age. The fees of witnesses for attendance at a hearing shall be the same as the fees of witnesses before the District Court, such fees to be paid when the witness is excused from further attendance. When the witness is subpoenaed at the instance of the Finance Director, such fees shall be paid in the same manner as other expenses under the terms of this Chapter, and when a witness is subpoenaed at the instance of any party to any such proceeding, the Finance Director may require that the cost of service of the subpoena and the fee of the witness be borne by the party at whose instance the witness is summoned. In such case, the Finance Director, at his discretion, may require a deposit to cover the cost of such service and witness fees. A subpoena issued as aforesaid shall be served in the same manner as a subpoena issued out of a court of record. (Ord. 2010-02, S1)

3.19.160 JUDGE COMPELS ATTENDANCE. The Fruita Municipal Judge, upon the application of the Finance Director, may compel the attendance of witnesses, the production of books, papers, records of memoranda, and the giving of testimony before the Finance Director or any duly authorized deputies, by an attachment for contempt, or otherwise, in the same manner as production of evidence may be compelled before the Court. (Ord. 2010-02, S1)

The Finance Director or any party in an investigation or hearing before the Finance Director may cause the deposition of witnesses residing within or without the State to be taken in the manner prescribed by law for like depositions in civil actions in courts of this State and to that end compel the attendance of witnesses and the production of books, papers, records or memoranda. (Ord. 2010-02, S1)

3.19.180 TAX LIEN/ENFORCEMENT.

A. The tax imposed by this Chapter, together with the interest and penalties herein provided and the costs of collection which may be incurred, shall be and, until paid, remain a first and prior lien superior to all other liens on all the tangible personal property of a taxpayer within the City and may be foreclosed by seizing under distraint warrant and selling so much thereof as may be necessary to discharge the lien. Such distraint warrant may be issued by the Finance Director whenever the taxpayer is in default in the payment of the tax, interest, penalty or costs. Such warrant may be served and the goods subject to such lien seized by any police officer or any duly authorized employee of the City. The property so seized (except for medical marijuana) may be sold by the agency seizing the same or by the Finance Director at public auction after ten (10) days have passed after an

advertisement in a newspaper published in the City.

- B. The Finance Director or the Sheriff of Mesa County shall forthwith levy upon sufficient amounts of the property of the taxpayer, and the property so levied upon shall be sold in all respects, with like effect and in the same manner as is prescribed by law in respect to executions against property upon judgment of a court of record, and the remedies of garnishment shall apply. The Sheriff shall be entitled to such fees in executing such warrant as are allowed by law for similar services.
- C. The tax imposed by this Chapter shall be, and remain, a first and prior lien superior to all other liens on the real property and appurtenant premises at which the taxable transactions occurred.

(Ord. 2010-02, S1)

3.19.190 RECOVERY OF UNPAID TAX.

- A. The Finance Director may also treat any such taxes, penalties, costs or interest due and unpaid as a debt due the City from the taxpayer.
- B. In case of failure to pay the taxes, or any portion thereof, or any penalty, costs or interest thereon, when due, the Finance Director may recover at law the amount of such taxes, penalties, costs, the reasonable value of an attorney's time or the reasonable attorney's fees, including legal assistant's fees, charged, plus interest, in any municipal, county or district court of the county wherein the taxpayer resides or had a principal place of business (at the time the tax became due) having jurisdiction of the amount sought to be collected.
- C. The return of the taxpayer or the assessment made by the Finance Director shall be prima facie proof of the amount due.
- D. Such actions may be actions in attachment, and writs of attachment may be issued to the police or sheriff, as the case may be, and in any such proceeding no bond shall be required of the Finance Director, nor shall any police officer or sheriff require of the Finance Director an indemnifying bond for executing the writ of attachment or writ of execution upon any judgment entered in such proceedings. The Finance Director may prosecute appeals in such cases without the necessity of providing bond therefor.
- E. It shall be the duty of the City Attorney, when requested by the Finance Director, to commence action for the recovery of taxes due under this Chapter and this remedy shall be in addition to all other existing remedies, or remedies provided in this Chapter.

(Ord. 2010-02, S1)

3.19.210 LIMITATION ON ACTIONS.

- A. The taxes for any period, together with interest thereon and penalties with respect thereto, imposed by this Chapter shall not be assessed, nor shall notice of lien be filed, or distraint warrant be issued, or suit for collection be instituted, or any other action to collect the

same be commenced, more than three (3) years after the date on which the tax was or is payable. Nor shall any lien continue after such period, except for taxes assessed before the expiration of such three (3) year period, notice of lien with respect to which has been filed prior to the expiration of such period.

- B. In case of a false or fraudulent return with intent to evade the medical marijuana tax, the tax, together with interest and penalties thereon, may be assessed, or proceedings for the collection of such taxes may be begun at any time.
- C. Before the expiration of such period of limitation, the taxpayer and the Finance Director may agree in writing to an extension thereof, and the period so agreed on may be extended by subsequent agreements in writing.

(Ord. 2010-02, S1)

3.19.220 SEVERABILITY. The several sections, sentences, clauses and provisions of this Chapter are intended to be severable; if any such section, sentence, clause or provision is declared unconstitutional, invalid or unenforceable by the valid judgment of a court of competent jurisdiction, such unconstitutionality, invalidity or unenforceability shall not affect the remaining portions of this Chapter. (Ord. 2010-02, S1)

3.19.230 EXEMPTION FROM REVENUE LIMITATIONS. Upon this Chapter becoming effective, the medical marijuana tax imposed by this Chapter and the revenues derived therefrom shall be collected and spent as a voter approved revenue change, notwithstanding any revenue or expenditure limitations contained in Article X, Section 20, of the Colorado Constitution. The owner and the occupant of the property benefitted from the utility or service shall be jointly and severally liable for all amounts under the Fruita Municipal Code and this Chapter. The City shall not be required to look to any person whatsoever other than the owner for payment. The City may enforce payment by action at law. (Ord. 1989-10, S3)

3.20.025 - DISCONTINUANCE. If charges for irrigation water, sewer, garbage, trash and waste material pickup service or any other service, or any combination of these, remain unpaid for sixty (60) days after payment is due, the City may terminate service of the kind for which payment has not been made. In addition, the City may discontinue or require discontinuance of domestic water service should sewer charges remain unpaid for the time specified herein.

A. In order to terminate any or all of the foregoing types of service, the City shall send a notice of termination, by first class mail, or by certified mail, return receipt requested, at

the City's option, to the owner as listed on the City's records, and at the City's option, to the occupant of the premises served. The notice shall state:

1. The reason for termination, including as may be applicable, the unpaid charges for the services, and, if an ordinance or regulation of the City has been violated concerning the receipt or use of such services, the essential facts constituting the violation;
 2. A statement that the recipient of the notice may within ten (10) days after the notice is sent contact the City Clerk, Fruita City Hall, Fruita, Colorado, to question, adjust, and settle the matters in dispute; that failure to respond within ten (10) days will give rise to the exercise of the City's rights as provided herein;
 3. The right of the recipient to appeal the decision of the City Clerk to the Board of Utilities Service Appeals by filing a written notice of appeal to the City Clerk delivered not more than three (3) working days after the decision of the City Clerk concerning the matters in dispute, and upon such appeal the Board of Utilities Service Appeals shall review the matters in dispute and render a decision;

 5. The costs to be assessed for termination of utility service and for subsequent reinstatement of the service;
 6. Any other matter not inconsistent with the foregoing.
- B. Upon the request of a recipient of a notice of termination, the City Clerk shall meet and consult with the recipient of the notice within seven (7) days after the recipient's request to do so. If the City Clerk is unavailable, the City Manager shall appoint other City personnel to do so who shall have all powers granted herein to the City Clerk. The City Clerk shall be empowered to adjust and settle the dispute concerning charges for utilities service and violations of ordinances or regulations concerning the receipt or use of such services. At the conference, the City Clerk shall inform the recipient of the notice that the recipient has the right to appeal the decision of the City Clerk to the Board of Utilities Service Appeals.
- C. There is hereby created the Board of Utilities Service Appeal, which shall consist of the three (3) persons appointed by the Mayor. If a recipient of a termination notice files a written notice with the City to appeal the decision of the City Clerk rendered pursuant to Section B above within three (3) working days of such decision, then the Board of Utilities Service Appeals (Board) shall give notice of not more than five (5) days to the members of the board and to the appellant of the time and place of a meeting of the Board to affirm, review, or modify the decision of the City Clerk. Two members shall constitute a quorum. The meeting shall be informal, and at the request of the appellant

will be recorded. The City and the appellant may present any facts or data relevant to the dispute, with or without the swearing of an oath.

The Board shall consider the data and evidence before it, and, except as set forth in Section E below, shall order termination of utility service if arrearages for such service remain unpaid or if the appellant or user of the service in question has violated any ordinance or regulation concerning the receipt or the use of such service.

- D. The effective date of the termination of utility service shall be the earliest of:
1. Eleven (11) days after the mailing by the City of a notice of termination, if no appeal to the City Clerk is lodged;
 2. Four (4) working days after the decision of the City Clerk if no appeal of his decision is lodged to the Board;
 3. Three (3) days after the decision of the Board.
- E. Notwithstanding the foregoing or any other part of the Fruita Municipal Code, utility service shall not be terminated if;

Non payment of a bill has continued for more than thirty (30) days, but current bills {meaning that portion of the bill which is not more than thirty (30) days past due} are being paid when due and all past due installments are being amortized by reasonable installment payments approved by the City Clerk;
 4. The utility services for which payment has been made were rendered to a previous occupant of the same premises to be served and were not ordered by the present or prospective customer, provided, however, the City may decline to furnish service at the same premises if subterfuge has occurred or if ownership of the premises has not changed. Subterfuge includes, but is not restricted to, an application for utility service at a given location in the name of another party by an applicant whose account is delinquent and who continues to reside at the premises.
- F. Service may be terminated without prior notice and appeal procedures if the City determines that a bypass has been installed on a customer's service meter, a short circuit exists on a user's premises or service is being received or utilized in such a manner as to create a dangerous condition for occupants of the premises or others which requires immediate discontinuance of service in the opinion of the City.
- G. The owner or occupant shall be liable for all costs incurred by the City in the

discontinuance or resumption of any service.

(Ord. 1989-10, S3)

3.20.030 PROPERTY LIEN.

A. If the charges for irrigation water, sewer, garbage, trash and waste material pick up service, or any combination of these, remain unpaid for sixty (60) days after payment is due, the City may send a notice of lien assessment, by first class mail, or by certified mail, return receipt requested, at the City's option, to the owner as listed on the City's records, and at the City's option, to the occupant of the premises served. The notice shall state:

1. That the City seeks a lien on the property served for the amount of the unpaid charges for the utility services;
2. That the recipient of the notice may within ten (10) days after notice is sent contact the City Clerk of the City of Fruita to question, adjust and settle the matters in dispute, that failure to respond in ten (10) days will give rise to the exercise of the City's lien rights as provided herein;
3. That the recipient may appeal the decision of the City Clerk to the Board of Utilities Service Appeals by filing a written notice of appeal to the City Clerk delivered not more than three (3) working days after the decision of the City Clerk concerning the matters in dispute, and upon such appeal, that the Board of Utilities Services Appeal shall review the matters in dispute and render a decision;
4. That a lien for unpaid charges for utilities services shall be assessed against the properties served if the arrearages remain unpaid and if the matters in dispute are determined adversely to the appellant, and that the amount of the lien shall be equal to arrearages for unpaid utilities services and other costs allowed by this ordinance. Should the owner or occupant not respond within ten (10) days, then the amount of the arrearages as determined by the City shall become a lien upon the property served which shall run in favor of the City.

B. Should the owner or occupant respond within ten (10) days, the City Clerk and subsequently, if applicable, the Board of Utilities Service Appeal shall meet with the person or persons to whom the notice was sent to determine whether a lien should be asserted for arrearages for utilities services on the property served. The procedures shall follow substantially those set forth in subsections B and C of section 3.20.025 of this chapter, except that the question to be resolved shall be whether a lien should be asserted on the property to which the utility services were furnished and the extent of arrearages for nonpayment. If the City Clerk or on appeal the Board of Utilities Service Appeal, if

an appeal is made, determines that such arrearage exists as of the date of decision of the City Clerk or the Board, if an appeal is made, then the amount of the arrearages shall become a lien on the property served and may be recorded forthwith and foreclosed

pursuant to Colorado law.

- C. At the same time that the amount of arrearages may become a lien on the property served, it shall be the prerogative of the City Clerk to certify the property description in the amount of the charge, assessment or tax to the County Treasurer or other officer of the County having custody of the tax list, at the same time of such certification, to be by him placed on the tax list for the current year to be collected in the same manner as other taxes collected. All the laws of the State of Colorado for the assessment and collection of general taxes, including C.R.S. 31-20-105 and the laws for the sale of property for taxes and the redemption thereof, shall apply to and have full effect for the collection of charges, assessments or taxes.

When utility service is rendered to premises occupied by a lessee or licensee, the City may require the owner as well as the lessee or licensee to agree to pay and to pay for charges for all utility, irrigation, sewer, garbage, trash and waste material pick up service.

The City may require any such owner, lessee, or licensee to pay an advance deposit for an amount equal to but not more than the anticipated bill for two month's utility service, which may be used to satisfy unpaid arrearage for such service. The deposit shall be refunded when such person discontinues the use of the utility service for which the deposit was made, if all arrearages are fully paid.

(Ord. 1989-10, S3)

3.20.045 DEPOSITS. The City shall require a security deposit in the amount of twenty-five dollars (\$25.00) for each and every new account concerning any services or utility provided to any parcel. (Ord. 1989-10, S3)

3.20.050 REMEDIES. Remedies provided hereunder shall be cumulative in nature and in addition to all other remedies codified in the Fruita Municipal Code or otherwise recognized under the laws of the State of Colorado. (Ord. 1989-10, S3)

3.20.055 DUTY OF PROPERTY OWNER TO NOTIFY CITY. It is the duty of the property owner to notify the City of the utilization of any of the City services at or about the parcel owned by him within 30 days after the commencement of the use. Failure to notify the City will subject owner of record to a penalty of fifty dollars (\$50.00). Penalties shall bear interest at the rate of one and one half percent (1.5%) per month until paid. Collection of said penalties shall be as provided in this Chapter. (Ord. 1989-10, S3)

3.20.065 SEVERABILITY CLAUSE. If any provision of this ordinance or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or application of this ordinance which can be given effect without the invalid provisions or applications, and to this end, the provisions of this ordinance are declared to be severable. To that end, the following provisions are applicable in the event said ban is overturned.

A. License required.

1. It shall be unlawful for any person to operate a Medical Marijuana Business without first having obtained a license to operate pursuant to the provisions of this Chapter, having paid the fees therefor, as well as having obtained a license to operate from the State Licensing Authority. The licensing requirements apply to

any Medical Marijuana Businesses that exist on the effective date of this Chapter and any Medical Marijuana Businesses established after such effective date.

2. Any person violating this Section commits a Class A municipal offense. A person committing a violation shall be guilty of a separate offense for each day or part thereof during which the offense is committed or continued to be permitted by such person and shall be punished accordingly.

5. No license for a Medical Marijuana Business shall actually be issued by the City until a license for such use, at the location designated in the application, has been issued by the State Licensing Authority.
6. The issuance of a license pursuant to this Chapter does not create a defense, exception or provide immunity to any person in regard to any potential federal criminal liability the person may have for the production, distribution or possession of marijuana.
7. Every license issued under this Chapter confers only a limited and conditional privilege subject to the requirements, conditions, and limitations of this Chapter

and State law. The license does not confer a property right of any kind. The license and the privilege created by the license may be further regulated, limited, or completely extinguished at the discretion of the City Council or the electors of the City, without any compensation to a Licensee. Every license approved or issued under this Chapter 5.15 shall be subject to the future exercise of the reserved rights of referendum and initiative, exercise of the local option described in Section 12-43.3-106, C.R.S., and any other future ordinances adopted by the electors of the City or the City Council. Nothing contained in this Chapter grants to any Licensee any vested right to continue operating under the provisions of this Chapter as they existed at the time the license was approved or issued and every license shall be subject to any ordinance or prohibition adopted after the license was approved or issued.

8. A separate license shall be required for each location from which a Medical Marijuana Business is operated.

C. General Licensing Procedure and Regulations.

The City Clerk shall have authority to promulgate and employ reasonable regulations associated with the making and processing of applications for Medical Marijuana Business licenses. The City Clerk also may promulgate regulations concerning the processes and procedures associated

with the issuance, renewal, denial, suspension and/or revocation of such licenses that supplement and are not inconsistent with the provisions of this Chapter. Such regulations shall be written and shall become effective when copies of the same have been provided to the City Council and made available to the public, or upon a later effective date set forth in the regulations.

D. Application and License Fees.

1. Application and license fees for Medical Marijuana Businesses shall be as established in an annual fees and charges resolution adopted by the City Council.

The primary purpose of the fees established by the City Council is to defray the costs of the particular municipal services provided and not to defray the costs of general services provided by the City or to raise general revenues. The fees provided in this Section are reasonably related and proportional to the costs of the services provided and do not generate additional net revenue.
3. If any license or application is denied, approved but not issued, lapsed, abandoned, or withdrawn, only the license fee shall be refunded to the applicant.

1. Application for a Medical Marijuana Business license shall be made to the City Clerk upon forms provided by the City Clerk for that purpose. A fully executed lease may satisfy this requirement if it clearly indicates that the owner knows the leased premises will be used as a licensed Medical Marijuana Business. Any application for a Medical Marijuana Business license shall be accompanied by the application fee, criminal background check fee, and an annual fee as required by Section 5.15.060 or in any resolution adopted pursuant thereto. No application shall be deemed complete or be processed in the absence of the payment of such fees.
3. Upon receipt of an application for a Medical Marijuana Business license, the City shall determine whether the proposed facility is or will be in full compliance with any and all applicable laws, rules and regulations.

4. Unless an application is under concurrent review by the State Licensing Authority and the Local Licensing Authority, the Police Department shall perform a criminal background investigation for the proposed Licensee, Business Manager, if any, the Principals of the entity, if applicable, persons holding a financial interest in the proposed business, prospective employees and any other persons subject to a criminal background check under the provisions of the Colorado Medical Marijuana Code in connection with any license application permitted thereunder. 5.40.010 PURPOSE AND DESCRIPTION. The purpose of these regulations is to provide for the regulation and licensing of sexually oriented businesses within the City in a manner which will protect the property values, neighborhoods and residents from the potential adverse secondary effects of sexually oriented businesses while providing to those who desire to patronize sexually oriented businesses the opportunity to do so. It is not the intent of this Chapter to suppress any speech activities protected by the First and Fourteenth Amendments of the United States Constitution or Article II, Section 10 Colorado Constitution, but to impose content-neutral regulations which address the adverse secondary effects of sexually oriented businesses. Nothing in this Chapter is intended to authorize or license anything otherwise prohibited by law.

Sexually oriented businesses are frequently used for unlawful sexual activities, including prostitution. The concern over sexually transmitted diseases is a legitimate health concern of the City which demands reasonable regulation of sexually oriented businesses to protect the health and well-being of the citizens, including the patrons of sexually oriented businesses. Licensing of sexually oriented businesses is a legitimate and reasonable means of ensuring that operators of sexually oriented businesses comply with reasonable regulations and that operators do not knowingly allow their businesses to be used as places of illegal sexual activity or solicitation.

There is convincing documented evidence that sexually oriented businesses, because of their nature, have a deleterious effect on both the existing businesses around them and surrounding residential areas causing increased crime and downgrading of property values. The purpose of this Chapter is to control adverse effects from sexually oriented businesses and thereby protect the health, safety and welfare of the citizens; protect the citizens from increased crime; preserve the quality of life; preserve the property values and character of the surrounding neighborhoods and deter the spread of urban blight. This Section shall not be construed so as to prevent an individual resident from hauling his own waste matter providing it is disposed of properly and in conformity with all City, County and State regulations. However, such individual hauling does not relieve a resident from the payment of the monthly charge imposed in Section 8.08.080 (G) of the Fruita Municipal Code. Nothing in this Chapter shall be constructed to relieve any contractor of the obligation of cleaning up premises after completion of a contract. The authority to contract went into effect on April 5, 1983 with approval of a majority of those voting in a special election on that date.
- B. Scope of Contract. The City, its contractors, or City licensed operators shall furnish weekly residential solid waste collection and disposal service as herein provided to all persons resident within the City.

The owner or tenant or occupant of a single family dwelling unit and multi-family residences of less than eight (8) units within the City limits shall pay a monthly fee to the City in an amount established annually by resolution of the Fruita City Council for the collection and removal of residential solid waste for each single family residence or for each dwelling unit of a multi-family residence that uses an individual disposal container for each dwelling unit. The amount of said charge and the manner of billing may be changed at any time by resolution of the City Council. Any resident may be billed an additional charge to be fixed by the City Manager for picking up solid waste which does not comply with the requirements of this Section.
- D. Delinquent Accounts. Collection of amounts due for residential solid waste collection services are subject to the provisions of Chapter 3.20, Uniform Collection Ordinance. The City of Fruita shall not shut off or attempt to have shut off domestic water service to any resident or residence of the City for nonpayment of residential solid waste removal charges.
- E. Placing of Waste Matter for collection:

8.08.090 COMMERCIAL SOLID WASTE COLLECTION. The owner, tenant or occupant of any restaurant, hotel, store, office, motor court, commercial enterprise or other building with businesses (except single family dwelling units and multi-family residences of less than eight (8) units where each dwelling unit of a multi-family residence uses an individual disposal container), shall contract on an individual basis with private refuse hauling contractors and will be billed by and pay directly to said contractor. Nothing in this Chapter shall be construed as preventing a commercial establishment from hauling its own waste matter providing it is properly disposed of in conformity with all City and County regulations, but such commercial establishment shall still be subject to all other provisions of this Chapter. (Ord. 279, S2, 1973; Ord. 249, S1, 1970; Ord. 2011-01, S3)

No person shall place hazardous or infectious waste in containers for collection or bury or otherwise dispose of hazardous waste in or on private or public property within the City. All hazardous and/or infectious waste shall be disposed of in accordance with County, State and Federal regulations. Residents may contact the Mesa County Solid Waste Management division for information on proper disposal of hazardous wastes. Any person who violates any of the provisions of this Section commits a Class A municipal offense. (Ord. 279, S2, 1973; Ord. 249, S1, 1970; Ord. 2011-01, S3)

8.08.110 PENALTIES. Except as otherwise provided in the Sections of this Chapter, any corporation, firm, agent or person violating any provision of this Chapter shall be deemed guilty of a noncriminal offense. 8.14.010 DEFINITIONS.

- A. AQI – Air Quality Index – An index for reporting daily air quality. It tells citizens how clean or polluted the air is, and what associated health effects might be a concern. The AQI focuses on health effects citizens may experience within a few hours or days after breathing polluted air. The AQI is determined by the Colorado Department of Public Health and Environment.
- B. “Good” AQI – 24-hour value for AQI ranges between 0 – 50. Air quality is considered satisfactory, and air pollution poses little or no risk.
- C. “Moderate” AQI – 24-hour value for AQI ranges between 51 – 100. Air quality is acceptable; however, for some pollutants there may be moderate health concern for a very small number of people. For example, people who are usually sensitive to ozone may experience respiratory symptoms.
- D. “Unhealthy-for-sensitive-groups” AQI – 24-hour value for AQI ranges between 101 - 150. Although the general public is not likely to be affected at this AQI range, exposure to ozone is a greater risk for people with lung disease, older adults and children, whereas exposure to the presence of particles in the air also affects those persons with heart disease as well as other groups.
- E. “Unhealthy” AQI – 24-hour value for AQI ranges between 151 – 200. Everyone may begin to experience some adverse health effects, and members of the sensitive groups may experience more serious effects.
- F. “No Burn” Day – Forecast issued by the Mesa County Health Department when “Moderate,” “Unhealthy-for-sensitive-groups” or “Unhealthy” AQIs are forecast, in combination with monitored PM10 and PM2.5 values and visibility conditions warrant, during the Western

Slope Air Watch season. PM10 is a standard measurement of Particulate Matter that includes particles with a diameter of 10 micrometers or less (0.0004 inches or one-seventh the width of a human hair) and affects respiratory health and visibility. PM2.5 is the standard measurement of fine particles (smaller than 2.5 micrometers in diameter) that have effects on health.

- G. “Burn” Day – Forecast issued by the Mesa County Health Department when “Good” AQIs are forecast, in combination with evaluation of monitored PM10 and PM2.5 values and as visibility conditions warrant, during Western Slope Air Watch season.
- H. Western Slope Air Watch season (WSAW) – The annually recurring period during which Burn/No Burn forecasts shall be issued. The period shall run from November 1st through the last day of February.
- I. EPA Certified – When a wood stove or fireplace insert has been tested, certified and labeled for emissions standards in accordance with criteria and procedures specified in Colorado and Federal Air Quality Regulations as specified in Colorado Air Quality Control Commission Regulation No. 4 Section II.
- J. Non-qualified Wood stove or Fireplace. A wood stove or fireplace that does not meet the City of Fruita Land Use Code or EPA Standards.
- K. National Ambient Air Quality Standards (NAAQS) – Clean Air Act Standards for widespread pollutants from numerous and diverse sources considered harmful to public health and the environment, specifically those for PM10 and PM2.5.

(Ord. 2013-05, S1)

8.14.020 ENDORSEMENTS. The continuation of Mesa County voluntary NO-BURN Program which was established in 1990 and implemented by the Mesa County Health Department. Documentation that Mesa County is impacted by high air pollution days, with monitored PM2.5 values close to the NAAQS.

Programs which provide incentives to reduce the use of non-EPA wood burning devices.

It shall be the duty of all persons owning or operating a non-qualifying wood heating appliance to be aware of any declaration by the Mesa County Health Department. Any such declaration shall constitute constructive notice of the existence of a “No Burn” day and of the applicability of the Chapter. Each time a “No Burn” day is declared, four hours shall be allowed for the burn down of existing fires in non-qualifying wood heating appliances prior to the initiation of enforcement.
- B. It shall be unlawful to operate any wood heating appliance during a “No Burn” day. A three-step enforcement procedure shall be followed for violations pursuant to this Section.
1. If an owner, keeper, or a member of the household over the age of 18 years has received at least one warning from the City of a complaint within twelve (12) months of being notified of the first official complaint, a person shall be deemed guilty of a non-criminal offense. 12.20.010 GRID SYSTEM - ESTABLISHED - DESCRIPTION. An overlying grid system is established following the present developed areas of Fruita and extending into the undeveloped areas and overlapping the existing irregular sized blocks. With Park Square (Circle Park) as the center, this grid will be maintained so that a uniform system exists for present and future numbering of addresses. The streets shall radiate in four directions from Park Square, with east, west, north or south prefixes assigned. The national pattern will be followed which means that all north and west thoroughfares will be odd numbered and all east and south thoroughfares will be even numbered. (Ord. 299, S1, 1974)

12.20.020 THOROUGHFARES DESIGNATED AS STREETS OR AVENUES WHEN. All east-west thoroughfares will be designated avenues, and all north-south thoroughfares will be designated streets. (Ord. 299, S2, 1974)

12.20.030 GRID SYSTEM--CENTER AND NUMBERING PROCEDURE. Beginning at Park Square and proceeding in each of the four directions, the first block (or grid) will be numbered from 100 through 199, thence 200 through 299, etc., with a number assigned for every fifteen feet beginning at the corner of the block or grid pattern

In areas where there are no established blocks, the numbering on a footage basis will commence with the corner of the block and continue to the beginning of the next block, making utilization, if necessary, of the street footage within the grid pattern. (Ord. 299, S3, 1974)

12.20.040 NUMBERING--PARK SQUARE. Park Square (Circle Park) addresses will be named and numbered as follows:

- C. Then starting on Park Square at West Aspen Avenue, numbering from north to south, then east, then north to East Aspen Avenue, all addresses being even-numbered South Park Square, again deleting Mesa Street footage. (Ord. 299, S4, 1974)

12.20.050 NUMBERING--CLEVELAND ADDITION. As a result of the offsetting streets in the Cleveland Addition and the necessity of condensing the grid pattern to conform, blocks in the Cleveland Addition from Maple Street to Apple Street (now Second Street in the Cleveland Addition) will be considered 500 blocks. The west half of the blocks in the Cleveland Addition between Apple and Ash (all blocks south of what is presently McCune Avenue) will be numbered in the 600 series and the east half of the same blocks will be numbered in the 700 series. Such private sewage disposal system shall be constructed, maintained and operated at all times in a sanitary manner. (Ord. 272, S3 (part), 1972)

13.20.030 USE OF PUBLIC SEWERS REQUIRED - PRIVATE FACILITIES DISMANTLED WHEN. The City council deems it necessary for the protection of the public health that the owners of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purposes, situated within the city, install at the owner's expense suitable toilet facilities therein, and connect such facilities directly with the proper public sewer in accordance with the provisions of this chapter; provided, that the public sewer runs within four hundred feet of the boundary line of such property. Such connection with the public sewer systems shall be made within thirty days after date of written notice given by registered mail, to such owners notifying them to connect their premises with the sewer.

At such time as a public sanitary sewer runs within four hundred feet of the property line of any property served by a private sewage disposal system, a direct connection shall be made to the public sanitary sewer in accordance with the provisions of Chapters 13.16 through 13.28, and any septic tank, cesspool or similar sewage disposal facilities shall be abandoned and filled with suitable material.

(Ord. 404, S6, 1979)

13.20.040 PERMIT - REQUIRED WHEN. It is unlawful for any person to open, uncover or in

any manner make connection with any sewer main or line of the city, or to lay drain or sewer pipes on any premises or in any street or alley in the city without first obtaining a written permit therefor from the city. (Ord. 272, S4, 1972)

13.20.050 PERMIT - APPLICATION - CONTENTS REQUIRED. The application for the permit shall be in writing on a form provided by the city which shall require at least the following information, together with any plans, specifications, or other information considered pertinent in the judgment of the official of the city having authority over such matters:

- A. Name and address of applicant;
- B. Name and address of owner of the premises where the connection is to be made, or where the drain or line is to be laid;
- C. Location of the proposed connection, drain or sewer pipes;
- D. Statement as to the type, materials and method of connection and the type of materials to be discharged into the sewer;
- E. Statement as to whether the connection is to be made to the storm sewer or the sanitary sewer.

(Ord. 404, S7, 1979)

13.20.060 PERMIT - ISSUANCE, SPECIFICATIONS INCLUDED. The city clerk shall issue a permit for such connection if the application contains all the required information and the superintendent finds that the proposed connection complies with all the provisions of the applicable ordinances of the city and the sewer installation regulations of the city. Such permits shall contain all information contained in said application and shall specify the type and kind of connections and grease and sand traps to be used, together with the specifications of construction. (Ord. 404, S8, 1979)

13.20.070 CONSTRUCTION, STANDARDS, SUPERVISION AND INSPECTION. Any user of the sewer system, either inside or outside of the boundaries of the city, must build his own sewer line if there is no line available for him to connect with. All connections to the city's sewer system must be made subject to the supervision and inspection of the superintendent, and in compliance with the Fruita plumbing code. (Ord. 404, S9, 1979)

13.20.080 CONNECTIONS OF SANITARY SEWERS AND BUILDING SEWERS.

- A. A separate and independent building sewer shall be provided for every building; except, where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer. The city does not and will not assume any obligation or responsibility for damage caused by or resulting from any such single

- connection. Each such application shall be reviewed and appropriate action taken on a case-by-case basis. No such connection shall be approved without written approval and an agreement to hold the city harmless from any damage resulting from such connection from the owner of the front building.
- B. Building sewers for existing buildings may be used in connection with new buildings only when they are found, on examination and test by the superintendent, to meet all requirements of Chapters 13.16. through 13.28 of this title.
 - C. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, the means of lifting and discharging into the building sewer of the sanitary sewage carried by such building drain shall be approved by the superintendent.
 - D. No person shall make connection of roof down spouts, foundation or floor drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
 - E. All connections of the building sewer into the public sewer shall be made gas tight and watertight and verified by proper testing. Any deviation from the procedures and materials prescribed in this chapter and the sewer installation regulations of the city must be approved by the superintendent before installation. The applicant for the building sewer permit shall notify the appropriate city official when the building sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of that official or his representative.
 - F. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored by the owner in a manner satisfactory to the city.
 - G. All costs and expenses incidental to the installation and connection of the building sewer shall be borne by the owner of the property on which it is installed. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer in writing prior to connection of the building sewer to the city sewer system.

(Ord. 404, S10, 1979)

13.20.090 CONSTRUCTION STANDARDS - BUILDING AND SANITARY SEWERS. The size, slope, alignment, materials of construction of all sanitary sewers including building sewers, the methods to be used in excavating, placing of the pipe, jointing, testing, backfilling the trench, and connection of the building sewer into the public sewer, shall all conform to the requirements of the Fruita building and plumbing codes and the provisions of this title. (Ord. 404, S11, 1979)

13.24.020 RULES AND REGULATIONS - ADOPTION AND ENFORCEMENT AUTHORITY. The city council shall make and enforce such rules and regulations as it may deem necessary for the safe, efficient and economical management of the city sewer system. Such rules and regulations, when not repugnant to this code or any other ordinances of the city and the laws of the state, shall have the same force and effect as ordinances of the city. (Ord. 272, S22, 1972)

13.24.030 USE OF THE PUBLIC SEWERS - PROHIBITED ACTS - REMEDIES.

- A. No person shall discharge or causes to be discharged any of the following described water or wastes into any public sewer:
1. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas;
 2. Any water containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the wastewater treatment plant;
 3. Any waters or wastes having a PH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment or personnel

of the wastewater works;

4. Solid or viscous substances in quantities or of size capable of causing obstruction to the flow in sewers, or other interferences with the proper operation of the wastewater facilities such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, un-ground garbage, whole blood, paunch manure, hair and fleshings, entrails or - either whole or ground by garbage grinders - paper dishes, cups or milk containers.
- B. The following described substances, materials, waters, or waste shall not be discharged into the city sewer system in concentrations or quantities which will
1. Harm the sewers or wastewater treatment facilities, process or equipment,
 2. Have an adverse effect on the receiving stream or
 3. Otherwise endanger lives, limb, public property, or constitute a nuisance.

The superintendent of wastewater facilities of the city or his representative may set limitations more stringent than the limitations established by this subsection if in his opinion such more severe limitations are necessary to meet the above objectives. In so doing, he shall give consideration to such factors as the quantity of the subject waste in relation to flows and velocities in the sewers, construction materials of the sewers, the wastewater treatment process employed, capacity of the wastewater treatment plant, degree of treat-ability of the waste in the wastewater treatment plants, and other pertinent factors.

The limitations or restrictions on materials or characteristics of waste or waste waters which shall not be discharged into the sanitary sewer without approval of the city are as follows:

- a. Wastewater having a temperature higher than one hundred fifty degrees Fahrenheit (sixty-five degrees Celsius);
- b. Wastewater containing more than twenty-five milligrams per liter of petroleum oil, non-biodegradable cutting oils, or product of mineral oil origin;
- c. Wastewater from industrial plants containing floatable oils, fat or grease;
- d. Any garbage that has not been properly shredded. Garbage grinders may be connected to sanitary sewers from homes, hotels, institutions, restaurants, hospitals, catering establishments, or similar places where garbage originates from the preparation of food in kitchens for the purpose of consumption on the premises or when served by caterers;
- e. Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances to such degree that any such material received in the composite wastewater at the wastewater treatment works

- exceeds the limits established by the appropriate official of the city for such materials;
- f. Any waters or wastes containing odor-producing substances exceeding limits which may be established by the city;
 - g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the city in compliance with applicable state or federal regulations;
 - h. Quantities of flow, concentrations, or both which constitute a "slug" as defined in Section 13.16.060;
 - i. Waters or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment processes employed by the city, or amenable to treatment only to such degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge of the receiving waters for the city's treatment facilities;
 - j. Any water or wastes which, by interaction with other water or wastes in the public sewer system, release obnoxious gases, form suspended solids which interfere with the collection system, or create any condition deleterious to structures and processes.
- C. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in subsection D of this section, the superintendent may take one or more of the following actions:
1. Reject the wastes;
 2. Require pretreatment to an acceptable condition for discharge into the public sewers;
 3. Require control over the quantities and rates of discharge or;
 4. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 13.28 of this title. When considering the above alternatives, the superintendent shall give consideration to the economic impact of each alternative on the discharger. If the superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the superintendent.
- D. Grease, oil, and sand interceptors shall be provided by the owner of the property at his expense when, in the opinion of the superintendent, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts as specified in subsection B (3) of this section, or any flammable wastes, sand, or other harmful ingredients;

- except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the superintendent and shall be located as to be readily and easily accessible for cleaning and inspection. In maintaining these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captured material, and shall maintain records of the dates and means of disposal, which records are subject to review by the superintendent. Any removal and hauling of the collected materials not performed by the owner must be performed by currently licensed waste disposal firms.
- E. Where pretreatment or flow-equalizing facilities are provided or required for any water or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
- F. When required by the superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such structures, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the superintendent. The structure shall be installed and maintained by the owner at his expense so as to be safe and accessible at all times.
- G. The superintendent may require a user of sewer services to provide information needed to determine compliance with this chapter. They may include:
1. Wastewater discharge peak rate and volume over a specified time period;
 2. Chemical analyses of waste waters;
 3. Information on raw materials, processes, and products affecting wastewater volume and quality;
 4. Quantity and disposition of specific liquid, sludge, oil, solvent, or other materials important to sewer use control;
 5. A plot plan of sewers on the user's property showing sewer and pretreatment facility location;
 6. Details of wastewater pretreatment facilities; and
 7. Details of systems to prevent and control the losses of materials through spills to the municipal sewer.
- H. Sampling methods, location, times, durations, and frequencies are to be determined on an individual basis subject to approval by the superintendent.
- I. No statement contained in this section shall be construed as preventing any special agreement

or arrangement between the city and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the city for treatment.

(Ord. 404, S12, 1979)

13.24.040 RUNOFF WATERS - DISCHARGE PROHIBITED - DISCONNECTION REQUIRED.

- A. No person shall discharge or cause to be discharged any unpolluted waters such as storm water, surface water, groundwater, roof runoff and subsurface drainage, or cooling water into any building or sanitary sewer.
- B. Storm water, runoff water and all other unpolluted drainage shall be discharged into such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the city and other regulatory agencies. Unpolluted industrial cooling water or process waters may be discharged, on prior approval of the city, into a storm sewer, or natural outlet.
- C. Where investigation reveals the presence in the system of runoff waters emanating from any source of new construction, as defined in this section and Section 13.16.030, the owner, lessor, renter or occupant of such lot, land, building or premises shall be at his own expense required to disconnect or remove from the sanitary sewer system the discharge of such runoff water.

(Ord. 404, S13, 1979)

13.24.050 POWERS AND AUTHORITY OF INSPECTORS.

- A. The superintendent and other duly authorized employees of the city, bearing proper credentials and identification, shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing pertinent to sanitary sewage discharge to the city's sewer system in accordance with the provisions of Chapter 13.16 through 13.28 of this title. While performing work pursuant to this subsection, all employees of the city shall observe all safety rules applicable to the premises established by the owner or contractor for its own employees.
- B. The superintendent or other duly authorized employees of the city are authorized to obtain information concerning industrial waste processes which have a direct bearing on the nature and source of discharge into the city wastewater collection system. No user of the city's sewer system shall withhold such information from those city officials unless the user establishes that such information represents a trade secret, the disclosure of which would significantly damage the business of the user.
- C. The city official and other duly authorized employees of the city, bearing proper credentials and identification, shall be permitted to enter all private properties through which the city holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, maintenance or replacement of any portion of

the city's sewer system lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the easement pertaining to the private property involved.

(Ord. 404, S14, 1979)

13.24.060 CONTROL MANHOLE REQUIRED WHEN - SPECIFICATIONS. When required by the city, the owner of any property served by a building sewer carrying industrial waste shall install a suitable control manhole in the building sewer to facilitate observation and sampling of the waste. Such manholes, when required, shall be accessible and safely located and shall be constructed in accordance with the plans approved by the city. The manholes shall be installed by the owner at his expense and shall be maintained by him so as to be safe and accessible at all times. (Ord. 272, S13, 1972)

13.24.070 ABANDONMENT OF CONNECTION - PERMIT REQUIRED - PROCEDURE. No person shall abandon any building connection without first obtaining a written permit therefor. Such building connection shall be effectively sealed with a vitrified clay stopper inserted in the bell of the sewer extending to the property line which stopper shall be jointed as directed by the city. (Ord. 272, S13, 1972)

13.24.080 INTERFERING WITH CITY EMPLOYEES OR DIGGING PROHIBITED WHEN. No person shall in any way interfere with the employees of the city in the discharge of their duties in the tapping of any sewer pipe, main or lateral. No person shall dig up or cause to be dug up any street or alley in the sewer system of the city, without first obtaining a permit from the city, and no person having a permit shall dig up any portion of any street or alley of the city for the purpose of:

- A. Connecting with the sewer system of the city; or
- B. Repairing, maintaining, or replacing any lateral sewer line and fail or neglect to place the street or alley in its original condition.

(Ord. 297, S2 (part), 1974; Ord. 272, S14 (part), 1972)

13.24.090 REPAIR AND MAINTENANCE RESPONSIBILITY. The city shall be responsible for the repair and maintenance of all main trunk sewer lines. The responsibility for the expense and cost of maintaining, repairing and replacing any lateral sewer line from the point where such lateral taps the main trunk line to the boundary of the user's property shall be borne and paid by the property owner served by any such lateral. (Ord. 297, S2 (b), 1974; Ord. 272, S14 (part), 1972)

13.24.110 PROHIBITED DEPOSITS - INDUSTRIAL OR OTHER POLLUTED WASTES -

EXCEPTION. No person shall discharge into any natural outlet within the city, or any area within the jurisdiction of the city, any sanitary sewer industrial waste or other polluted waste, except where suitable treatment has been provided. (Ord. 272, S16, 1972)

13.24.120 DAMAGING OR TAMPERING WITH EQUIPMENT PROHIBITED WHEN. No person shall maliciously, willfully or negligently break, damage or destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the city sanitary sewer system. (Ord. 272, S17, 1972)

13.24.130 PENALTIES.

- A. If such violation knowingly continues beyond the time limit set for correction, the user and owner shall be deemed to have committed a Class B municipal offense.
- B. Any person violating any of the provisions of the portions of the municipal code of the city specified in subsection A shall be liable to the city for any expense, loss, or damage caused by reason of such violation. (Ord. 404 S15, 1979; Ord. 2000-9, S100)

Chapter 13.28**SEWER RATES AND CHARGES****Sections:**

- 13.28.010 Plant Investment Fees**
13.28.020 Sewer charges
13.28.030 Nonpayment of charges - Penalties - Liens
13.28.040 Violation - Penalty

13.28.010 PLANT INVESTMENT FEES.

- A. At the time of making application to the city for sewer service from the City's sewer system, the applicant shall pay a plant investment fee. The plant investment fee shall be set by resolution of the City Council based on water tap size. For water taps larger than two inches (2") the City will calculate the specific plant investment fee.
- B. Additional Service - Fixtures.
1. An existing sewer tap shall not be subject to additional service, or a change in use, without obtaining approval from the City. Approval may be subject to conditions necessary to the interest of the City sewer system, including requirements for an additional sewer tap, an increase in tap size or pretreatment requirements.
 2. If an additional tap is required, all installation costs shall be the responsibility of the applicant and the appropriate plant investment fee paid. If a larger tap is required, all installation costs shall be the responsibility of the applicant and a plant investment fee equal to the difference between the existing tap size and the new tap size shall be assessed. Any costs for installation, equipment and appurtenances necessary to comply with pretreatment requirements are the responsibility of the applicant.

(Ord. 462, S1, 1981; Ord. 1983-32; Ord. 2011-04, S1)

13.28.020 SEWER CHARGES.

- A. There shall be levied and assessed upon each lot, parcel of land, building or premises in the city having any connection with the sewer system of the city, a monthly sewer service charge based on the information set out below.
- B. Definitions.
1. Equivalent Residential Unit (EQR). As used in this Ordinance, means a number related to the volume and treatment requirements of sewage discharged by a single-family residential unit. The volume and treatment requirements associated with an EQR are 4,000 gallons per month with BOD loading of 200 mg/L. EQR's assigned to

residential customers as set forth in the Table in paragraph (D) below are directly proportional to the volume of sewage discharged by a single-family residential unit.

2. Biochemical Oxygen Demand (BOD). The quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at twenty (20) degrees centigrade, expressed in milligrams per liter (mg/L). A BOD multiplier will adjust the EQR flow values assigned to residential customers to account for extra costs for treatment of excess BOD.
3. Residential Customer. A customer/user shall be classified as residential in nature if they receive sewer service at a condominium, townhome, detached single family residence, mobile home, multi-family residential apartment building, or senior citizens apartment building.
4. Non-Residential Customer. A customer/user shall be classified as commercial in nature if they receive sewer service at any property not included in the definition of Residential Customer in subparagraph B(3) above. Sewer service provided to hotels, motels, schools, hospitals, travel trailer or overnight mobile home parks, nursing homes, governmental agencies and commercial businesses shall be defined as non-residential in nature.
5. Total Suspended Solids (TSS). The total suspended matter, expressed in milligrams per liter (mg/L), that floats on the surface of, or is suspended in, water, wastewater, or other liquid, and that is removable by laboratory filtering.

C. Charges for sewer service shall be set by resolution of the City Council.

D. Residential sewer service charges will be a monthly rate per calculated EQR, assessed on a flat rate basis, as set forth in the table below. The minimum EQR for any service shall be 1.00.

TYPE OF ESTABLISHMENT	EQRV (BASED ON VOLUME)	BOD (MG/L)	BOD MULTIPLIER	TOTAL EQR (EQRV X BOD Multiplier)
Single family dwelling	1.00/unit	200	1.00	1.00/unit
Multiple family dwelling	1.00/unit	200	1.00	1.00/unit
Apartment buildings	1.00/apartment	200	1.00	1.00/apartment
Permanent trailer or mobile home parks	1.00/space	200	1.00	1.00/space

E. Non-residential sewer service charges shall be billed on a monthly basis and will consist of a minimum charge and a volume charge. The minimum charge and the volume charge shall be based on the actual monthly volume of metered potable water consumption, expressed in gallons, as recorded by the Ute Water Conservancy District.

1. The minimum charge is a fixed monthly charge that includes a monthly allotment of metered potable water consumption. Customers who consume less than the full monthly allotment included in the minimum charge shall pay the full minimum charge. Customers who consume more than the full monthly allotment included in the minimum charge shall pay the full minimum charge plus a volume charge as described on subparagraph E(2) below. The minimum charge, the monthly allotment of metered potable water consumption and the volume charge shall be set by resolution of the City Council.

2. The monthly volume charge shall be based on the customer's actual monthly volume of metered potable water consumption and assessed on a set dollar amount (\$) per 1,000 gallons basis. The monthly volume charge shall be calculated according to the following formula:

Start: Actual Monthly Metered Potable Water Consumption (Gallons)
 Less: Monthly Volume Allotment included in the Minimum Charge (Gallons)
 Equals: Net Monthly Metered Potable Water Consumption (Gallons)

$$\frac{\text{Net Monthly Metered Potable Water Consumption (Gallons)}}{1,000} * \$ \text{ per 1,000 Gallon}$$

3. A sewer rate stabilization fund has been established to allow for a phased implementation schedule for the change in monthly non-residential sewer service charges from a flat rate to a volume based charge. Policies for use of the sewer rate stabilization fund will be established by resolution of the City Council with the purpose of providing for an equitable recovery of the cost of service from each utility customer while taking into consideration the fiscal impacts on individual customers, equity among customer classes, and correlation between metered water consumption and actual discharges of sewage into the sewer system and rate covenant requirements.

- F. Determining the Total Annual Sewer System Costs: The City shall determine the total annual cost necessary to operate, maintain and insure the financial integrity of the sewer system. These costs shall include, but not be limited to: operations, maintenance and administration, infrastructure repair, replacement, rehabilitation and expansion, debt service, the maintenance of adequate cash and contingency reserves, and compliance with debt financing covenants.

- G. Review of Sewer Service Charges: The City of Fruita shall review the total annual sewer system costs and the revenues earned from the provision of sewer service not less often than every two years and will revise the system established herein to assure that sufficient funds are obtained to adequately operate, maintain and insure the financial integrity of the sewer system.

- H. Extra Strength Discharges: Non-residential customers discharging wastewater into the City sewer system with strength levels in excess of those described below may, at the discretion of

the City, be required pay a monthly extra strength surcharge in addition to the standard sewer charges described in paragraph (E).

1. Customers with BOD discharge strength in excess of 300 mg/L shall be required to pay an extra strength surcharge. The assumed normal BOD discharge strength is 200 mg/L.
 2. Customers with TSS discharge strength in excess of 300 mg/L shall be required to pay an extra strength surcharge. The assumed normal TSS discharge strength is 200 mg/L.
- I. The BOD extra strength surcharge shall be assessed on a \$ per pound basis and shall be calculated pursuant to the formula show below.
- Step 1: $[\text{Customer BOD strength (mg/L)}] - [200 \text{ mg/L assumed normal BOD discharge strength}] = \underline{\text{Customer excess BOD strength (mg/L)}}$
- Step 2: $[453,592 \text{ milligrams per pound}] / [\text{Customer excess BOD strength (mg/L)}] = \underline{\text{Customer excess BOD strength (pounds/L)}}$
- Step 3: $[\text{Customer wastewater volume (gallons)}] / [3.785 \text{ liters per gallon}] = \underline{\text{Customer wastewater volume (L)}}$
- Step 4: $[\text{Customer wastewater volume (L)}] / [\text{Customer excess BOD strength (pounds/L)}] = \underline{\text{Customer excess BOD (pounds)}}$
- Step 5: $[\text{Customer excess BOD (pounds)}] * [\$ \text{ per pound BOD extra strength surcharge}] = \underline{\text{BOD extra strength surcharge that must be paid by the customer}}$
- J. The TSS extra strength surcharge shall be assessed on a \$ per pound basis and shall be calculated using the same methodology illustrated in paragraph (I) above for the BOD extra strength surcharge.
- K. In addition to the extra strength surcharge provided herein, customers discharging extra strength wastewater shall also be required to pay the actual costs incurred by the City to test such discharges.
- L. The BOD and TSS extra strength surcharge rates shall be set by resolution of the City Council.

13.28.030 NONPAYMENT OF CHARGES - PENALTIES - LIENS. Nonpayment of fees or charges under the provisions of this chapter not paid when due shall be subject to the provisions of Chapter 3.20, Uniform Collection Ordinance.

(Ord. 405, S2, 1979; Ord. 272, S19, 1972; Ord. 1986-20, S5; Ord. 2011-04, S1)

13.28.040 VIOLATION - PENALTY.

- A. Any person, owner, lessee, occupant, or otherwise, who knowingly violates any of the provisions of this Chapter commits a Class B municipal offense.
- B. Any person, owner, lessee, occupant, or otherwise, violating any of the provisions of this chapter shall be liable to the city for any expense, loss of revenue or damage caused by reason of such violation as well as penalties designated in Section 1.28.020 of the Fruita Municipal Code. Any required fees not paid shall incur interest at the legal rate from the date determined to be the date of violation.

Treatment or structural controls, such as constructed water quality detention facilities, remove pollutants already present in stormwater. Best management practices can either be temporary, such

as a silt fence used during construction activity, or permanent detention facilities, to control pollutants in stormwater. (Ord. 2015-03, S1)

I. INTRODUCTION TO LAND USE CATEGORIES

17.04.010 PURPOSE.

This Chapter classifies land uses and activities into use categories on the basis of common functional, product, or physical characteristics, as follows:

- A. **Categorization.** Uses are assigned to the category whose description most closely describes the nature of the primary use. The "Characteristics" subsection of each use category describes the characteristics of each use category. Developments may have more than one primary use. Developments may also have one or more accessory uses. It is the intent of this Chapter to group similar or compatible land uses into specific land use categories.

- B. **Interpretation.** When a use's category is not clearly identifiable, the Community Development Director may determine the applicable use category or refer the question to the Planning Commission for a public hearing and determination following the procedure under Section 17.07.060. The following is considered to determine what use category the use is in, and whether the activities constitute primary uses or accessory uses:
 - 1. The description of the activity(ies) in relationship to the function and characteristics of each use category;
 - 2. The building or structure type associated with each use category, and the relative amount of site or floor space and equipment devoted to the activity;
 - 3. Relative amounts of sales from each activity;
 - 4. The customer type for each activity;
 - 5. The relative number of employees in each activity;
 - 6. Hours of operation;
 - 7. Building and site arrangement;
 - 8. Vehicles used with the activity;
 - 9. The relative number of vehicle trips generated by the activity;
 - 10. Signs;
 - 11. How the use advertises itself; and
 - 12. Whether the activity would function independently of the other activities on the site.

- C. **Developments with multiple primary uses.** When all of the primary uses of a development fall within one use category, then the development is assigned to that use category. For example, a development that contains a retail bakery and a cafe would be classified in the Retail Sales and Service category because all the primary

uses are in that category. When the primary uses of a development fall within different use categories, each primary use is classified in the applicable category and is subject to the regulations for that category.

- D. Accessory Uses.** Accessory uses are allowed by right, in conjunction with, the use unless stated otherwise in the regulations. Also, unless otherwise stated, they are subject to the same regulations as the primary use. Typical accessory uses are listed as examples with the categories.
- E. Use of examples.** The "Examples" subsection of each use category provides a list of examples of uses that are included in the use category. The names of uses on the lists are generic. They are based on the common meaning of the terms and not on what a specific use may call itself. For example, a use whose business name is "Wholesale Liquidation" but that sells mostly to consumers, would be included in the Retail Sales and Service category rather than the Wholesale Sales category. This is because the actual activity on the site matches the description of the Retail Sales and Service category. If the use cannot be located within one of the categories provided by this Section, the city may at its discretion refer to appropriate outside sources, such as the Land-Based Classification Standards (LBCS) of the American Planning Association or the North American Industry Classification System (NAICS); however, the City of Fruita is not obligated to consider these sources and is not liable for any damages resulting from such use, or resulting from future amendments to the LBCS or NAICS.

(Ord. 2009-02)

II. RESIDENTIAL USE CATEGORIES

17.04.100 GROUP LIVING.

- A. Characteristics.** Group Living is characterized by the residential occupancy of a structure by a group of people who do not meet the definition of Household Living. The size or composition of the group is different than that of a Household. Tenancy is arranged on a month-to-month basis, or for a longer period. Uses where tenancy may be arranged for a shorter period are not considered residential. They are considered to be a form of transient lodging (see the Retail Sales and Service and Community Service categories). Generally, Group Living structures typically have a common eating area for residents, though individual units may have a kitchen. The residents may or may not receive any combination of care, training, or treatment, as long as they also reside at the site.
- B. Accessory Uses.** Accessory uses commonly found are recreational facilities, parking of autos for the occupants and staff, and parking of vehicles for the facility.
- C. Examples.** Examples include dormitories; fraternities and sororities; monasteries and convents; nursing and convalescent homes; assisted living and similar retirement facilities where some level of daily care is provided by on-site staff; some group homes for the physically disabled, mentally retarded, or emotionally disturbed; some residential programs for drug and alcohol treatment; and alternative or post incarceration facilities. Group Living includes Large and Small Group Homes.

D. Exceptions.

1. Lodging where tenancy may be arranged for periods less than one (1) month is considered a hotel or motel use (or hospital) and is classified in the Retail Sales and Service or other category. However, in certain situations, lodging where tenancy may be arranged for periods less than one (1) month may be classified as a Community Service use such as publicly assisted, short term housing.
2. Lodging where the residents meet the definition of Household, and where tenancy is arranged on a month-to-month basis, or for a longer period is classified as Household Living.
3. Facilities for people who are under judicial detainment and are under the supervision of sworn officers are included in the Detention Facilities category.
4. Bed and Breakfast.

(Ord. 2009-02; Ord. 2011-14, S2)

17.04.110 HOUSEHOLD LIVING.

- A. Characteristics.** Household Living is characterized by the residential occupancy of a dwelling unit by a household. Where units are rented, tenancy is arranged on a month-to-month basis, or for a longer period. Uses where tenancy may be arranged for a shorter period are not considered residential. They are considered to be a form of transient lodging (see the Retail Sales and Service and Community Service categories). Apartment complexes that have accessory services such as food service, dining rooms, and housekeeping are included as Household Living. Single Room Occupancy (SRO) housing, that do not have totally self-contained dwelling units (i.e., with kitchen and wash room facilities) are also included if at least two thirds of the units are rented on a monthly basis. SROs may have a common food preparation area, but meals are prepared individually by the residents. In addition, temporary medical hardship dwellings, and residential homes as defined by the State of Colorado, are included in the Household Living category.
- B. Accessory Uses.** Accessory uses commonly found are private yards and gardens, private recreational activities, raising of pets, hobbies, home occupations (subject to Code requirements), and parking of the occupants' vehicles, but not including residential occupancy of any vehicle. Home occupations, accessory dwelling units, and bed and breakfast facilities are accessory uses that are subject to additional regulations.
- C. Examples.** Uses include living in houses, duplexes, apartments, condominiums, retirement center apartments (not otherwise categorized as Group Living), manufactured housing, and other structures with self-contained and permitted dwelling units. Examples also include living in Single Room Occupancy housing if the provisions are met regarding length of stay and separate meal preparation.
- D. Exceptions.**

1. For purposes of this code, a recreational vehicle is not considered a dwelling.
2. Lodging in a dwelling unit or Single Room Occupancy Hotel (SRO) where less than two thirds of the units are rented on a monthly basis or longer is considered a hotel or motel use and is classified in the Retail Sales and Service category. The city may suspend or revoke a Certificate of Occupancy or completion issued under the provision of this Title where ever the Certificate was issued in error, or on the basis of incorrect information supplied, or where it is determined that the building or structure or portion thereof is in violation of any ordinance or regulation or any of the provisions of this Title. (Ord. 2009-02)

17.05.040 TEMPORARY POSTPONEMENT OF IMPROVEMENTS. It shall be within the administrative discretion of the City Manager to approve a temporary postponement of certain required improvements so long as the public health, safety, and welfare are preserved and the recipient provides a performance bond or other security satisfactory to the city to ensure that all to of the requirements of this Title will be fulfilled within a reasonable period. At a minimum, a request for postponing improvements must be submitted in writing explaining what improvements are requested to be postponed, why the postponement is necessary and when the improvements will be completed. An application shall not be processed or scheduled for public hearing until the Community Development Director deems it complete.
- B. Applications for land development application approvals required under this Title will be accepted only from parties in interest who are owners of record or their authorized representative.

- C. To help minimize development-planning costs, avoid misunderstandings or misinterpretation of city requirements, and ensure compliance with the requirements of this Title, a pre-application meeting between the applicant and the Community Development Department and other staff is encouraged or required as provided in this Title. For applications in which a pre-application meeting is required, a pre-submittal meeting will not be held unless a pre-application meeting has been held. Pre-application meetings are valid for a period of six (6) months from the date of the meeting, after which a new pre-application meeting may be required. A notice of completeness or incompleteness shall be issued by the Community Development Department within fifteen (15) days of the receipt of an application. Upon a determination that an application for a permit or approval is complete, the Community Development Department shall issue a notice of completeness to the applicant and place the application on the agenda of the Planning Commission, City Council, or Board of Adjustment if review by such body is required under this Title. If such review is not required, the Community Development Director shall act on the application pursuant to this Land Use Code.
- F. The burden of persuasion on the issue of whether the development or use applied for, if completed as proposed, will comply with the requirements of this Title and should be approved remains, at all times, on the applicant. The Community Development Director may request additional information from the applicant during the course of reviewing the application if, based on professional expertise or relevant input provided by the Planning Commission or City Council, the Director believes that such information would be helpful in evaluating the application for compliance with the requirements of this Land Use Code.
- G. The city shall make every reasonable effort to process review applications as expeditiously as possible, consistent with the need to ensure that the application conforms to the requirements of this Title.

 - a. The annexation meets the requirements of the State Statutes;
 - b. The area is or can be efficiently served by city utilities and capital investments, including water, sewer, parks, drainage systems and streets;
 - c. The area is contiguous with existing urban development;
 - d. The area is or can be efficiently served by police and other municipal services;
 - e. The development is consistent with community goals, principles, and policies as expressed in the Fruita Community Plan;

2. If the subject property is located in the Growth Management Area (GMA) as defined by the Fruita Community Plan, annexation may be approved only after considering the following criteria in addition to the criteria required to be considered for property in the Urban Growth Area:
 - a. The area would have a positive net fiscal benefit to the community;

- b. The area is necessary to accommodate an activity that cannot be reasonably accommodated on lands within the existing UGA boundary;
 - c. The area would allow for the logical and concurrent extension of urban services (water, streets, sewer, etc.);
 - d. The area would offer a desirable new “edge” to the community, and;
 - e. The area discourages a sprawling development pattern and contributes to the Community Vision as described in the Fruita Community Plan.
3. Annexation of property outside both the UGA and GMA should only be considered for extraordinary circumstances.
- B. Decision. The Community Development Director shall make recommendations to the Planning Commission and the City Council on any petition for annexation not requiring an election. 17.06.045 DISCONNECTION OF TERRITORY. In accordance with Section 31-12-501, C.R.S., when the owner of a tract of land within and adjacent to the boundary of the City of Fruita desires to have such land disconnected from the City of Fruita, such owner may file an application for disconnection with the Community Development Director requesting disconnection. The Community Development Director shall make recommendations to the Planning Commission and the City Council on any application for the disconnection of territory. The Planning Commission shall then make a recommendation concerning the requested disconnection to the City Council. If the City Council, in its sole discretion, is of the opinion that the best interests of the City of Fruita will not be prejudiced by the disconnection of such land, the City Council may enact an ordinance effecting such disconnection. 17.07.010 ESTABLISHMENT OF ZONES. To carry out the purposes of the Master Plan and the purposes and provisions of this Title, the incorporated area of the City of Fruita is hereby divided into the following zones for the purposes set forth below:

- A. Agricultural Residential (AR). The purpose of the AR zone is to allow low density rural residential and agricultural uses, to preserve and enhance the rural character of the outlying areas of Fruita and discourage inappropriate or premature urban development.
- B. Rural Estate (RE). The purpose of the RE zone is to preserve the natural and agricultural landscape as a transition between the Rural Residential (RR) zone, AR zone, and the community separator through minimum requirements and incentives for rural land preservation and clustered residential lots.
- C. Rural Residential (RR). The purpose of the RR zone is to allow low density residential uses compatible with rural areas.
- D. Community Residential (CR). The purpose of the CR zone is to allow for moderate density detached single-family residential neighborhoods with the inclusion of other housing types such as attached dwelling units (e.g. apartments and townhouses).
- E. Large Lot Residential (LLR). The purpose of the LLR zone is to allow larger lot developments in the same areas as the CR zone and other areas as appropriate.
- F. South Fruita Residential (SFR). The purpose of the SFR zone is to allow a variety of low to moderate density residential areas compatible with existing low-density development, the Colorado National Monument and the Colorado River.
- G. Downtown Mixed Use (DMU). The purpose of the DMU zone is to maintain and enhance downtown as a vibrant, pedestrian-oriented commercial and residential area and as the civic heart of the community. Mixed use development, such as commercial on the ground floor and residential above the ground floor is encouraged within this zone. The intent of this zone with regard to housing is to allow existing

residential uses and provide housing options within walking distance of commercial and civic uses without compromising the integrity of the downtown commercial core.

- H. Community Mixed Use (CMU). The purpose of the CMU zone is to establish walkable neighborhoods that are residential in scale and character, integrating a variety of housing, open spaces, and community services.
- I. Monument Preservation (MP). The MP zone is intended to provide a recreational and environmental buffer between the Colorado National Monument and Bureau of Land Management lands, and urban development with low intensity uses that preserve open space quality.
- J. General Commercial (GC). The GC zone is intended to accommodate commercial development in appropriate areas with appropriate access, landscaping, frontage improvements, setbacks, screening and multi-modal access and connectivity.
- K. Industrial (I). The purpose of the I zone is to encourage non-polluting industrial and research and development activities designed to meet acceptable state and locally established standards for noise, dust, effluent (e.g., sewage pre-treatment), odor, and other impacts typically associated with industrial uses.
- L. Planned Unit Development (PUD). A PUD zone provides a flexible, performance-based alternative to standard development requirements where adjustments to some of the standard requirements of this Title may be permitted in order to produce a development that is superior in its design and functionality to that which would result from the strict application of the standards under a non-PUD proposal. Applications for PUD approval must demonstrate that the proposal is consistent with the intent of the city's Master Plan and equally or better meets the intent of the design standards for which adjustment is sought.
- M. Community Services and Recreation (CSR). The purpose of the CSR zone is to provide public and private recreational land, facilities, schools, fire stations, libraries, fairgrounds and other public and quasi-public lands and buildings. The zone includes open space areas, which are set aside to prevent environmental damage to sensitive areas and to limit development in areas that are unsuitable for development due to flooding or geologic hazards. The CSR zone may be applied to parks, outdoor recreation facilities, open space corridors, environmental areas, trails, recreational facilities, and similar areas. The CSR zone helps implement the open space, trails and parks policies of the city's Master Plan.

(Ord. 2016-04, S1)

17.07.020 INCORPORATION OF OFFICIAL ZONING MAP. The location and boundaries of the zones established by this Chapter are shown on the "Official Zoning Map" of the City of Fruita. Said Official Zoning Map, together with all data shown thereon and all amendments thereto, is, by reference, hereby incorporated into this Chapter. Changes in zones shall be made according to the requirements of this Title. (Ord. 2016-04, S1)

17.07.030 ZONING NAMES. The zoning names in effect before May 5, 2016, are converted as follows:

Recreational)

17.07.040 ZONING BOUNDARIES. Except where otherwise indicated, zoning boundaries shall follow municipal corporation limits, section lines, lot lines, centerlines of watercourses, and right-of-way centerlines or extensions thereof. In unsubdivided land or where a zoning boundary divides a lot or parcel, the location of such boundary, unless indicated by dimensions, shall be determined by scale of the Official Zoning Map. Where a zoning boundary coincides with a right-of-way line and said right-of-way is subsequently abandoned, the zoning boundary shall then follow the zoning of the property to which the vacated right-of-way is connected. Land not part of public rights-of-way and which is not indicated as being in any zoning boundary shall be considered to be included in the most restrictive abutting zone, even when such zone is separated from the land in question by a public right-of-way. (Ord. 2016-04, S1)

17.07.050 APPLICATION OF ZONING REGULATIONS. Except as hereinafter provided, within the municipal boundaries of the City of Fruita:

- A. No building or structure shall be erected or placed and no existing building or structure shall be moved, removed, altered or extended, nor shall any land, building or structure be used for any purpose or in any manner other than as provided among the uses listed in Section 17.07.060(F) (Land Use/Zoning Table) and the zoning requirements and regulations for the zone in which such land, building or structure is located.
- B. No building or structure shall be erected or placed nor shall any existing building or structure be moved, removed, altered, replaced or extended, nor shall any open space surrounding any building or structure be encroached upon or reduced in any manner except in conformity with the lot area, lot coverage, setback and height provisions set forth in subsection 17.07.060(I) (Density and Dimensional Standards Table) for the zone in which such land, building or structure is located.
- C. No lot area, frontage, yard or other open space or parking space provided around any building or structure for purposes of compliance with provisions of this Title shall be considered as providing lot area, frontage, yard or other open space for any other building or structure on the same lot or on any other lot.
- D. Uses permitted by this Title also may be subject to provisions of other applicable city, county, or state laws and regulations, and where the provisions of this Title impose a greater restriction than required by other land use regulations, the provisions of this Title shall govern.
- E. In their application and interpretation, the provisions of this Title shall be considered minimum requirements. Nothing herein shall impair the obligations of or interfere with private agreements or covenants in excess of the minimum requirements. Where this Title imposes a greater restriction than that imposed by existing contract,

covenant or deed, the provisions of this Title shall control.

- F. For developments without access to the city's sanitary sewer system (farther than four hundred [400] feet away), the minimum lot size is required to be no less than three (3) acres. Larger lots may be required for certain non-residential land uses.

(Ord. 2016-04, S1)

17.07.060 ZONING USES AND REQUIREMENTS. All combinations of allowed uses and development standards may not be appropriate at a particular location within a zone, even if a use is designated as an allowed use in this Section. Any proposed land use must be compatible with the uses and site design of surrounding properties and meet the design standards set forth in this Title.

- A. Administrative Approvals. Administrative approvals include: Planning Clearances including Planning Clearances for a change in use to a use that is designated as allowed outright under Section 17.07.060; home occupations; Minor Subdivisions; Site Design Review (with no Adjustment) ; Temporary Use Permits; Sign Permits, and; final plats (not including subdivision improvements agreements).

Where the proposed use is designated a Conditional Use, or a use requiring Site Design Review with Adjustment, or is not itemized in the Use/Zone Matrix under Section 17.07.060 and is not deemed by the Community Development Director to be similar to an allowed use, the Director shall refer the land use request to public hearings, pursuant to Section 17.05.070.
- C. Schedule of Allowed Uses. The Land Use/Zone Table in subsection F below indicates Allowed Uses and Conditional Uses. Definitions and examples of those uses are contained in Chapters 17.03 and 17.04. Tables specifying allowable development densities and the requirements for minimum lot area, minimum setbacks, maximum building height and maximum lot coverage in each of the zones is subsection I below.
- D. Key to Allowed Uses. Uses may be allowed outright, allowed conditionally, or allowed subject to special use standards as follows:
- E.

¹ Non-residential uses in the CMU zone are subject to the supplemental zoning district standards in Section 17.07.070 (J).

²Duplex, multi-family and attached single family developments in the CR zone are permitted only as a percentage of a detached single-family residential development. See the Density and Dimensional Standards Table in Section 17.07.060(I).

G. Uses Not Itemized in Land Use/Zoning Table. When a use is proposed and no zone allows for such use under the Land Use/Zoning Table above, the applicant may request from the Community Development Department a determination of a zone in which the use may be allowed. The applicant shall submit a written request, which describes the particular use proposed. The use may be deemed an Allowed Use or a Conditional Use upon the finding of the following:

1. Such use is appropriate to the physiographic and general environmental character of the zone to which it is added;
2. Such use does not create any more hazards to, or alteration of, the natural environment than the minimum amount normally resulting from the other permitted uses, or uses conditionally allowed, in the zone to which it is added, as applicable;
3. Such use does not create any more offensive noise, vibration, dust, heat, smoke, odor, glare, or other objectionable influences or more traffic hazards than the minimum amount normally resulting from the other uses permitted in the zone to which it is added;

4. Such use is generally consistent with the uses existing and permitted in the zone to which it is added; and
5. Such use is in conformance with the goals, policies and Master Plan of the city and the purposes of this Title.

H. Schedule of Density/Height/Bulk/Location Requirements in Zones.

1. The following standards apply to all uses and development, except as modified pursuant to Chapter 17.11 Design Standards or Chapter 17.17 Planned Unit Developments.
2. Maximum density may not be achievable on every lot or parcel, as the development must conform to applicable setbacks, coverage, parking, drainage, public improvements, landscaping and other code requirements including density bonus requirements.
3. Connection to the city's wastewater collection and treatment system is required for all single-family residential lots smaller than three (3) acres in size. Larger lots may be required for multi-family and non-residential developments that do not connect to the city's wastewater collection and treatment system. All uses with existing individual sewage disposal systems that require repair or replacement, or are part of a larger development plan and are within four hundred (400) feet of the existing city wastewater collection system, as measured to the closest property line, shall connect to the city system. All property to be annexed with existing land uses using individual sewage disposal systems must connect to the city wastewater collection system if they are within four hundred (400) feet or will be within four hundred (400) feet of a city wastewater collection system once the development to be annexed is completed.
4. Standards containing a slash (x/y) indicate standards for primary buildings (x) and accessory buildings (y).
5. Structures, lots, and land uses lawfully established prior to the effective date of this Code may continue pursuant to Section 17.07.090.

17.07.070 SUPPLEMENTAL ZONING REGULATIONS AND STANDARDS. In addition to regulations contained elsewhere in this Title, the use of land and buildings in all zones shall be governed by the following:

- A. Bed and Breakfast. Where bed and breakfast uses are allowed, they must meet the following conditions and standards:
1. Where the applicable zoning district allows bed and breakfast uses as a conditional use, the use must be a residential dwelling that contains no more than four (4) guest bedrooms where overnight lodging, with or without meals, is provided for compensation. Bed and Breakfast uses with more than four (4) guest bedrooms are considered hotels or motels;
 2. Kitchen and dining facilities in bed and breakfast dwellings may serve only residents and guests and shall not be operated or used for any commercial activity other than that necessary for bed and breakfast purposes;
 3. The bed and breakfast use shall not change the residential character of the dwelling if located in a residential zone or area;
 4. In residential zones (including residential developments in the CMU zone), there shall be no advertising display or other indication of the bed and breakfast use on the premises other than a sign that is in compliance with the provisions of Chapter 17.41;
 5. A minimum of one parking space per guest bedroom and resident bedroom shall be required. Screening may also be required;
 6. The bed and breakfast facility shall comply with all Building Codes adopted by the city;
 7. It shall be the responsibility of the applicant to demonstrate that any declarations, covenants, conditions or restrictions on the property allow for a bed and breakfast use; and
 8. Where a bed and breakfast use is subject to Conditional Use Permit approval, any existing or proposed uses in addition to that of a dwelling unit (e.g. home occupation, accessory dwelling unit, etc.) are considered as part of the conditional use review.
- B. Home Occupations. A Home Occupation is a commercial or business use within a dwelling unit by the residents thereof, which is incidental or secondary to the principle use of the dwelling for residential purposes. The purpose of this Section is to allow commercial ventures, which by the nature of the venture are appropriate in scale and intensity of use to be operated within a dwelling. Home occupations require a City of Fruita Business License and any other local, state or federal permits that may be required. Two types of home occupations are authorized by this Code: 1) Home Occupations meeting the standards of this Section, as provided below, are permitted outright; and 2) Home Occupations exceeding the criteria or standards of this Section may be permitted subject to approval of a Conditional Use Permit.

1. Outdoor Storage and Display:

- a. All materials, vehicles, inventory, products, equipment, fixtures, and activities associated with the home occupation (i.e., that exceed what is customary for a single-family residence) shall be fully enclosed in a structure that complies with applicable building and land use codes. The owner is responsible for verifying building code compliance when no Planning Clearance is required. Oversized vehicles or equipment on properties over two acres in size are exempt from this requirement but must meet the requirements of Section 17.07.060.K.4.
- b. On-site storage of hazardous materials (including toxic, explosive, noxious, combustible or flammable materials) beyond those normally incidental to residential use is prohibited.

2. Vehicles, Parking and Traffic:

- a. The home occupation site shall not be used as a dispatch for employees or vehicles to other locations beyond that which is customary for a residential use.
- b. There shall be no commercial vehicle deliveries to the home occupation during the hours of 9:00 p.m. to 7:00 a.m.
- c. There shall be no more than one (1) client or customer vehicle at any one time and no more than eight (8) per day at the home occupation site.
- d. The home occupation shall not adversely affect traffic flow and parking in the neighborhood.

3. Business Hours. There shall be no restriction on business hours, except that clients or customers are permitted at the home occupation from 7:00 a.m. to 9:00 p.m. only, Monday through Friday.

4. Prohibited Home Occupation Uses:

- a. There shall be no advertising display, signage, or other indication of the home occupation on the premises other than that which is allowed by the applicable zone for residential uses as provided for in the Sign Code in Chapter 17.41.
- b. Any activity that produces radio, TV, or other electronic interference, noise, glare, vibration, smoke, or odor beyond allowable levels as determined by local, state or federal standards, or that can be detected beyond the property line is prohibited.
- c. Any activity involving on-site retail sales, including garage sales exceeding the thresholds of a temporary use, is prohibited; except that the sale of items that are incidental to a permitted home occupation is allowed. For example, the sale of lesson books or sheet music from music teachers, art or craft supplies from arts or crafts instructors, computer software from computer consultants, produce or crafts

produced on-site, and similar incidental items for sale by home business is allowed pursuant to this Section.

- d. Any activity that may produce wastes not typically associated with residential use of the property.
 - e. The following uses are specifically excluded as permitted home occupations: sexually oriented businesses; car, truck or heavy equipment repair; medical, dental, tattoo, body piercing, or other similar personal service that creates biohazard wastes as a typical part of the service provided.
5. Enforcement. The Community Development Director or designee may visit and inspect the site of a home occupation in accordance with this chapter periodically to ensure compliance with all applicable regulations, during normal business hours, and with reasonable notice.
- C. Accessory Dwelling Units. Accessory dwelling units are permitted on all lots containing a single family detached dwelling unit in: the Agricultural Residential (AR), Rural Estate (RE), Monument Preservation (MP), Large Lot Residential (LLR), and Rural Residential (RR) zones; on lots at least 7,000 square feet in size in the Downtown Mixed Use (DMU) and Community Mixed Use (CMU) zones; and in all other zones that allow single family residential detached dwelling units provided the lot area is at least twenty (20) percent larger than the required minimum for the zone.
- Accessory dwelling units must be located on a lot that contains a principle single family dwelling unit and cannot exceed eight hundred and fifty (850) square feet of heated floor area, or fifty (50) percent of the size of the principle single family dwelling; whichever is larger. Accessory dwelling units can be attached or detached from the principal dwelling. Only one accessory dwelling unit is permitted per lot or parcel.
- D. Accessory Buildings (Except Accessory Dwelling Units). An accessory building shall not protrude beyond the front plane of the principal building.
- E. Design Standards And Specifications. The following standards and regulations are applicable to all projects requiring approval under the provisions of this Title:
1. Street, Road and Bridge Standards. The publication entitled “City of Fruita Design Criteria and Construction Specifications” (latest edition) shall apply to developments in all zones, except that standards and specifications published by the Colorado Department of Transportation shall apply to all State highways in all zones.
 2. Drainage and Storm Water Management. The publications entitled, “Mesa County Storm Water Management Manual” (latest edition), “City of Fruita Design Criteria and Construction Specifications” (latest edition), and all building codes adopted pursuant to Title 15 of the Fruita Municipal Code shall apply to developments in all zones.

Each business, commercial, or industrial development is required to meet or exceed the standards of the City of Fruita, Colorado Department of Public Health and

- Environment and the U.S. Department of Environmental Protection Agency with regard to water pollution control, stormwater control, and storm water management. It is the property owner's or applicant's responsibility, as applicable, to ensure compliance with state and federal regulations.
3. Wastewater. Industrial pretreatment may be required for industries with certain liquid wastes as defined by the City of Fruita, Colorado Department of Public Health and Environment, and the US Environmental Protection Agency. All businesses and industries shall meet or exceed the requirements of the Fruita Municipal Code.
 4. Buildings and Structures. All buildings and structures in all zones shall comply with all building codes adopted pursuant to Title 15 of the Fruita Municipal Code.
 5. Other Design Standards and Construction Specifications. All other development in all zones shall comply with the publication entitled "City of Fruita Design Criteria and Construction Specifications" (latest edition), and all building codes adopted by the city.
 6. Conflicting Provisions. When conflicts exist between adopted codes and standards, or between adopted codes and standards and project-specific "approved for construction" drawings and specifications, the most restrictive provision shall apply. Where the City of Fruita has approved construction drawings for a project, unless superseded by state or federal law, the project-specific "approved for construction" drawings and specifications shall control, followed by written criteria, or specifications published by other entities. Where local City of Fruita documents are silent, the most stringent external standard or specification shall apply.
- F. Exceptions to Lot Area and Dimensional Standards. Lot area and dimensions shall conform to the Schedule of Density and Dimensional Standards Table in Section 17.07.060 (I), except as amended by the design standards of Chapter 11 of this Title, PUD zoning as per Chapter 17 of this Title, and as follows:
1. Minimum frontage. All residential lots, including cul-de-sac lots where vehicle access is provided from the abutting street, shall have a minimum street frontage width of twenty-eight (28) feet excluding areas set aside for utility pedestal installations. Flag lots and or lots with shared driveways are permitted to have less than twenty-eight (28) feet of street frontage as determined through the subdivision review process and as per Section 43.050 of this Title.
 2. Utility Facilities. Electric substations, telephone switching facilities, irrigation structures, and similar limited impact facilities shall be permitted to occupy a lot area smaller than that provided for in these regulations provided such facilities are properly screened and buffered from surrounding properties and the street.
- G. Height Exceptions and Permitted Setback Encroachments.
1. Height limits do not apply to any: chimney; spire; bulkhead; elevator; water collection, recirculation, or storage system; geothermal heating system; solar photovoltaic equipment; wind turbine; belfry; cupola; windmill; antenna; or any

- similar structure or necessary mechanical appurtenance not designed for occupancy extending above the roof line, provided such structure does not extend more than ten (10) feet above the highest roof line and does not exceed more than ten (10) percent of the area of the roof where it projects more than four (4) feet above the highest roof plane. Light poles, flag poles, and similar structures not attached to a building are permitted to be no taller than the maximum height in the zone in which it is located.
2. Building setback encroachment of up to three (3) feet is permitted for chimneys, roof eaves, bay windows and similar features that do not contain inhabitable floor space, stairways not to exceed six (6) feet in height or raised decks not to exceed three (3) feet in height, provided that minimum clearance of three (3) feet is maintained between the structure encroachment and all property lines and provided adequate space is reserved to comply with storm water drainage requirements.
 3. On properties that are used mainly for agricultural uses in the Agricultural Residential (AR) and Rural Estate (RE) zones any structures used mainly for agricultural purposes (e.g., silos and barns) are exempt from the height limits for structures.
- H. Fences. The purpose of this Section is to ensure fences erected within the city do not impede traffic safety, do not conflict with applicable codes, and impose no deleterious effect on any neighborhood. A Planning Clearance shall be required before erecting, moving or altering a fence in the city. Fences shall conform to the following requirements:
1. No fence shall be erected in such location upon any lot or property in a manner constituting a traffic hazard because of obstruction of view. The City of Fruita Design Criteria and Construction Specifications Manual and the City of Fruita Land Use Code shall be used as the criteria for determining compliance. No fence shall be constructed to within four (4) feet of or prevent access to any fire hydrant, utility pedestal, vault, cabinet, or similar feature.
 2. Fences shall be constructed of durable materials, which may include but are not limited to, wire (e.g., chain link), vinyl-coated wire, wrought iron, wood, extruded plastic (e.g., from fence manufacturer), and other materials similar in appearance and durability. Unacceptable materials that are visible to the public include: glass, tires, razor wire, barbed wire and/or concertina wire, junk, and any material that presents a public health or safety hazard.

The prohibition on razor wire, barbed wire, concertina wire and similar wire fences does not apply to the Industrial (I) zone provided that there are no more than three (3) strands or one (1) coil of wire and the fence is located at least five (5) feet from the public right-of-way. The wires are not counted in the height calculation. Electric and barbed wire fencing is allowed in zones which allow large animals (such as horses, cows and sheep) only when properly installed and necessary to contain large animals, and the fence must be located no closer than ten (10) feet to the public right-of-way.
 3. There shall be no fence or wall erected which exceeds six (6) feet in height as measured from the natural grade except as permitted in subsection 6 below. Where the city has approved construction of a retaining wall, the height of the retaining wall

- shall not be included in the height of the fence. An increase of up to two (2) inches is allowed when spacing for drainage under a fence is needed.
4. Except as allowed for corner lots (subsection 5 below), fences in the required front yard setback shall not exceed thirty-six (36) inches in height; however, such fences may be increased to forty-eight (48) inches maximum height if the fence material is at a ratio of not less than half open space to half closed space for every square foot for that part of the fence extending above thirty-six (36) inches in height. Examples of fence types that would typically comply include: chain link, picket, split rail, and similar fences.
 5. On corner lots, solid fences up to six (6) feet in height within a front yard setback may be permitted on one street frontage provided the fence conforms to the required clear sight triangle.
 6. Fences in excess of six (6) feet shall comply with applicable building codes and all required setbacks for primary buildings, as applicable. Fences in Industrial (I) zones may exceed six (6) feet as provided for in subsection 2 above.
 7. Fences in zones which permit a zero building setback must meet design standard requirements of Chapter 11 of this Title.
 8. A gated fence across a driveway must be designed so that the longest vehicle using the driveway can completely clear the traveled way of the public street when the gate is closed.
 9. Where a fence is proposed in conjunction with a development or change in use, the location, height, materials, and detailing of the fence may be subject to other requirements or limitations to ensure consistency with the purposes of this Title.
 10. All fences shall be properly maintained by the owner so as to not become a public nuisance or hazard.
 11. For properties fronting on major arterial roadways as identified in the Fruita Master Plan, the front property line along the roadway is permitted to be fenced as long as the fencing does not encroach into the clear sight triangle.
 12. Any appeal of the City Manager's decision on a fence permit shall be made to the City Council as provided in Section 17.05.060 of this Title.

I. Landscaping Requirements.

1. For single-family and duplex dwelling units with a front yard, at least one (1) tree in the front yard is required to be planted and maintained within six (6) months of issuance of a Certificate of Occupancy.
2. Except for development subject to Level One Design Standards of Chapter 11 of this Title, no less than ten (10) percent of a lot or parcel developed for multi-family or non-residential land uses must be landscaped. At least half of this landscape must be

- provided on the front half (street sides) of the development unless the front setback is permitted to be, and will be, fifteen (15) feet or less, in which case the required landscaping may be located anywhere on the property provided all other requirements are met. Landscaping must include at least one (1) small tree for every five hundred (500) square feet, one (1) medium tree for every one thousand (1,000) square feet, or one (1) large tree for every 1,500 square feet of landscaped area along with two (2) shrubs for every tree and appropriate groundcover. Landscaping, in addition to the minimum ten (10) percent may be required for parking lots containing more than fifteen (15) car parking spaces and/or for buffering and screening purposes as deemed necessary to comply with compatibility requirements of Section 17.07.080 and/or parking lot landscape requirements of Section 17.39.070.G of this Title.
3. For large industrial land uses with significant amounts of outdoor storage and/or operations, the outdoor storage/operation area(s) are not required to be used in the calculation of the minimum 10% landscaping required.
 4. Landscape improvements must follow the landscaping requirements of the Appendix of the Fruita Land Use Code including quality, size, type, planting, and location considerations. Landscaping required to be installed to meet the minimum requirements of this Title (including conditions of approval on a land development application) must be maintained to continue to meet the minimum requirements of this Title.
 5. The types of trees and other vegetation to be planted within public right-of-ways will be determined by the decision making body (Community Development Director or City Council) based on the requirements of the Appendix of the Land Use Code.
- J. Non-Residential Uses in Community Mixed Use Zones. In addition to the requirements of Chapter 17.11, Design Standards, Non-Residential Uses in the CMU zone are regulated as follows:
1. Commercial uses that individually do not exceed a gross floor area of two thousand five hundred (2,500) square feet per commercial center are permitted;
 1. Commercial uses that individually exceed a gross floor area of two thousand five hundred (2,500) square feet per use, and commercial centers that exceed a total of twenty-five thousand (25,000) square feet for all uses in the center, may be allowed subject to Conditional Use Permit approval. For the purpose of this Section, a “commercial center” is defined as the aggregate of all commercial uses located within six hundred (600) feet of one another, regardless of property ownership. Uses not under the same ownership, or separated from one another by a street, driveway, right-of-way, easement, open space or other feature, are still considered to be in the same center if located within six hundred (600) feet of one another;
 3. A new commercial use shall not be permitted where it would be located within one-half (1/2) mile of an existing or city-approved commercial use that is also zoned CMU. This provision does not apply to commercial uses existing or proposed in the GC, DMU, or I zones.

4. Compliance with the Supplemental Zoning Regulations under Section 17.07.070 and Design Standards under Chapter 17.11 is required.

K. Storage of Vehicles and Similar Equipment on Residential or Agricultural Property.

1. For the purposes of this section, "vehicle" is defined as any automobile, truck, tractor, or other machinery of any kind, including every device in, on, or by which any person or property is or may be transported or drawn upon a public highway, road or street, excepting devices moved by human power or used exclusively upon stationary rails or tracks.
2. Trailers, airplanes, boats, recreational vehicles, travel trailers, campers and similar items may be stored on property used mainly for residential purposes as long as the storage is at least ten (10) feet from public right-of-way, excluding alleys. Storage, as used in this subsection, means the location of the above-mentioned items for more than forty-eight (48) hours during any seven (7) day period.
3. It shall be unlawful to store or otherwise have, maintain or allow on a single parcel of land in the City of Fruita more than one (1) non-farm vehicle not having current Colorado license plates or registration unless the vehicle is in an approved junkyard or other similar use where such vehicle storage is permitted. Such vehicle must be stored within an enclosed building or stored behind the front plane of the house or other primary building on the property.
4. There shall be no limit on the number of active or serviceable agricultural vehicles on a parcel of land, regardless of whether such vehicles have current registration or license plates; however, the restrictions of one (1) vehicle per parcel of land shall apply to agricultural vehicles which are clearly abandoned or which are not in their present condition suitable for active agricultural use.
5. Work vehicles exceeding one-ton capacity, other heavy duty vehicles or heavy equipment not typically associated with a residential use shall not be stored on property under two acres in size and used or zoned primarily for residential purposes except for deliveries or for construction or maintenance work to be done at the site. The number of such oversized vehicles stored on the property is limited to two per lot and must be stored behind the front plane of the house and meet primary building setbacks. Storage, as used in this subsection, means the location of the above-mentioned items for more than forty-eight (48) hours during any seven (7) day period.

L. Temporary Uses. Temporary uses are characterized by their short term or seasonal nature and by the fact that permanent improvements are not made to the site. A land use that occurs on a specific property for more than 6 months in a calendar year is not permitted as a temporary use. Temporary uses include, but are not limited to: construction trailers, leasing offices, garage sales, temporary carnivals and fairs, parking lot or sidewalk sales, mobile food vendors, seasonal sales such as Christmas tree sales, produce stands, and similar uses. Special Events such as city-wide festivals or carnivals conducted on school sites are exempt from these provisions (but a Special Event Permit may be required). Temporary uses must comply with the criteria listed below. The city may require a temporary use to cease at any time; if it is found to be in violation of any of these criteria.

1. The following criteria and standards apply to all temporary uses:
 - a. The applicant has the property owner's permission to place the use on the specified property.
 - b. Permanent changes to the site are prohibited.
 - c. The temporary use regulations do not exempt an applicant or operator from any other required permits such as, health department permits.
 - d. The use does not interfere with travel on public ways (including pedestrian and vehicle travel) and does not interfere with access to another property.
 - e. Ingress and egress are safe and adequate when combined with the other uses of the property.
 - f. Temporary use sign(s) shall be permitted in compliance with the requirements of Chapter 41.
 - g. All businesses are required to have a current city business license.
 - h. A Temporary Use Permit is required for any use that exceeds three (3) consecutive days, occurs more than four times in a calendar year, or occupies more than 10,000 square feet of land. The Temporary Use Permit application will be required to address the following additional requirements at a minimum:
 - 1) The proposed site is adequate in size, shape and location to accommodate the temporary use;
 - 2) Adequate parking is available to accommodate the traffic expected to be generated by the temporary use;
 - 3) The temporary use will not jeopardize, endanger or otherwise constitute a menace to the public health, safety, or general welfare;
 - 4) Adequate sanitation facilities and solid waste collection facilities are provided as necessary; and

- 5) Adequate on-site security measures are provided as necessary.
2. Temporary Uses for a Period Greater Than Ninety (90) Days. For uses that occur for a period longer than ninety (90) days in a calendar year, all of the following criteria must be met. Uses occurring for longer periods of time are considered permanent uses and must follow all requirements regarding permanent uses.
- a. The criteria for all temporary uses identified in subsection 1 above are met.
 - b. The proposed temporary use is permitted as an allowed use in the zone designated for the subject property according to the Land Use Table in Section 17.07.060 and does not violate any conditions of approval for the existing use of the subject property. If the principal use of a property is classified as a Conditional Use by the zone, and a proposed temporary use is not designated as allowed outright in the zone or is not specified as a permitted use by the existing Conditional Use Permit, an amended Conditional Use Permit is required.
 - c. The use does not require use of more than ten (10) percent of the off-street parking needed to comply with the minimum parking requirement under Chapter 17.39 for an existing, permanent use of the property.
 - d. The use complies with the applicable setback requirements and other standards of the zone in which it is located.
 - e. The use does not create adverse off-site impacts, including vehicle traffic, noise, odors, vibrations, glare or lights, over and above the impacts that might be created by other uses permitted outright in the applicable zone.
 - f. The use is adequately served by public facilities or provides acceptable temporary/portable facilities, as approved by the city.
 - g. Conditions may be imposed regarding temporary utility connections, sanitary facilities, security and other requirements as necessary to protect public health, safety, or welfare.
3. Temporary Sales Office, Construction Office or Model House. A temporary sales office, temporary construction office or model house may be allowed in any zone based on compliance with the following criteria:
- a. The temporary sales office, construction office, or model house shall be located within the boundaries of the subdivision or parcel of land in which the real property is to be sold and comply with applicable regulations;
 - b. The property to be used for a temporary sales office or construction office shall not be permanently improved for that purpose;
 - c. Conditions may be imposed regarding temporary utility connections, as necessary to protect public health, safety, or welfare; and

- d. A temporary sales office, construction office, or model house may not be used as a dwelling unit. A model house may be used as a dwelling unit when the development in which it is located is permitted to obtain Planning Clearances for dwelling unit construction.
 - e. A temporary sales office, construction office or model house cannot be established before approval to begin site work has been obtained. A temporary sales office or a model house use must be removed within one week after the sale of the last unit in the development. A temporary construction office must be removed within one week of issuance of a Certificate of Occupancy or Certificate of Completion for the construction, or acceptance of the public improvements in a subdivision.
- M. Wood Burning Stoves, Fireplaces, Gas Log Fireplaces and Pellet Stoves.
1. Purpose: Air pollution in the Fruita area has become an issue of concern and has been documented by the Mesa County Health Department and the Mesa County Air Quality Planning Committee. It has been found that a major contributor to the air pollution problem in the Grand Valley is the widespread use of wood stoves and fireplaces that do not have air pollution control devices.
 2. Devices Prohibited: New dwellings and remodeled portions of existing structures shall not contain wood burning stoves, fireplaces, coal burning or similar heating devices not approved by the U.S. Environmental Protection Agency (EPA).
 3. Devices Allowed: Only EPA approved natural gas fireplaces, EPA approved pellet stoves, and EPA approved wood burning stoves and fireplaces shall be allowed in new or remodeled structures.
- N. Outdoor Storage, HVAC Equipment and Other Service Functions. Outdoor storage, HVAC equipment and other service functions must be incorporated into the overall design of the building and landscaping plan. Views of these areas shall be screened from visibility from abutting public rights-of-way and the ground floor of abutting residential land uses. These requirements do not apply to single family or duplex dwelling developments.
- O. Waste Storage. Every use shall provide for enclosed solid waste storage, sorting, and recycling facilities, as applicable. Such facilities shall be oriented away from building entrances, setback at least ten (10) feet from any public right-of-way and screened from view of all public rights-of-way (with the exception of alleys) and abutting land uses by locating them inside buildings (as practical), or by placing them behind a sight obscuring fence, wall, landscaping, or combination thereof. The storage of oils, chemicals, wastewater and other liquid contaminants must be stored and contained in structures approved by the U.S. Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment to prevent them from leaking.
- P. Repair, Painting and Similar Uses. For non-residential land uses, all repair, painting, bodywork, and similar activities, including the storage of refuse and vehicle parts, must

take place within an enclosed structure (surrounded by walls and a roof). Residential land uses must meet all other city requirements regarding such uses.

Q. Dust, Noise, Odor. Each business, commercial, or industrial development is required to meet or exceed the standards for dust, noise and odor, as adopted by the City of Fruita, Mesa County Health Department, state law, the Colorado Department of Public Health and Environment and the U.S. Environmental Protection Agency.

R. New Outdoor Lighting.

1. Street lighting shall be required for all new developments. All intersections shall be illuminated. If there is more than six hundred (600) feet between intersections, additional lighting shall be installed between intersections. Where a new street intersects with an existing street that is not illuminated, the developer will be responsible for the cost of illuminating such intersection. The local electric service provider and the City of Fruita must approve street lighting plans.

2. The following regulations shall apply to all new outdoor lighting on private land:

a. All fixtures shall be fully shielded. For purposes of this subsection, fully shielded shall mean fixtures constructed so that light rays emitted are projected below, and not above, the horizontal plane of the fixture.

b. Lighting shall be downcast and so placed as to prevent the light rays or illumination from being cast beyond property lines.

c. The maximum height of pole lights shall not exceed thirty-five (35) feet in height. The maximum height of lights attached to a building shall not exceed twenty (20) feet in height. Lights required by other government agencies for safety purposes, such as Federal Aviation Administration requirements for lights on certain tall structures, are exempt from these standards.

d. Total outdoor light output shall not exceed the limits set in the table below. Lighting District 1 refers to urban and downtown areas, and commercial and industrial activity centers. Lighting District 2 refers to residential areas, and commercial and industrial activity primarily surrounded by residential land uses. Lighting District 3 refers to rural and agricultural areas, and small commercial or industrial activities primarily surrounded by rural or agricultural areas.

Maximum Total Lumen Output Standards			
	LD1	LD2	LD3
Commercial and Industrial Zoning (per acre)	300,000	200,000	100,000
Residential Zoning (per lot)	30,000	20,000	10,000

e. Gas fired fixtures and lights used for holiday decorations are exempt from the requirements of this subsection.

S. Irrigation water. Irrigation water must be provided to new developments when landscaping is required and must be used for required landscape areas where irrigation

water is legally and physically available. A minimum of one and one half (1 ½) to two (2) shares of irrigation water per irrigated acre is required to be provided. See the City of Fruita Design Criteria and Construction Specifications Manual for more information.

 - ii. Any public park or other publicly owned or maintained building open for use by the general public; or
 - iii. Any religious institution or place of worship.

The distance shall be computed by direct measurement from the nearest property line of the land used for the above uses to the nearest portion of the building in which the medical marijuana business is to be located.

- d. The city shall not receive or act upon an application for the issuance of a conditional use permit if the application concerns a particular location that is the same as or within one thousand feet (1,000') of a location for which,

within the two (2) years immediately preceding the date of the application, the city denied an application for a special use permit for a medical marijuana business due the nature of the use or other concerns related to the specific location.

- e. Marijuana plants, products, accessories, and associated paraphernalia contained in a medical marijuana business shall not be visible to members of the public from a public sidewalk, public street or right-of-way, any other public place, or any portions of the building in which the medical marijuana business is located not restricted to access by patients and employees only.
- f. All signage related to a medical marijuana Business shall meet the standards established in the Fruita Land Use Code. In addition, signs shall be restricted to a total of sixteen square feet, including all temporary signs. No signs associated with a medical marijuana business shall use the words “marijuana,” “cannabis,” or other any word or phrase commonly understood to refer to marijuana unless such word or phrase is immediately preceded by the word “medical” or the message of such sign includes the words “for medical use” or “for medicinal purposes” in letters that are no smaller than the largest letter on the sign. No depiction of marijuana plants or leaves shall appear on any exterior sign of a medical marijuana business.
- g. Parking requirements for a medical marijuana center shall be based on parking requirements for high volume retail sales.
- h. The medical marijuana business shall be operated in a manner that does not cause any substantial harm to the public health, safety and welfare.
- i. Any conditional use permit granted for a medical marijuana business confers only a limited and conditional privilege subject to the requirements, conditions and limitations of Chapter 5.15 of the Fruita Municipal Code and State law. Any license granted for a medical marijuana business pursuant to Chapter 5.15 may be further regulated, limited or completely extinguished at the discretion of the City Council or the electors of the city, without any compensation to the licensee.
- j. A conditional use permit for a medical marijuana business may be subject to conditions that are reasonably necessary to protect the public health, safety or welfare, including but not limited to the following:
 - i. Limits and requirements on parking and traffic flows;
 - ii. Limits on noise inside the medical marijuana business or on adjacent grounds;
 - iii. Prohibitions on certain conduct in the medical marijuana business;

- iv. A limitation on the square footage that can be utilized by the medical marijuana business; and
- v. Any other conditions reasonably necessary to protect the public health, safety and welfare and fulfill the intent and purposes of the Fruita Land Use Code and Chapter 5.15 of the Fruita Municipal Code.”

17.07.080 LAND USE COMPATIBILITY CRITERIA.

The purpose of this Section is to provide a fair and consistent manner in which to consider compatibility within the overall context of the Fruita Master Plan, existing adjacent land uses, applicable zoning district requirements, and other city codes and regulations. Nothing in this Section shall prevent the City of Fruita from denying a land use application based on relevant Code requirements or taking enforcement action against a property owner where a nuisance or other Code violation occurs.

For all land uses, “compatibility” is provided when a proposed land use can coexist with other existing uses in the vicinity without one use having a disproportionate or severe impact on the other use(s). The city decision-making body may consider other uses existing and approved, and may consider all potential impacts relative to what customarily occurs in the applicable zone and those which are foreseeable, given the range of land uses allowed in the zone. The review authority may require conditions of approval to promote compatibility between uses.

(Ord. 2016-04, S1)

17.07. 090 LEGAL NON-CONFORMING USES, STRUCTURES, AND LOTS. Any use, structure, or lot in existence and lawful at the time of adoption of this Title or any subsequent amendment hereto, which is not in conformance with the provisions of this Title or amendment, shall be considered a legal non-conforming use, structure, or lot and may continue in existence pursuant to the following:

- A. A legal non-conforming use may be extended throughout the same building, provided no structural alteration of such building is made for the purpose of such extension. A legal non-conforming use of property not contained within a building shall not be expanded.
- B. A legal non-conforming use shall not be changed to any other use except a conforming use.
- C. Whenever a legal non-conforming use of land, structure, sign, or a building has been discontinued for a continuous period of one (1) year, future use of the land, structure, sign, or building shall be in conformance with all applicable city regulations.
- D. A structure, building or sign which does not meet the setback, height, size, or other site requirements of this Chapter may be repaired, maintained, or extended, provided any such repair, maintenance, or extension is in full compliance with all applicable city regulations.

- E. A non-conforming structure, building or sign which has been damaged to an extent not exceeding fifty (50) percent of its assumed market value on the day before the damage occurred may be restored in conformance with the city's building codes, provided such work is commenced within one (1) year of the date of damage. If the structure, sign, or building is damaged to the extent of more than fifty (50) percent of assumed market value, the non-conforming structure, building, or sign must be discontinued. Assumed market value for a building shall be determined by multiplying the most recent assessed value of the damaged building by four (4). This section shall not apply to single-family dwellings. Legal non-conforming single-family dwellings may be rebuilt in compliance with the current building codes.
- F. An individual lot which was legally created but does not meet the minimum lot area or other dimensional requirement for the zone in which it is located shall be considered a legal non-conforming lot. Such legal non-conforming lot may be used provided all zoning and other applicable city regulations, including but not limited to setbacks, are met.
- G. Mobile and manufactured homes shall be subject to the provisions of this Code on the date they are removed from their pad or foundation; however, if a mobile or manufactured home was legally established as a single-family residential dwelling unit, the mobile or manufactured home can be replaced on the same site even if single-family residential land uses are not permitted, nor does the replacement require a Conditional Use Permit, but all other standards apply.
- H. Non-conformities should be brought into compliance with all city regulations before annexation and those non-conformities that are to be permitted to continue as legal non-conformities must be identified in the Ordinance annexing the property.
- I. A use that was legally established without a Conditional Use Permit shall not be deemed non-conforming solely because a Conditional Use Permit is now required for the use. Any expansion or other significant changes to the land use which requires the Conditional Use Permit will require approval of a new Conditional Use Permit before the expansion or other significant change.

Chapter 17.08
DENSITY BONUSSES

Sections:

- 17.08.010 Purpose and Intent**
17.08.020 Applicability
17.08.030 General Provisions
17.08.040 Density Bonus Criteria
17.08.050 Development Standards

17.08.010 PURPOSE AND INTENT.

- A. Purpose. The purpose of Chapter 17.08 is to help implement portions of the Fruita Community Plan by providing for residential density bonuses in designated zones tied to the provision of community amenities. This Chapter is intended to promote compatibility between land uses, as well as predictability and fairness in the approvals process, consistent with the Fruita Community Plan.
- B. Intent. The intent of this Chapter is to provide options and standards that promote and encourage innovative design that emphasize walkable neighborhoods that are pedestrian in scale and character, integrating open space or common area, detached sidewalks, park strips and tree lined streets and offer a variety of housing types.

(Ord. 2018-11, S1)

17.08.020 APPLICABILITY. The provisions of Chapter 17.08 apply only when an

applicant has requested a density bonus and only where the zone in which a project is located specifically authorizes residential densities exceeding the base density of the zone.

(Ord. 2018-11, S1)

17.08.030 GENERAL PROVISIONS.

- A. Density bonus requests shall be submitted on forms provided by the Community Development Director and shall be accompanied by plans, exhibits, narrative and other information as required by the Community Development Director, to sufficiently demonstrate compliance with the provisions of this Chapter.
- B. Density bonus applications shall be processed at the same time and using the same procedure as required for a Major Subdivision, Planned Unit Development, or Site Design Review, as applicable.
- C. Projects utilizing the provisions of this Chapter are not necessarily required to be processed as a Planned Unit Development.
- D. City Council may preliminarily approve a density bonus, with final approval contingent upon the owner and city executing an Annexation Agreement, Subdivision or Development Improvement Agreement, PUD Guide and/or other binding agreement as necessary to ensure compliance with this Title and other city requirements.
- E. Except as provided under Subsection D (preliminary approval) above, a density bonus approval shall be binding on the subject property and shall run with the land.
- F. City Council may approve, deny, or approve with conditions, density bonus applications filed in accordance with Chapter 17.08.

(Ord. 2018-11, S1)

17.08.040 DENSITY BONUS CRITERIA. City Council is authorized to grant density bonuses up to a maximum of five (5) dwelling units per acre in accordance with the following:

- A. A maximum density of three (3) dwelling units per acre may be approved with a minimum of thirty (30) percent of the property designated as open space or common area.
 - 1. The open space or common area must be adjacent and accessible to a minimum of fifty (50) percent of the lots.

2. For purposes of this Chapter, adjacent means open space or common area that is located along the entirety of at least one lot line of each adjoining lot and accessible means the resident of the lot or unit must be able to safely and conveniently step onto the open space or common area from the lot or unit.
- B. In addition to the required open space, the following criteria may be used to increase the bonus density by an additional dwelling unit per acre, per criteria, up to a maximum five (5) dwelling units per acre:
1. A minimum of eighty (80) percent of the proposed dwelling units are oriented towards open space or common area. For purposes of this Chapter, oriented means that the primary entrance of the dwelling unit faces toward an open space or common area.
 2. A minimum five (5) foot wide park strip and five (5) foot wide detached sidewalk are located on both sides of all proposed streets. Upon approval of City Council, park strips may be applied toward the open space or common area requirement.
 3. Access to required parking and/or garages of a minimum of eighty (80) percent of the proposed dwelling units is by alley or shared drive. For purposes of this Chapter, a shared drive must serve a minimum of four (4) dwelling units.
 4. A mix of housing types are proposed with a minimum of twenty (20) percent of the dwelling units being single-family attached, duplexes and/or multi-family units.
- C. All densities are dwelling units per gross acre, as defined in Chapter 17.03.

Density Bonus Criteria	Zones		
		SFR	CMU
Base Density		2.0 DU/acre	2.0 DU/acre
30% Open Space		3.0 DU/acre	3.0 DU/acre
Orientation of dwelling units		Not applicable	1 additional DU/acre
Park strips/detached walks		Not applicable	1 additional DU/acre
Alley/shared drive access		Not applicable	1 additional DU/acre
Mix of housing types		Not applicable	1 additional DU/acre

(Ord. 2018-11, S1)

17.08.050 DEVELOPMENT STANDARDS. Density bonuses are awarded based on an application's compliance with the above criteria and the standards and requirements contained in the following text and illustrations.

A. General Standards.

1. Walkable Neighborhood.

- a. Pedestrian friendly street design which may include but is not limited to: interconnected pedestrian network of sidewalks and trails, reduced front yard setbacks; tree-lined streets; garages and parking accessed by alleys or shared drives; narrow, slow speed streets; etc.

2. Innovative Urban Design.

- a. Emphasis on aesthetics, human comfort and creating a sense of place.
- b. Human scale architecture.
- c. Easily accessible open space or common area.
- d. Dwelling units oriented toward open space or common area.

3. Variety of Housing Types.

- a. A variety of housing types including single-family detached, single-family attached, duplexes and multi-family dwellings.

B. Site Development Standards. In addition to those requirements contained in Title 17 – Land Use Code, the following design standards are applicable to new developments utilizing bonus density.

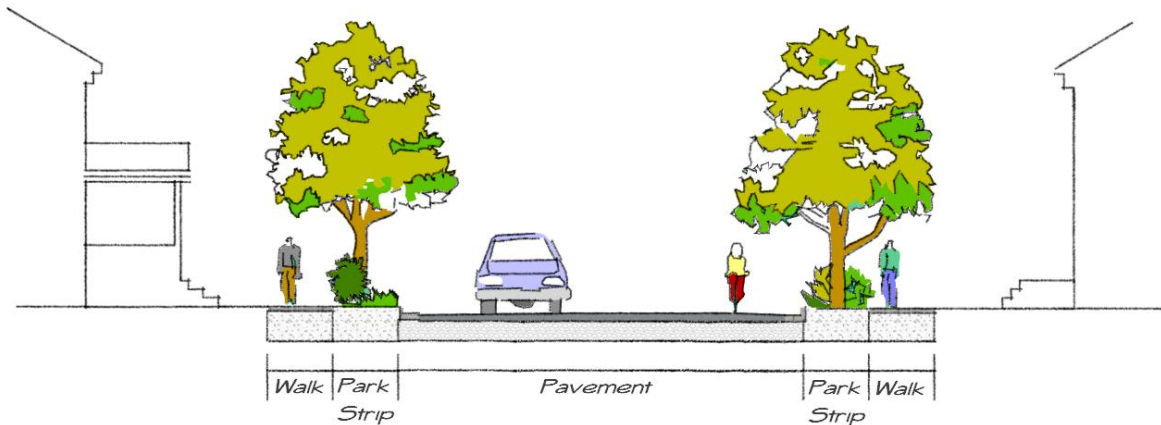

1. Floor Area Ratio.

- a. The maximum floor area ratio shall be 0.40. The floor area ratio is calculated by dividing the gross building area (including all accessory structures but excluding uncovered patios and decks) by the gross lot area.

2. Streets.

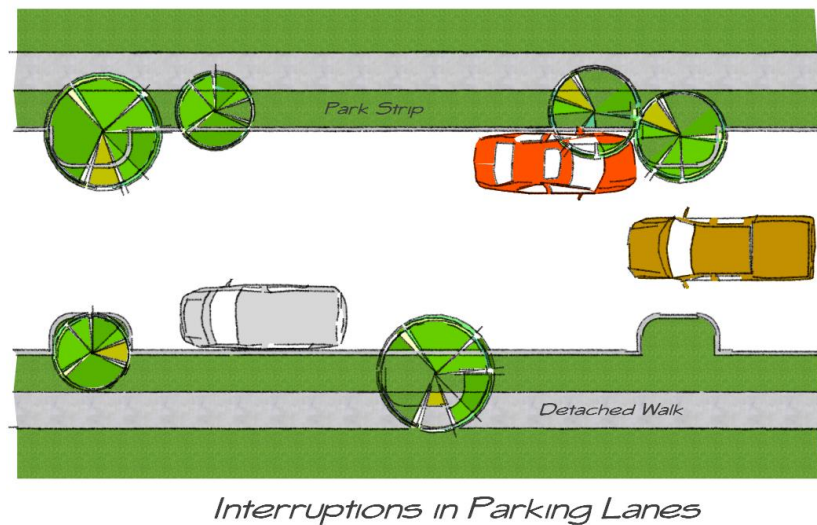

- a. Alternative street designs are encouraged and may be approved where the design is found to be consistent with the intent of this Chapter and consistent with the health, safety and welfare of pedestrians and vehicles.

- b. Traffic calming techniques shall be incorporated into street designs.

3. Parking.

- a. Guest parking shall be provided at a ratio of .5 parking space per unit when on-street parking is limited or nonexistent. Guest parking spaces shall be accessible to everyone and conveniently located within the project.
- b. If on-street parking is proposed, the use of planting areas interposed within the parking lanes is encouraged.

4. Pedestrian Access, Sidewalks and Trails.

- a. Projects shall include an interconnected pedestrian circulation system utilizing both sidewalks and trails as an integral part of the project connecting streets, dwelling units, open space and common area. Disheartening
- b. On-site trails and/or sidewalks shall be extended to existing off-site trails, sidewalks or parks if the extension is less than two hundred (200) feet in length.

5. Building Design

- a. Building design within the project should be architecturally varied but complementary.
- b. Individual units should incorporate design features to assure high quality, distinctive design and a cohesive variety within the project.
- c. Building facades should have offsets, particularly above the first floor, to reduce the appearance of building mass and bulk.
- d. Roof elements should be varied to create a comfortable human scale.

- e. Garages
 - 1) Garages may be attached or detached but must be consistent and compatible with the architecture and materials of the individual dwelling unit.
 - 2) The appearance of attached garages should be minimized by limiting garage doors to no more than fifty (50) percent of the linear front elevation of any unit. The use of two single-car garage doors as opposed to a double-garage door or similar design is encouraged to reduce the visual scale of the garage.
 - 3) Driveway cuts on the public street shall be minimized to preserve landscaping and on-street parking.
- 6. Neighborhood Compatibility. New developments should integrate existing neighborhood patterns of adjacent developments with respect to building scale, massing and orientation.
- 7. Open Space/Common Areas
 - a. Open space and common areas shall be a functional part of the project design rather than residual land that is “left over” with no recreational, aesthetic or design importance.
 - b. Narrow (less than thirty-five (35) feet in width) linear strips of land should not be counted toward the open space or common area requirement.
 - c. Open space or common areas may be developed or undevelopable, active or passive and may include stormwater detention and retention basins if design of the basin is integral to the open space or common area. In addition, washes, streams or other natural features should be included and incorporated into open space or common area.
 - d. Open space or common areas shall be visible from the street and add to the quality of the neighborhood and shall be accessible to all dwelling units within the development. Open space and common area surrounded by dwelling units with no access to an adjacent street is prohibited.
 - e. Open space or common areas may contain private recreation amenities including but not limited to: plazas, courtyards, community garden, basketball/tennis/pickleball courts, clubhouses or community greenhouses.
 - f. Walkways, trails and other forms of pedestrian access shall form an interconnected system serving as access to open space, common area and other pedestrian destinations.

- g. Open space or common areas shall be grouped contiguously with open space or common areas from adjacent developments.
8. Landscaping
- a. Landscape Buffer
 - 1) A landscape buffer shall be a minimum of thirty-five (35) feet in width and left in its natural state or improved.
 - b. Tree and Landscape Feature Preservation
 - 1) Existing trees and other natural landscape features should be preserved and incorporated into the design of the project.
 - c. Park Strips
 - 1) Park strips must be a minimum of five (5) feet in width and contain, in aggregate, at least one (1) tree for every forty (40) feet of street frontage.
 - 2) Trees may be grouped or clustered for compatibility with the overall site design and need not be spaced at regular intervals of forty (40) feet.
9. Lighting
- a. Street lighting should be provided along all streets. Generally more, smaller lights, as opposed to fewer, high-intensity lights, should be used.
 - b. Street-lights should be installed on both sides of the street at intervals no greater than seventy-five (75) feet.
 - c. Decorative light posts are recommended for free standing lights and lighting should be low in height to complement the human scale.

C. Modification of Standards.

1. For development projects requesting a density bonus, City Council may consider modification of one or more of the following standards:
 - a. Minimum lot sizes and/or dimensions;
 - b. Maximum floor area ratio;
 - c. Minimum lot setbacks;
 - d. Maximum lot coverage;
 - e. On-site parking standards;
 - f. Minimum building separation requirements; and/or
 - g. Street standards.
2. A request for modification of standards shall be submitted in conjunction with the bonus density application and shall identify the modifications being requested and shall include an explanation of what exceptional conditions, practical difficulties, or unnecessary hardships exist that require the modifications. The request shall also address how the modifications are beneficial to the public good, are in compliance with the Comprehensive Plan and meet the purpose and intent of this Chapter.

Chapter 17.11**DESIGN STANDARDS****Sections:**

- 17.11.010 Purpose**
17.11.020 Applicability, Adjustments, Guidelines Versus Standards
17.11.030 Downtown Mixed Use and Community Mixed Use Zones – Commercial Development
17.11.040 Development in Tourist Commercial and General Commercial Zones
17.11.050 Attached Single Family Residential, Multi-Family Residential and Single Family Residential Lots Measuring Less Than 7,000 Square Feet in Size and Lot Widths Measuring Less Than 60 Feet
17.11.060 Mixed Use Developments in the Community Mixed Use Zone

17.11.010 PURPOSE. It is the purpose of this Chapter to set forth the design standards under which the architecture and site design of certain developments are reviewed in order to meet the goals, objectives and design criteria set forth in the City of Fruita Master Plan.

The 2008 Community Plan strives to promote high quality growth that preserves Fruita's character and increases economic sustainability. The Plan goes on to call for the creation of vibrant neighborhoods with a diversity of housing options that allow Fruita residents to live, work, and play in their community. As such, the design standards in this chapter are proposed to meet these goal statements combining the needs for strong livable neighborhoods and long-term economic development. These standards are intended to set the course to meet the desired character of the community. Because not all development opportunities can be predicted or accommodated in even the best written code, Section 17.11.020(B) is included with this chapter in order to provide developers a tremendous level of flexibility when applying the regulations and requirements in this chapter. The purpose of this chapter is to quantify and qualify requirements to meet the community's character and goals. For any project, should an applicant believe their project is meeting the broad goals of the Community Plan, but not necessarily specific requirements of this chapter; the applicant is encouraged to utilize 17.11.020 (B). This chapter is intended to help guide and provide direction for an applicant and will encourage any high-quality project that meets community goals and objectives. All interpretations of the requirements of this chapter shall meet this purpose.

(Ord. 2009-02)

17.11.020 APPLICABILITY, ADJUSTMENTS, GUIDELINES VERSUS STANDARDS.**A. Applicability.**

In addition to other applicable regulations, the design standards of this Chapter apply to non-residential developments that are located in the following zones: Downtown Mixed Use (DMU); Community Mixed Use (CMU); Tourist Commercial (TC); General

Commercial (GC). These design standards also are applicable to all multi-family residential units and new lots in new subdivisions (subdivisions approved 4/3/2009) that include attached single family residential units; single family detached residential lots measuring less than 7,000 square feet in size, residential lots measuring less than sixty (60) feet in width and only those parts of new subdivisions containing these types of residential units regardless of the zone in which it is located.

The architectural and site design standards of this Chapter are applicable to new buildings and also building additions and exterior remodels which building costs exceed 50% of the Mesa County Assessor's current actual value of the current improvements in the subject property.

B. Adjustments.

The provisions of this Chapter may be adjusted at the discretion of the city decision-making body, as applicable, without the need for a variance, where the city decision-making body finds that an applicant's proposed alternative design meets the intent of the regulations which are to be adjusted, and the proposed design provides compatibility between the proposed development and uses adjacent to the subject site. Where this Chapter provides "Guiding Principles," those principles are to be used in evaluating adjustment requests.

C. Guidelines Versus Standards.

The terms "shall" and "must" indicate a code standard. The standard is mandatory but may be adjusted, as described in subsection B, above. Statements of "intent" and code provisions using the word "should" or "encourage" are guidelines. "Guiding Principles" are guidelines. The graphics contained in this Chapter also serve as guidelines; however, some graphics also reference a quantitative standard (e.g., percentage or dimensions). While guidelines are discretionary in nature, they must be addressed by the applicant, and the city decision-making body may apply them as mandatory requirements in situations where the applicant has requested code adjustments.

(Ord. 2009-02, Ord. 2013-06)

17.11.030 LEVEL ONE DESIGN STANDARDS. In addition to other applicable regulations, the following architectural and site design standards are applicable to all development other than single family detached and duplex residential developments, in the Downtown Mixed Use (DMU) and Community Mixed Use (CMU) zones with the following exceptions:

- All properties touching Grand Avenue between Highway 6 & 50 and Sycamore Street
- All properties touching Highway 6 & 50 between Pine Street and Plum Street
- All properties west of Apple Street, south of Cleveland Street and north of Highway 6 & 50
- All property between the west end of Pabor Way and Little Salt Wash

A. Guiding Principles

New buildings and exterior remodels are expected to honor the historical development pattern and character of downtown Fruita. While many communities attempt to “create” or “re-create” an urban downtown of their own, Fruita already has a downtown containing a mixture of historic buildings and contemporary buildings, a large central plaza, and attractive residential neighborhoods in and around the downtown area. Fruita’s Mixed Use zones are intended to support traditional downtown and village commercial development. New development and redevelopment should support a walkable and attractive area with shopping, restaurants, residences, parks, and civic, office and other employment centers. The building design standards draw on historic elements of the downtown while allowing for a contemporary interpretation of Fruita’s history. It is not the intent of the City of Fruita to create an architectural theme or to freeze time, but rather to ensure that new buildings, remodels and redevelopment fit within the context of their historic surroundings, as applicable, and support compact, walkable districts. The key elements of mixed-use development are summarized as follows:

1. Architecture based on local vocabulary of building styles and elements, including compatibility with historic structures, where applicable.
2. Building height and articulated facades that create a sense of street enclosure at a human scale.
3. Provide appropriate design standards for the Downtown Core (South of Pabor) and the adjacent Downtown Mixed-Use neighborhood (between Pabor and Ottley).
4. Provide appropriate design standards for commercial and mixed-use developments in the Community Mixed Use zone.
5. Transition building height between the Mixed-Use zones and the adjacent residential neighborhoods.
6. Require the use of contextually appropriate materials, textures and colors.
7. Promote a storefront character (windows, pedestrian shelter, furnishings, etc.) within planned commercial centers.
8. Encourage a diversity of building facades and rooflines that fall into a consistent rhythm.
9. Promote corner lots as focal points with furnishings and public art.

B. Building Design Standards:

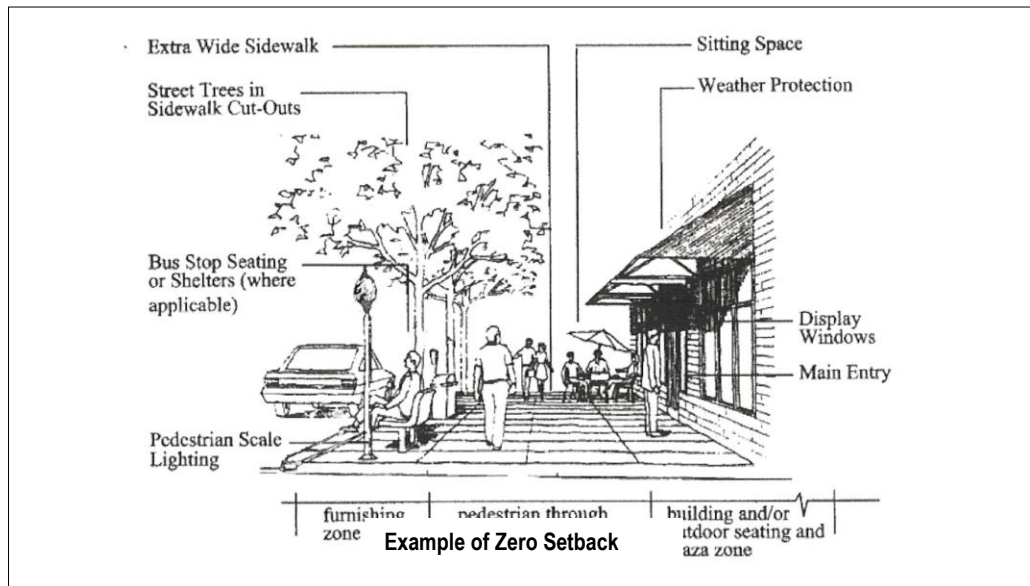

1. Height.
 - a. Maximum Height. The maximum allowable height is five (5) stories in the DMU zone Downtown Core and four (4) stories for buildings in the CMU zone that mix residential and commercial land uses, except that buildings, or portions of

buildings, located less than one hundred (100) feet from Elm Street south of Pabor Ave. and north of Highway 6 & 50 shall not exceed thirty-five (35) feet in height. The maximum height of all portions of a building that are within one hundred (100) feet of a single family dwelling shall step-down in roof elevation, i.e., from fifty (50) feet to thirty-five (35) feet to provide a more sympathetic scale with adjacent single family dwellings.

- b. Minimum Height. New buildings constructed within the Downtown Core and abutting Aspen Avenue shall be built to a height of not less than twenty-two (22) feet to maintain an intimate, pedestrian scale relative to the street, and a sense of street enclosure. Single story buildings in the Downtown and Community Mixed Use zones shall incorporate parapets that reach the minimum required height.

2. Setback.

- a. Zero Front Setback Required. All non-residential buildings, including mixed use buildings containing residential and non-residential uses, shall maintain a zero setback from a street property line. This standard is met when at least fifty (50) percent of the abutting street frontage has a building placed at the street property line, as generally depicted below.

Exceptions:

An exception to the zero-setback regulation may be approved or required in the following situations:

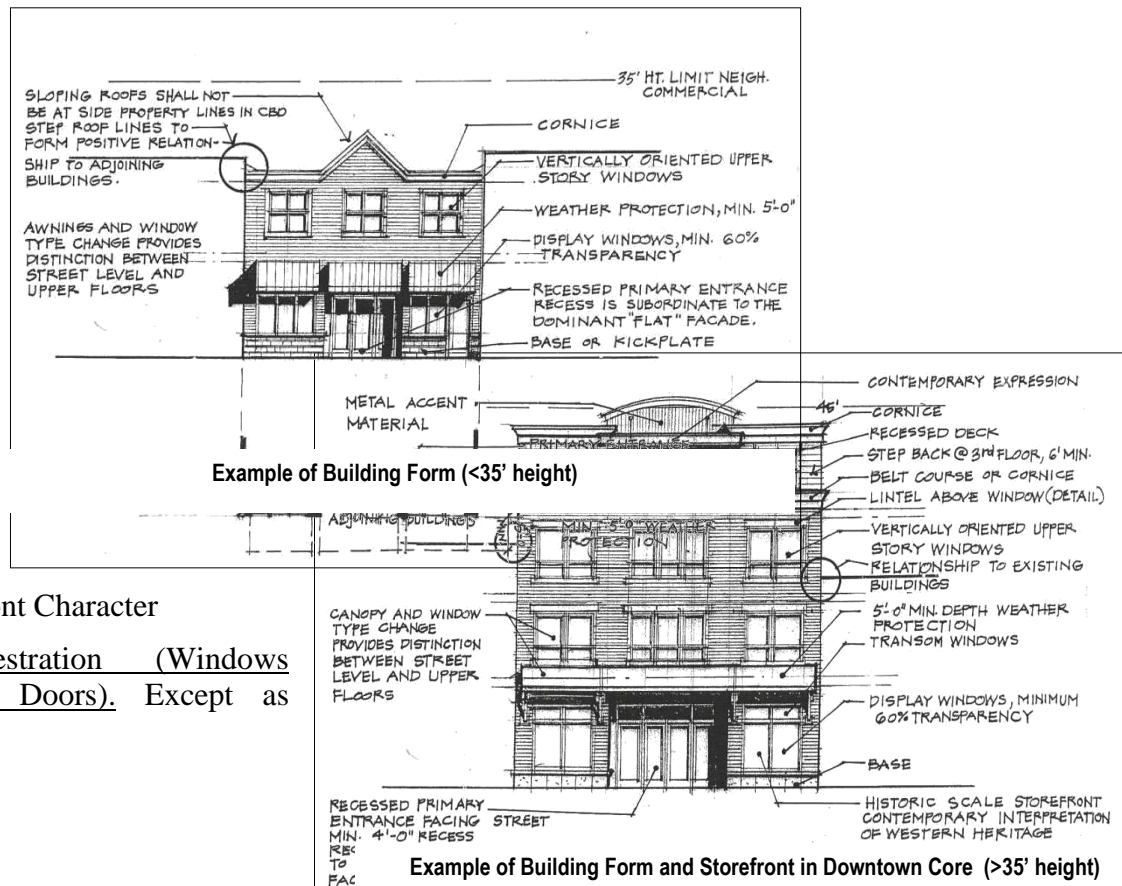

1. Where a proposed building is adjacent to a single-family dwelling.
2. Where the sidewalk width is extended for public use, or a public plaza is proposed to be placed between the building and public right-of-way. Exceptions may also be made for planter boxes incorporated into the

building wall, provided the planter box does not exceed a height of thirty (30) inches above sidewalk grade.

3. Where a public utility easement or similar restricting legal condition makes conformance with the zero setback impracticable, the building shall instead be placed as close to the street as possible given the legal constraint, and pedestrian amenities (e.g., plaza, courtyard, landscaping, outdoor seating area, etc.) shall be provided within the street setback in said location.
- b. Side and Rear Yards. Side or rear yard setbacks shall conform to applicable building codes. The city decision-making body may require additional setbacks where necessary for storm water drainage, vision clearance at intersections, access to utilities, or similar purposes.
- c. Right-of-Way. The city may allow the placement of pedestrian amenities; such as, street furnishings, canopies, awnings, signs and similar features in the sidewalk right-of-way, subject to Site Design Review or a Temporary Encroachment Agreement.

3. Building Form

- a. Overall Form. Architectural designs shall address all four (4) sides of a building in the DMU and CMU zones. The predominant form in the Downtown Core is a generally “flat” elevation with any recesses, projections, or rounded corners (“articulations”) appearing subordinate to the dominant rectangular form. The predominant form in the Downtown Mixed-Use zone may be similar to the Core, or it may be more residential in character and contain pitched roofs, porches, bay windows and similar features. New buildings should reflect the predominant form, while expressing individuality.

4. Storefront Character

- a. Fenestration (Windows and Doors). Except as

approved for parking structures or accessory structures, buildings shall provide display windows and windowed doors to express a store front character. The ground floor, street-facing elevation(s) of all buildings shall comprise least sixty (60) percent transparent windows, measured as a section extending the width of the street-facing elevation between the building base (or thirty (30) inches above the sidewalk grade, whichever is less) and a plane seventy-two (72) inches above the sidewalk grade. Upper floors may have less window area but should follow the vertical lines of the lower level piers and the horizontal definition of spandrels and any cornices. Buildings without a street-facing elevation, such as those that are setback behind another building and those that are oriented to a civic space (e.g., internal plaza or court), shall meet the sixty (60) percent transparency standard on all elevations abutting civic spaces(s) and elevations containing a primary entrance. All side and rear elevations, except for zero lot line/common wall elevations (where windows are not required), shall provide no less than thirty (30) percent transparency. Where an exception to the window transparency requirement is made for parking garages or similar structures, the building design must incorporate openings or other detailing that resembles the window patterns (rhythm and scale) found on adjacent buildings. Storefronts that resemble suburban strip malls (e.g., picture windows extending to near grade level) and those that use reflective glass, clerestory windows and/or similar non-traditional features are not permitted.

- b. Street Level Entrance. All primary building entrances shall open to the sidewalk and be ADA accessible. Primary entrances above or below grade may be allowed where ADA accessibility is provided.
- c. Street Level/Upper Floor. Building elevations shall contain detailing that visually defines street level building spaces (storefronts). The distinction between street level and upper floors shall be established, for example, through the use of awnings, canopies, belt course, or similar detailing, materials and/or fenestration.

5. Building Mass

The third story, and/or any portion of a building exceeding twenty-eight (28) feet in height, shall step-back at least six (6) feet from the outer plane of the building. The purpose of the height step back is to maintain a small-town appearance and scale as viewed from the street and to provide for solar gain and light filtering down to the street. (See also, subsection B.1 Height, above.)

6. Openings

- a. Ground Floor Windows. Ground floor elevations shall conform to subsection B.4.a, above, and must contain windows that are framed, for example, by piers or pilasters (sides); awnings, canopies or trim/hoods (tops); and kick plates or bulkheads (base). Decorative detailing and ornamentation around windows (e.g., corbels, medallions, pediments, or similar features) is encouraged.
- b. Upper Floor Windows. Upper floor window orientation shall primarily be vertical, or have a width that is no greater than height, consistent with the

Western vernacular. Paired or grouped windows that, together, are wider than they are tall, shall be visually divided to express the vertical orientation of individual windows.

- c. Pedestrian Entrances. Ground level entrances shall be at least partly transparent to encourage an inviting and successful business environment. This standard may be met by providing a door with a window(s), a transom window above the door, or sidelights beside the door. Where ATMs or other kiosks are proposed on any street-facing elevation, they shall be visible from the street for security and have a canopy, awning, or other weather protection shelter.
- d. Corner Entrances. Buildings on corner lots shall have corner entrances or the building plan shall provide for a corner plaza consistent with Section 17.11.030(C), below, or the building shall provide architectural features (e.g., alcove with seating or artwork) at the corner that emphasizes the corner as a civic space.

7. Horizontal Rhythms

- a. Traditional Lot and Building Pattern. Buildings must respect the traditional lot pattern and building rhythm of the downtown and/or adjacent residential neighborhood, as applicable, by incorporating rhythmic divisions in all elevations. As a general guideline, front elevations should be articulated not less than once every twenty-five (25) feet. Articulation should be subtle. For example, slight offsets in a building elevation, roofline and/or the rhythmic placement of windows, pilasters, awnings, trim, art/medallions, or other detailing and ornamentation are preferred. Abrupt divisions, such as clashing paint colors, should be avoided. Side and rear elevations may be articulated less frequently but should complement the overall building design. The city may require detailing on a zero-lot line elevation to reduce the apparent scale and avoid blank walls (i.e., until an abutting property develops).

- b. Horizontal Lines. New buildings and exterior remodels shall follow prominent horizontal lines existing on adjacent buildings at similar levels along the street frontage. Examples of such horizontal lines include: the base below a series of storefront windows; an existing awning or canopy line, or belt course between building stories; and/or an existing cornice or parapet line.

Example of appropriate articulation and rhythm using architectural bays, windows, off-sets, detailing, and weather protection (above).

Exceptions: Where existing buildings do not meet the city's current architectural standards, a new building may establish new horizontal

lines.

- c. Ground Floor/Upper Floor Division. A clear visual division shall be maintained between the ground level floor and upper floors, for example, through the use of a belt course, transom, awnings or canopies.

8. Vertical Rhythms

New construction or front elevation remodels shall reflect a vertical orientation, either through breaks in volume or the use of surface details, to divide large walls, so as to reflect the underlying historic property lines, as applicable.

9. Materials and Color

- a. Primary Materials. Exterior building materials shall predominately consist of those materials traditionally found in Fruita's downtown or others indigenous to the intermountain West, including brick, stone (e.g., limestone, rhyolite, granite, etc.), adobe, adobe brick, slump block, stucco, split block, and painted or natural wood. (See examples in sidebar.) Pitched roof materials shall be wood or asphalt singles or standing rib seam sheet metal-matte finish. Roof colors must be warm earth-tones such as ash, light charcoal, light red (sandstone) or olive green, except flat roofs may be any non-reflective color and finish. All windows and doors must have trim that is at least four (4) inches deep. Rough-hewn wood, timbers and metals may be used as accents but not as the primary exterior cladding. Substitute materials that are equal in appearance and durability may be approved.

- b. Change in Materials. Elevations shall incorporate changes in material that define a building's base, middle and top and create visual interest and relief. Side and rear elevations that do not face a street, pedestrian access way or plaza may utilize changes in texture and/or color of materials in the interest of affordability, provided that the design is consistent with the overall composition of the building.

- c. Secondary Materials. Any of the materials listed above may also be used as secondary materials or accents. Metals such as, copper, steel, iron, bronze and similar appearance metals may be used as trims or accents (e.g., flashing, weather protection features, ornamentation, etc.) when non-reflective and compatible with the overall building design.

Examples of appropriate materials.

- d. Color. Color schemes should be simple and coordinated over the entire building to establish a sense of overall composition. Color schemes should tie together signs, ornamentation, awnings, canopies and entrances. There shall be no more than one base color for each twenty-five (25) feet of the front elevation; one base color for the entire front elevation is preferred. Using only one or two accent colors is also preferred, except where precedent exists for using more than two colors with some architectural styles. Natural wood finishes are appropriate for doors, window sashes and trim, signs, canopies and other architectural accents. Reflective, luminescent, sparkling, and “day-glow” colors and finishes are not permitted. Metals shall be finished in mute, earth-tones or otherwise burnished to minimize glare.
- e. Restoration and Rehabilitation. Restoration and rehabilitation of historically significant structures should incorporate original materials and design elements (e.g., previously covered over), to the extent practicable, and in compliance with Chapter 17.37.

10. Pedestrian Shelters

Awnings, canopies, recesses or similar pedestrian shelters shall be provided along at least thirty (30) percent of a building’s ground floor elevation(s) where the building abuts a sidewalk, civic space (e.g., plaza), pedestrian access way, or outdoor seating area. Pedestrian shelters used to meet the above standard shall extend at least five (5) feet over the pedestrian area, be proportionate to the building in its dimensions, and not obscure the building’s architectural details. Pedestrian shelters shall align with one another to the extent practicable. Use of colored canvas (not plastic) awnings and wood canopies, consistent with historical styles, is encouraged, though metal and plexi-glass canopies may be considered.

Exception: The city may reduce the minimum shelter depth upon finding that existing right-of-way dimensions or building code requirements preclude a larger shelter.

11. Mechanical Equipment

- a. Building Walls. When mechanical equipment, such as utility vaults, air compressors, generators, antennae, satellite dishes, or similar equipment, must be installed on a building wall, it shall be oriented away from all streets. Where such equipment is installed on a side or rear building elevation and is adjacent to an alley, access way, or civic space, its appearance shall be minimized using materials and/or colors that are similar to those used on the subject building. Standpipes, meters, vaults and similar equipment shall not be placed on a front elevation when other practical alternatives exist; such equipment shall be placed low on a side or rear elevation to the extent practical.
- b. Rooftops. Rooftop mechanical units shall not be visible from the street, pedestrian access way or civic space. Such units should be screened behind a parapet wall.

- c. Ground-Mounted Mechanical Equipment. Ground-mounted equipment (e.g., generators and air compressors) shall be limited to side or rear yards and screened with fences or walls constructed of materials similar to those on adjacent buildings. Hedges may also be used as screens where there is adequate sunlight and irrigation to ensure their successful growth. The city may require additional setbacks and/or noise attenuating equipment to promote compatibility with adjacent residential uses.
- d. Civic Spaces. Mechanical equipment and garbage storage areas are not permitted within the civic space(s) required under subsection C.1. The city may require that such facilities be screened completely from view and set back from a civic space for aesthetic reasons and to minimize odors or noise.

12. Historic Preservation.

For additions or rehabilitations to existing structures that are listed on the National, State or Local historic register, the following standards shall apply in addition to requirements of Chapter 17.37:

- a. Additions and Rehabilitation. Additions and rehabilitations should match the original materials, windows, doors, trim, and colors. If the addition is a wing, it should be subordinated to the original building in design, i.e. the roof should be lower and the mass and bulk of the new addition should be less. If the addition is an extension or lengthening of the original building, introduce a setback to preserve the corner of the original and hence the design arrangement and balance of the original facade should be provided.
- b. Cornices and Decorative Elements. Original members, brackets, molding, etc. should be preserved if at all possible. Replacement of missing parts should be exact copies of the original. Avoid mixing new and old original members on one facade unless the match is perfect. Aluminum and plastic awnings and door hoods are not allowed. Canvas awnings in appropriate colors are allowed.
- c. False Fronts and Applied Facades. Avoid fake modernization or concealment of the original façade. When an existing building has a well-developed facade and is the product of good workmanship, efforts should be made to retain as much of the original materials and detailing as possible or restore them to maintain the building's integrity.

C. Open Space and Civic Space:

The provision of attractive and functional civic spaces is as important as building design and centralized parking areas to the success of the downtown and Fruita's mixed use commercial centers. Therefore, the city requires that all new commercial developments and redevelopment projects in these districts contribute their proportionate share of civic space.

Civic spaces should serve as focal points and gathering places, giving the downtown a unique identity and sense of place. Pedestrian amenities may include, but are not limited to outdoor seating areas or cafes, pedestrian access ways, weather protection, plazas, benches, public art, and street furnishings such as bicycle racks and pedestrian lighting (e.g., bollards) at crossings.

Standards:

1. Civic Space Standard. At least three (3) percent of every development site shall be designated and improved as civic space (plaza, landscaped courtyard, or similar space), with the highest priority locations being those areas with the highest pedestrian activity (e.g., street corners and pedestrian access ways), as generally designated in the examples accompanying this subsection. Improvements shall conform to subsection C.4, below.

Exception for Minor Projects: Building additions and remodels are not required to provide civic space when proposed building material costs are estimated to be less than fifty (50) percent of the existing Assessor's actual value of improvements on the subject site. Assessor's actual value shall be the value of record at the Mesa County Assessor's Office.

Exception for In Lieu Fee: The city may find that the creation of civic space is not practicable based on the project location or other relevant factors. In such cases, the city may accept an in-lieu fee which shall be calculated in accordance with Chapter 17.19.

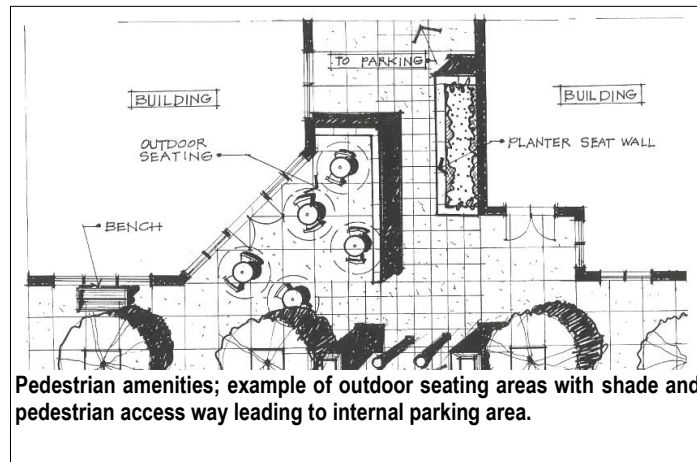

2. Dimensions. All civic spaces shall have dimensions of not less than eight (8) feet wide and deep and have a surface area of not less than forty-eight (48) square feet.
3. Public Access. Such areas shall abut a public right-of-way or otherwise be connected to and visible from a public right-of-way by a sidewalk or pedestrian access way; access ways shall be identifiable with a

change in paving materials (e.g., pavers inlaid in concrete or a change in pavement scoring patterns and/or texture). Where a right-of-way connection is not possible, the owner shall be required to provide a public access way easement to the civic space.

4. **Pedestrian Amenities Required.** Where civic space is required, it shall contain pedestrian amenities such as plaza space, extra-wide sidewalks (i.e., outdoor café space), benches, public art, pedestrian-scale lighting, shade structures, way finding signs, as approved by the city decision-making body, or similar pedestrian areas. Where a civic space adjoins a building entrance it should incorporate a weather protection canopy, awning, pergola, or similar feature.

Exception: Building additions and remodels that are exempt under subsection C.1 above, are not required to provide pedestrian amenities, though they are encouraged to do so. In such cases, the city may consider the voluntary provision of pedestrian amenities in approving adjustments to other applicable standards required under this Chapter.

D. **Access and Circulation:**

Access in the Downtown and Community Mixed Use zones is to be provided as follows:

Standards:

1. **Pedestrian Access.** Walkways linking the pedestrian system of the block to every building entrance and civic space on a proposed development site are required. Walkways shall be constructed of scored concrete or pavers and have a width of not less than four (4) feet; additional width may be required where necessary due to projected use of the walkway.

2. Vehicle Access and Driveways. New vehicle access onto Aspen Avenue is not allowed; when new vehicle access is required, it shall be taken from streets other than Aspen Avenue. Where an existing driveway or alley provides adequate access to a site, such access must be utilized before any new street access is created.

3. Drive-up and Drive-Through Uses. New drive-up/drive-through facilities (e.g., windows, ATMs, etc.) are not permitted in the Downtown Core within forty (40) feet of Aspen Avenue.

4. Off-Street Parking and Loading. Except as approved for parking structures (e.g., garages or under-ground parking), parking is to be provided primarily in on-street parking spaces and in shared parking areas internal to each block, either beside or behind buildings. Parking shall conform to the minimum parking standards of Chapter 17.39. (Note reduced parking standards within the Downtown Core.) Parking and vehicle circulation areas abutting a sidewalk, public right-of-way, or pedestrian access way shall provide a landscape screen of not less than four (4) feet in width and three (3) feet in height, or a decorative wall, landscape wall, or other buffer. Loading docks and trash storage areas in parking lots shall be located to the side or rear of buildings and screened from public view.
- Parking is to be placed beside or behind (not in front) of building. Parking must be buffered from adjacent streets and pedestrian ways.**

E. Landscaping.

1. Plant Material. Landscaping must consist of plant material covering not less than fifty (50) percent of the non-developed areas within three (3) years of planting. Use of desert landscaping or low water usage plant species as identified by the Colorado State University Tri-River Extension Service is required.

Exception: The required plant material coverage may be reduced to twenty (20) percent of all non-developed surfaces where a proposed building incorporates a green (landscaped) roof.

2. Parking Areas. Parking area(s) shall be landscaped, as required by Section 17.39.070.G. Landscaping must consist of desert landscaping or drought tolerant plant species as identified by the Colorado State University Tri-River Extension Service.

(Ord. 2009-02, Ord. 2013-06)

17.11.040 LEVEL TWO DESIGN STANDARDS. In addition to other applicable regulations, the following architectural and design standards apply to all development in the Tourist Commercial and General Commercial zones and all properties zoned DMU which are not subject to Level One Design Standards (Section 17.11.030).

A. Guiding Principles

1. Create distinct commercial centers.
2. Define the edges of commercial areas with attractive landscape buffers and transitions between commercial uses and the roadway and/or non-commercial areas.
3. Orient buildings to streets or, where buildings are to be setback from Highway 6 & 50 or Highway 340, require entrances to be oriented to pedestrian ways and require appropriate landscaping between parking lots and the highway.
4. Improve on-street parking opportunities where practical.
5. Use materials and colors that blend with the desert landscape.
6. Use desert landscaping or drought tolerant landscaping for context-appropriate design and to conserve water
7. Maintain views of Colorado National Monument, Book Cliffs, Big Salt Wash, and other natural features, where practicable.
8. Facilitate the development of a continuous pedestrian network and bicycle ways connecting with adjacent neighborhoods.
9. Reduce reliance on the highway for local vehicle trips (e.g., from one store to another store in the same vicinity).
10. Develop an interconnected system of driveways or alleys with shared access to minimize traffic conflicts.

B. Site Design

1. Primary building entrances shall be oriented to the public street right-of-way and/or public sidewalk and shall be connected to the public street right-of-way and/or public sidewalk by a concrete walkway not less than six (6) feet in width. Primary building entrances shall be within twenty (20) feet of the public street right-of-way and/or public sidewalk.

Where it is not practical to locate primary building entrances within twenty (20) feet of the public street right-of-way or public sidewalk, the concrete walkway connecting a primary building entrance to the public sidewalk or public street right-of-way shall be no less than ten (10) feet in width. This concrete walkway must have three-foot wide planter strips on each side and raised or textured paving at all driveway crossings.

Primary building entrances located more than forty (40) feet from the public street right-of-way or public sidewalk will require a pedestrian plaza outdoor seating area, courtyard, or other civic amenity provided between the building and the street.

2. Where a primary building entrance is located more than twenty (20) feet from a public street right-of-way and/or public sidewalk, or where parking and/or driving aisles are provided between the primary building entrance and public street right-of-way and/or public sidewalk, a fifteen (15) foot wide minimum landscape screen shall separate all off-street parking areas from adjacent public street right-of-ways or public sidewalks.
3. Buildings shall meet transparency and weather protection standards (Subsection C, Building Design below) along all street-facing elevations and any elevations containing a primary building entrance. A landscape screen at least five (5) feet wide shall cover any blank building walls (i.e., lacking windows and weather protection) and contain materials of sufficient size/species to screen the blank wall.

C. Building Design

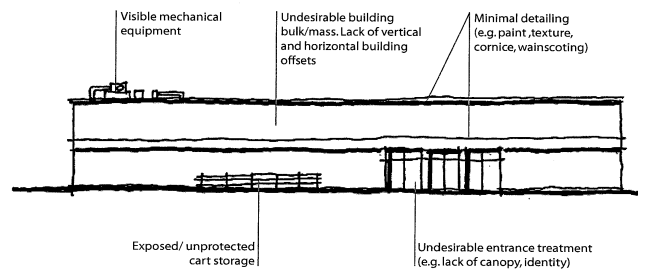

1. Intent:

The building design standards are intended to implement following contextual values:

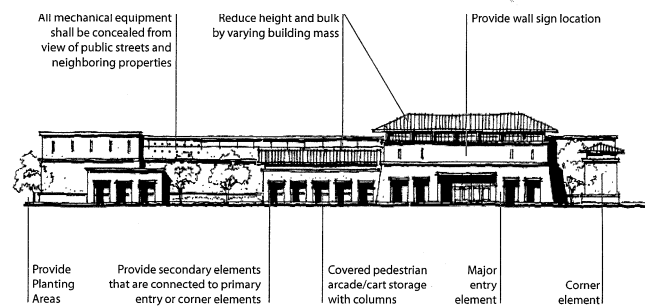

- a. Building orientation to streets to create a sense of enclosure and human scale
- b. Articulated building facades to break up large volumes and promote human scale
- c. Materials, textures and colors appropriate to the desert landscape
- d. Storefront character (windows, pedestrian shelter, furnishings, etc.) where applicable

2. Standards:

a. Overall Design. Architectural designs shall address all four sides of a building with materials, detailing, and color. Architectural elements should wrap around building corners. Where a proposed design is based on the applicant’s corporate style guide, as in formula retail stores, restaurants, discount outlets, or similar proposals where a similar building design has been used previously, the applicant must demonstrate that the design has been adapted to fit Fruita’s unique location/historical context (Colorado National Monument/Grand Valley) and desert environment.

Large Commercial Massing - Unacceptable

Large Examples of acceptable and unacceptable design (roofline, mass, entrances, windows, articulation, landscaping, etc.)

- b. Stepped Rooflines. Height should vary from building to building to avoid a homogenous appearance. This standard is met by using stepped parapets, gables, or slightly dissimilar height from building-to-building.
- c. Window Transparency. Building elevations that face a street, parking area, civic space, or open space shall comprise at least forty (40) percent transparent windows, measured as a section extending the width of the street-facing elevation between the building base (or thirty (30) inches above the sidewalk grade, whichever is less) and a plane eighty (80) inches above the sidewalk grade. Upper floors may have less window area but should follow the vertical lines of the lower level piers and the horizontal definition of spandrels and any cornices.

Where the Community Development Director determines, based on physical site constraints or the functional requirements of a non-residential building, that providing window transparency is not practical or does not further meet the intent of these standards as stated in Section 17.11.040 (C) above, other alternative means of breaking up large elevations (e.g., columns, belt course, and upper story panels/transom, with landscaping) shall be employed. See example below.

Example of exception to window and entrance standards due to site constraints (e.g., grade change)

- d. Primary Entrances. Buildings shall have clearly defined primary entrances that provide a weather-protection shelter for a depth of not less than five (5) feet (e.g., either by recess, overhang, canopy, portico and/or awning) extending from the building entry.
- e. Building Mass. Building elevations shall incorporate offsets or divisions to reduce the apparent building scale and to improve aesthetics. Elevations of a structure shall be divided into smaller areas or planes to minimize the appearance of bulk as viewed from any street, civic space or adjacent property. When an elevation of a primary structure is more than eight hundred (800) square feet in area, the elevation must be divided into distinct planes of not more than eight hundred (800) square feet. For the purpose of this standard, areas of wall planes that are entirely separated from other wall planes are those that result in a change in plane such as a recessed or projecting section of the structure that projects or recedes at least one (1) foot from the adjacent plane, for a length of at least six (6) feet. Changes in plane may include but are not

limited to recessed entries, bays, stepped parapets, secondary roof forms (e.g., gables, lower roof sheds, dormers and towers), building bases, canopies, awnings, projections, recesses, alcoves, pergolas, porticos, roof overhangs, columns, or other features that are consistent with the overall composition of the building. The distinction between street level and upper floors shall be established, for example, through the use of awnings, canopies, belt course, or similar detailing, materials and/or fenestration.

- f. Materials and Colors. Exterior materials shall consist of brick, stone, adobe, wood shingle or imitation wood shingle walls, slump block, adobe brick or suitable split block or brick. Wood timbers and metal (brushed steel, iron, copper, or similar architectural-grade metals) may be used on canopies, arbors, trellises, pergolas, porticos, brackets, fasteners, lighting, signage, and other detailing, as appropriate, to provide visual interest and contrast. In general, color selection should complement, not compete with, the surrounding desert landscape. Warm earth tone colors (e.g., sandstone reds, desert greens and browns) are generally preferred over cool colors, such as blue and white/off-white. Substitute materials that are equal in appearance and durability may be approved.
- g. ATMs and Service Windows. Where walkup ATMs or service windows are proposed on any street-facing elevation, they shall be visible from the street for security and have a canopy, awning, or other weather protection shelter. Where drive-up windows or similar facilities are provided the drive-up window and associated vehicle queuing area shall be setback at least twenty (20) feet from all adjacent rights-of-way. The applicant may be required to install textured pavement (e.g., pavers or stamped concrete) for pedestrian crossings of any drive aisle.

17.11.050 ATTACHED SINGLE FAMILY RESIDENTIAL, MULTI-FAMILY RESIDENTIAL AND SINGLE-FAMILY RESIDENTIAL LOTS MEASURING LESS THAN 7,000 SQUARE FEET IN SIZE AND LOTS LESS THAN 60 FEET IN WIDTH.

In addition to other applicable regulations, the following architectural and site design standards are applicable to new lots with attached single family residential dwelling units, multi-family residential dwelling units, detached single family residential lots measuring less than seven thousand (7,000) square feet in size, and single family residential lots measuring less than sixty (60) feet in width and only those parts of new subdivisions containing these types of residential units/lots.

A. Guiding Principles

New buildings and exterior remodels should honor traditional neighborhood development principles, consistent with the desired character and form of Fruita, as expressed by the Community Plan. While many communities attempt to “create” traditional neighborhoods, Fruita already has traditional neighborhoods. The original town plat contains a variety of housing types in both historic and contemporary structures, many with front porches. Fruita’s historic neighborhoods contain both small

and large lots, some with alley access and street tree planter strips, and most within walking distance of centrally located open spaces, schools, churches and other community services. However, some areas outside the historic town plat have developed in a manner that is inconsistent with the above traditional neighborhood design principles. The design standards in this section are intended to guide compatible infill development and promote the creation of new, traditional neighborhoods where new subdivisions are proposed. It is not the intent of the City of Fruita Code to create an architectural theme or to freeze time, but rather to ensure that new buildings and remodels fit within the context of their historic surroundings, as applicable, and support the development of new compact, walkable neighborhoods with a variety of housing. The key elements of this Section are summarized as follows:

1. New development and redevelopment should support walkable and attractive neighborhoods with a variety of housing types that are designed to be compatible with adjacent uses.
2. Architecture should provide for compatibility with historic structures where applicable.
3. Provide for street connectivity and pedestrian access and safety both within new developments and between new and existing subdivisions.
4. Integrate open space and parks into the design of new neighborhoods and subdivisions.

B. Applicability

In addition to other applicable regulations, the following site design standards are applicable only to multi-family residential dwelling units and new lots in new subdivisions that include attached single-family residential dwelling units, single-family detached residential lots measuring less than 7,000 square feet in size, residential lots measuring less than sixty (60) feet in width, and only those parts of new subdivisions containing these types of residential dwelling units.

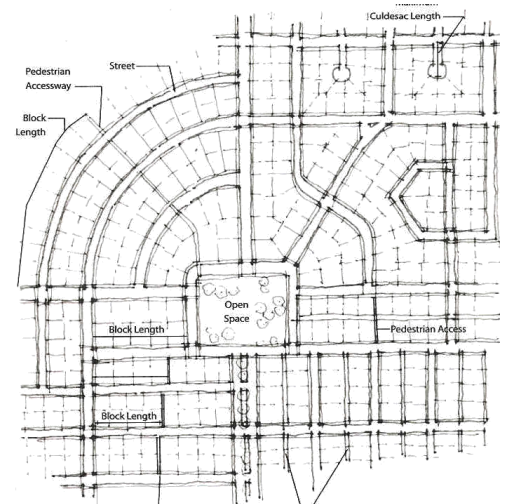

C. Neighborhood Structure and Street Network

1. Purpose

Promote neighborhood circulation with convenient connections via streets and pedestrian and bicycle ways to parks, schools, churches, neighborhood commercial uses (where applicable) and other neighborhood-oriented services and amenities.

2. Guidelines and Standards

- a. Streets, bicycle ways and walkways or trails, as applicable, shall, to the maximum extent practical, create a unifying circulation network that provides convenient routes to destinations without needlessly forcing trips onto the surrounding collector or arterial streets.

Neighborhood Structure and Street Network

- b. Street and alley networks, as applicable, shall, to the maximum extent practical, be configured to minimize cut-through traffic on local residential streets without relying upon the use of cul-de-sacs; where cut-through traffic is unavoidable, street design shall incorporate neighborhood traffic calming features, such as curb extensions (reduced width at intersections), roundabouts at major intersections, traffic circles, or other features, consistent with the City of Fruita Street System Design Criteria and the City of Fruita Traffic Calming, Pedestrian and Bicycle Plan.

Traffic calming and connectivity

Cul-de-sacs, where allowed, are limited to a maximum length of four hundred (400) feet. A pedestrian access way or trail will be required to connect the end of any cul-de-sac to an adjacent street or trail right-of-way to minimize out-of-direction travel by pedestrians and bicyclists. The city decision-making body may also require the use of pervious paving (e.g., pavers) or stamped concrete on cul-de-sacs to minimize stormwater runoff (impervious surfaces) or to identify cul-de-sacs as community spaces where children play (e.g., basketball hoops, street hockey, etc.).

Pedestrian ways with vehicle loading off alleys for small lots, traffic calming, street alignment to take advantage of vistas.

- c. Streets, pedestrian ways and trails should focus on important vistas; for example, by aligning street axis to provide for views of community buildings, mountains, trees or open spaces.
- d. Block lengths shall provide for at least one street connection for every three to six hundred (300 to 600) feet maximum in block length, except where topographic or access restrictions (e.g., arterial intersection spacing) preclude such connections. Where street connections are not feasible, pedestrian and bicycle pathway/trail connections shall be used to make walking and bicycling within and between developments convenient.

D. Parks and Open Space

1. Purpose

Promote the creative design and use of a wide variety of parks and open spaces.

2. Guidelines and Standards

- a. Parks and open spaces should be used to form neighborhood edges and transitions where higher density development is proposed adjacent to lower density development, and where development abuts watercourses, washes, and other natural features.

- b. Parks and open spaces should be collocated with existing or planned school sites, as applicable.
- c. Where a new park of two (2) acres or more in size is proposed, it should be located, configured and designed to maximize pedestrian access from the greatest number of residents in the adjacent neighborhood(s).
- d. Where mixed-use projects are planned with residential and commercial uses proposed, the city decision-making body may require open space areas or parks that serve as central gathering places for residents and employees.
- e. Where a proposed subdivision is adjacent to an existing park, open space or natural area (e.g., wash), the city decision-making body may require the applicant to connect to and/or augment the existing park, open space or natural area with required land dedication, trails, and/or other related improvements, consistent with the provisions of Chapter 17.19 and Chapter 17.29.

E. Unique Fruita Characteristics

1. Purpose

Promote development that is compatible with the natural features of Fruita landscape and promotes Fruita's traditional neighborhood development patterns, consistent with the Guiding Principles in subsection 17.11.050A.

Development concept addressing topography, views, solar access, wash setbacks, neighborhood buffering, and trail connections.

2. Guidelines and Standards

- a. Streets, blocks, open space areas and trails should be oriented and designed in response to Fruita's location in the Grand Valley. View corridors to the mountains, washes, open space areas, and canals shall be incorporated into project designs, and lot orientation should allow solar access to individual home sites, to the greatest extent practical.
- b. Developments adjacent to the Little Salt Wash or Big Salt Wash, and those in the foothills of the Colorado National Monument, McInnis Canyon National Conservation Area or near the Colorado

Historic Fruita

River, shall be designed to respond to the topographic and natural resource values of those areas by limiting grading, incorporating required setbacks and buffering, providing trail connections, and clustering development densities in less environmentally sensitive areas. Development in areas prone to flooding is subject applicable building codes and may be prohibited where an applicant has requested a density bonus under Chapter 17.08 or planned unit development approval under Chapter 17.17 (i.e., development density shall be transferred from the floodplain to more suitable upland areas).

- c. Development shall conform to the natural topography of the site by minimizing cuts and fills. Except as necessary for underground utilities, individual cuts and fills (i.e., for streets and foundations) are limited to no more than eight (8) feet each and no retaining wall shall exceed a height of eight (8) feet without a variance. Terracing may be allowed by the city decision-making body, as necessary, due to existing topography.
- d. Developments subject to the requirements of this Section and proposed within one hundred (100) feet of a designated historic landmark are required to demonstrate compatibility with the adjacent landmark in terms of building height, setbacks, building form, architectural detailing, materials, and site design (parking, circulation and landscaping). The city decision-making body shall approve, approve with conditions, or deny a proposed development under this subsection based on its finding of compatibility as described above and also as described in Section 17.07.080, Land Use Compatibility Criteria.

F. Alleys and Shared Driveways

1. Purpose

Enhance the safety, appearance, and overall quality of Fruita's neighborhood streets by providing options and incentives for alleys and/or shared driveways serving small lot developments and multifamily projects where garages and other parking areas are setback and oriented away from neighborhood streets. Alleys or shared driveways are encouraged in new subdivisions and in redevelopment projects where the subject block has, or historically had, an alley. The following provisions are intended to reduce or eliminate traffic conflicts and aesthetic problems associated with frequent garage openings and driveway approaches abutting neighborhood streets. Alleys and shared driveways also allow homes to front onto parks and open space areas without a road separating the homes from such features. Alleys can also provide additional off-street parking where needed. Finally, alleys can provide effective land use and density transitions in the middle of a block instead of along street frontages, where it

Alley with rear backing distance, center "V" drainage and landscaping.

is more desirable to have similar building types face one another.

2. Guidelines and Standards

- a. Alleys or shared driveways may be allowed where developments face major streets to which individual driveway access is not allowed but houses are oriented to the street (e.g., with deep front yard setbacks) is desired.
- b. /The city decision-making body may require alleys or shared driveways to be incorporated into a subdivision design where lot sizes are less than seven thousand (7,000) square feet.
- c. Alleys and shared driveways should align so that drivers entering an alley or shared driveway can see any on-coming vehicles.
- d. Dead-end alleys and shared driveways shall be less than one hundred fifty (150) feet long, except as allowed with an approved emergency vehicle turnaround.
- e. Where an alley or shared driveway also serves as a required emergency apparatus (fire) lane, it shall conform to the applicable design criteria and standards for such lanes.

Shared driveways (upper right) abutting arterial

(Ord. 2009-02)

17.11.060 MIXED-USE DEVELOPMENTS IN THE COMMUNITY MIXED USE ZONE

1. Purpose

The following provisions are intended to supplement the commercial design standards in Chapter 17.11.030 and encourage the development of successful mixed use centers integrating a variety of housing and neighborhood-oriented commercial uses and services that are compatible with surrounding residential uses and are supported by a well-planned network of streets, blocks, pedestrian and bicycle ways, and parks and open spaces. For the purpose of Section 17.11.050, “commercial use,” “commercial development,” and “commercial center” refer to the commercial portions or phases of developments in the Community Mixed Use (CMU) zone.

2. Guidelines and Standards

- a. Commercial mixed-use developments may be permitted in the Community Mixed Use (CMU) zone, subject to the applicable provisions of Sections 17.07.050 and 17.07.060 (Land Use), and the commercial designs standards in Section 17.11.030.
- b. Commercial uses shall be located to maximize pedestrian access by the greatest number of surrounding residents.

- c. Commercial centers shall be located adjacent to arterial or major collector streets. Secondary access should be provided to adjacent neighborhoods with traffic calming measures used to discourage neighborhood cut-through traffic.
- d. Commercial uses shall be located adjacent to existing or planned residential areas containing a variety of housing types at densities of five (5) or more units per gross acre, and not adjacent to low density residential subdivisions. This guideline is intended to promote land use compatibility and transportation efficiency.
- e. Commercial mixed-use developments shall conform to the overall size restrictions and spacing criteria one-half (½) mile from another commercial center, in a CMU zone. For the purposes of this subsection, one-half (½) mile is measured as the distance from the geographic center of the parcel(s) on which commercial uses exist or are proposed, as applicable.
- f. Street and block patterns, and pedestrian and bicycle connections, shall extend through neighborhood “commercial centers,” as defined under Section 17.07.070.J, so that the center maintains a coherent, continuous, visually related and functionally linked pattern for commercial centers contained in Section 17.07.070. Commercial mixed use framework

 3. There has been no significant increase in impact fees required to be paid for the proposed subdivision.
- B. In the event an approved Final Plat is not recorded by the deadline set out herein, and no extension has been granted, the approval shall be revoked pursuant to Section 17.01.100 of this Title. In accordance with Chapter 47 of this Title, in the event development within the subdivision has not commenced within three (3) years of the recording date of the final plat, the City Council may, following a public hearing, vacate its approval of the subdivision within shall then be deemed null and void. For purposes of this section, "commence development" shall mean either the commencement of construction of the public and other required improvements within the subdivision, or the sale of an individual lot or unit within the development, or issuance of the first building permit for construction with the subdivision, whichever first occurs.

(Ord. 2009-02)

17.15.140 PUBLIC AND OTHER SUBDIVISION IMPROVEMENTS - GENERAL REQUIREMENTS. The following public and other necessary subdivision improvements shall be constructed at the sole expense of the subdivider as set forth in the subdivision or development approval which are in accordance with the City of Fruita Design Criteria and Construction Specifications Manual, this Title, and sound construction and local practices. Standards and specifications published by the Colorado Department of Transportation shall apply to all State Highways. Where specific requirements are set out in other sections of this Title, the most restrictive shall apply:

- A. Street grading and surfacing and all related improvements of all internal streets within the subdivision.
- B. Adjacent streets and related improvements. All adjacent streets and related improvements providing primary or secondary access to the proposed subdivision shall be capable of adequately handling the vehicular traffic generated by the subdivision, at full occupancy, as determined by the city based on generally accepted traffic engineering standards and any applicable city standards. In applying this standard, the minimum acceptable level of service for all streets within the City of Fruita is Level of Service "C", as defined by the Institute of Transportation Engineers (ITE) Trip Generation Manual, latest edition. (See also the Transportation Impact Fee Study prepared by Mesa County, Colorado by Duncan Associates, September, 2002.) Consistent with Chapter 17.19, the city may require a site specific traffic impact study

performed by a registered professional engineer, at the sole cost of the subdivider, when the proposed subdivision is expected to generate at least five hundred (500) daily trip ends or fifty (50) peak hour trip ends in order to determine the traffic impacts generated by the proposed subdivision and the related street improvements needed to accommodate such additional traffic.

In the event the City Council determines that improvements to adjacent streets are necessary as a result of the traffic impacts generated by the proposed subdivision, construction of such off-site improvements shall be the responsibility of the developer. The City Council may, as a condition of approval of the subdivision: (1) require the subdivider to construct all such improvements including the full width of any expanded roadway surface; (2) require the subdivider to pay to the city the cost of constructing such improvements in which case the city shall be responsible for constructing the applicable improvements; (3) may require the subdivider to participate in a street improvement district which shall be responsible for constructing such improvements; (4) require payment of a transportation impact fee consistent with Section 17.19.130 of this Title; or (5) any combination of the above.

Provided, however, in the event the City Council determines that adjacent streets providing access to the proposed subdivision are presently inadequate to handle existing levels of traffic without the proposed subdivision, the city, or a street improvement district created by the city, shall be responsible for the costs of the improvements necessary to adequately service the subject property without the proposed subdivision. The subdivider shall be responsible for all remaining costs necessitated by development of the subdivision. In the event the City Council determines that the improvements to be constructed and/or paid for by the subdivider will also benefit other properties in the area if further developed or subdivided, and if requested by the subdivider and approved by City Council, the city shall enter into recapture agreements pursuant to Section 17.15.180 with the subdivider requiring the owner or developer of such other properties, as a condition of subdivision or development, to reimburse the subdivider for a portion of the costs incurred by the subdivider for the street improvements constructed pursuant to this subsection. Such contribution or recapture amount shall be calculated by the city and shall be roughly proportional to the traffic impacts generated by such other developments or subdivisions.

- C. Curbs, gutters and sidewalks, bicycle and pedestrian paths and trails.
- D. Wastewater laterals, and mains.
- E. Storm drainage system, as required.
- F. Water distribution system.
- G. Fire hydrants.
- H. Required street signs and other traffic control devices.

- I. Permanent reference monuments and monument boxes.
- J. Street lights.
- K. Irrigation System. If the proposed subdivision is located in an area that can be reasonably serviced by an existing irrigation ditch or canal system, the subdivider shall install a fully functional, non-potable irrigation system capable of servicing the subdivision and shall convey adequate irrigation water rights to the homeowners association.
- L. Natural gas lines and related facilities necessary to service the subdivision.
- M. Cable television lines and related facilities necessary to service the subdivision.
- N. Telephone and other telecommunication lines and related facilities necessary to service the subdivision.
- O. Electrical distribution lines and related facilities. All newly constructed electrical distribution lines shall be placed underground to serve new residential subdivision areas. Exceptions to the undergrounding requirements for Minor Subdivisions may be allowed pursuant to the following conditions:
 - 1. Upon the request of the developer of a Minor Subdivision, the Community Development Director may permit said lines be constructed overhead provided that the Minor Subdivision is in compliance with all other provisions of this Title and the following conditions are met:
 - a. The electrical distribution lines proposed to be placed overhead shall not exceed a maximum distance of one (1) block or seven hundred fifty (750) feet, whichever is less;
 - b. It will not result in any endangerment of the public health or safety;
 - c. It will not substantially injure the value of adjoining or abutting property;
 - d. It will be in harmony with the area in which it is located; and
 - e. It will be in general conformity with applicable city policies and regulations.
- P. Erosion control and storm water management facilities, both temporary and permanent, including obtaining state required permits.
- Q. Relocation and/or replacement of existing facilities of the types listed above, as required for the installation of other specified improvements.

- R. Public or private park, trail, public site, open space and recreation facilities.
- S. Other facilities as may be specified in this Title or required by the City Council.

(Ord. 2009-02)

17.15.150 RELATED COSTS - PUBLIC AND OTHER REQUIRED SUBDIVISION IMPROVEMENTS. A subdivider shall provide, at its sole cost, all necessary engineering designs, surveys, field surveys, as-built drawings and incidental services, including the cost of updating city mapping related to the construction of the public and other required subdivision improvements. (Ord. 2009-02)

17.15.160 PUBLIC IMPROVEMENTS TO BE THE PROPERTY OF THE CITY. Upon completion of construction of the public improvements in conformity with city standards and the plans, and any properly approved changes, a subdivider shall convey to the city, by bill of sale, all physical facilities necessary for the extension, maintenance and repair of municipal services. Acceptance of said conveyance shall be made by the city only by a majority vote of the City Council. Approval of a subdivision shall not constitute acceptance by the city for maintenance of wastewater system facilities, parks, streets, alleyways or other public improvements required under a subdivision improvements agreement. The acceptance of such facilities for maintenance shall be by specific action of the City Council upon completion in accordance with the subdivision improvements agreement and/or adopted standards. (Ord. 2009-02)

17.15.170 GUARANTEE OF IMPROVEMENTS. In order to secure the construction and installation of the public and other required subdivision improvements, the subdivider shall choose one of the following options prior to the recording of the subdivision Final Plat:

- A. Subdivision Improvements Agreement. Furnish the city with a performance guarantee satisfactory to the city, as set forth in a subdivision improvements agreement along with other required documents before recording the final plat. (See also, Chapter 17.21.)
- B. Final Plat Hold. Complete all required improvements according to the subdivision approval and approved for construction drawings the same as would be required for a recorded Final Plat with a subdivision improvements agreement, pursuant to Chapter 21 of this Title. A subdivision improvements agreement is required for any improvement involving existing public right-of-way or other existing public property. Before the Final Plat is recorded, an up-to-date title search is required to ensure that there are no additional liens on the property. Failure to provide clear title to land/improvements may result in vacation of the approved Final Plat. All required improvements must be inspected by staff, and accepted by the City Council before the Final Plat is recorded. Additionally, a warranty is required for the improvements before the Final Plat is recorded. The warranty shall be the same as that required in subdivision improvements agreements in Chapter 21 of this Title.

1. If the developer selects a Final Plat Hold as the form of financial guarantee, developer shall furnish the City with a surety bond, irrevocable standby letter of credit or cash escrow in the amount of two thousand five hundred dollars (\$2,500.00) per acre to secure necessary and appropriate grading and revegetation in the event of a default by the developer under the Subdivision Improvements Agreement prior to the recording of the final plat. If a default to the Subdivision Improvements Agreement has been determined by the Community Development Director, the City of Fruita has the authority to access such funds for grading and revegetation purposes.

(Ord. 2009-02, Ord. 2018-24)

17.15.180 SUBDIVISION IMPROVEMENTS REQUIRED PRIOR TO ISSUANCE OF PLANNING CLEARANCES. All required improvements shall be installed, inspected and approved by city staff prior to issuance of a planning clearance for a building permit for the construction of any buildings within a subdivision with the exception of trails, bikeways and landscaping of common open spaces, parks and recreation areas whether dedicated to the city or to a homeowners association. Up to twenty percent (20%) of the Planning Clearances in a subdivision may be released when all improvements are completed excluding trails, bikeways, fencing and landscaping of common open spaces, parks and recreation areas. Once all improvements are completed, approved and accepted by the city, all other Planning Clearances can be released. Once a Planning Clearance is released, a Certificates of Occupancy for the building can be issued if all other requirements have been met.

The city may approve an exception to this provision for a model house to be constructed, provided that the house shall not be occupied as a residence until Planning Clearances have been released for the subdivision and a Certificate of Occupancy has been issued.

Improvements required to be completed before release of a Planning Clearance may include but are not limited to the following:

1. Permanent survey monuments referenced to the North American Vertical Datum of 1988 (NAVD) 88 per the Mesa County Survey Monument (MCSM) standards;
2. Wastewater lines and laterals to each lot;

(Ord. 2009-02)

17.15.190 RECAPTURE AGREEMENTS. As one of the conditions of approval of a subdivision, the city may determine that certain off-site improvements that are of general benefit to the city are required. In this event, the city, by affirmative action of the City Council, may enter into a recapture agreement with a subdivider under which proportionate engineering, surveying and construction costs of off-site water, wastewater, storm drainage and/or street improvements are repaid to the subdivider by other owners or developers who benefit from such improvements over an established period of time. The proportionate share of the cost of the improvements to be repaid by others shall be calculated in accordance with formulas approved by the city. It is the subdivider's sole responsibility to request a recapture agreement and said request shall be made prior to final City Council action on the development application. The City Council retains sole authority to approve or deny all recapture

Concept Plans like Sketch Plans are optional. The Preliminary Plan application shall be reviewed as the Preliminary Planned Unit Development Plan. Approval criteria for Planned Unit Developments must be considered in addition to the approval criteria required to be considered for subdivisions, pursuant to Chapter 17.15.
- B. Site Design Review. In the event a proposed Planned Unit Development does not require a subdivision, Planned Unit Development will follow the Site Design Review application procedures of Chapter 17.13, except the Site Design Review for the Planned Unit Development shall be reviewed through the public hearing process in accordance with Section 17.05.070. Approval criteria for Planned Unit Developments must be considered in addition to the approval criteria required to be considered for Site Design Review, pursuant to Chapter 17.13.

(Ord. 2009-02)

17.17.030 CRITERIA FOR REVIEW AND DECISIONS. Recommendations of the Planning Commission to the City Council and decisions by the City Council concerning a proposed Planned Unit Development shall be based upon the following criteria. In no case shall the approval of a Planned Unit Development vary the health and safety requirements contained in Title 8, requirements concerning public peace, morals and welfare contained in Title 9, requirements concerning public improvements contained in Title 12, requirements concerning water and wastewater service contained in Title 13, or the requirements of the city's building codes as set forth in Title 15 of the Municipal Code.

The City Council declares it is the policy of the city that dedications of real property and/or exactions in the form of monetary payments shall be required in those instances where the City Council determines that a proposed project, development or improvement: (1) will create the need for new facilities or services, or (2) will result in increased use of existing services or facilities in such a manner as to require the expansion or eventual replacement thereof. In those instances, this Chapter shall be applied to provide a method whereby such dedication or impact fee shall be quantified to assure that a fair and equitable proportionality is established between the cost of the improvements or facilities which are attributable to the proposed development or improvement (and which are therefore the responsibility of the owner/developer), and the overall public cost of the provision of such improvements or facilities. In interpreting and implementing the provisions of this Chapter, the City Council shall give due weight to the needs of the general public, and especially the development or improvement proposed, so as not to burden disproportionately the general public and existing residents with costs or expenses to provide services or facilities, the need for which are generated by the proposed development or improvement. (Ord. 2019-21, S1)

17.19.020 AUTHORITY TO IMPOSE DEDICATION OR IMPACT FEE REQUIREMENTS.

- A. Pursuant to Article XX, Section 6 of the Constitution of the State of Colorado, § 29-20-104.5, C.R.S and provisions of other applicable law, authority is specifically

given to the City Council, as a part of its legislative function, to establish general schedules or formulas for monetary impact fees for those classes of development that are subject to real property dedications, public improvement requirements, and/or impact fees.

- B. Moneys collected pursuant to this Chapter shall be utilized to pay for growth-related improvements, facilities and equipment in the general functional area of municipal facilities, recreation, transportation, stormwater management and general government or administration. Operation, maintenance or replacement costs are specifically excluded from eligibility for these funds.
- C. The City Council, in its discretion, shall accept or reject any proposed dedication of land to the city prior to final approval of a proposed development. Dedication of land to the city is required to be in fee title.

(Ord. 2019-21, S1)

17.19.025 PAYMENT OF IMPACT FEES

- A. Notwithstanding any provision contained in this Chapter to the contrary, any vacant building lot within the city created prior to January 1, 1980, shall be subject to the impact fees/land dedications set forth in this Chapter. Fees for such lots shall be calculated based on the impact fees in effect and payable at the time of Planning Clearance approval.
- B. Impact fees assessed for developments approved after the effective date of this Chapter shall be calculated based on the impact fees in effect and payable at the time of Final Plat approval.
- C. Impact fees for multi-family dwellings and non-residential subdivisions may be paid at the time of Planning Clearance approval.
- D. Required land dedications cannot be deferred until the time of Planning Clearance approval and must be provided with the plat.

(Ord. 2019-21, S1)

17.19.030 CRITERIA FOR REQUIRING DEDICATIONS OR PAYMENT OF IMPACT FEES.

Dedications or payment of an impact fee is required of an owner/developer based on the following:

- A. That a legitimate, identifiable public purpose is served by the required dedication or payment of a fee;
- B. That the City of Fruita is acting within its power to provide the facilities or services for which the fee or dedication is required, either directly or through such

dedication/impact fee process, for the benefit of the residents of the community;

- C. That, but for the proposed development or improvement or the proposed development or improvement in conjunction with other developments, actual or proposed, the city would not currently be considering providing or expanding either the services or facilities in question (i.e. existing facilities and services are adequate to service the existing population);
- D. That the proposed development or improvement, and the projected use of facilities and services generated by such development or improvement, is a contributing cause to the need for new or expanded facilities or services;
- E. That the City of Fruita would be legally justified in declining to approve the proposed development or improvement unless the dedication or impact fee was imposed because of the negative effect of the proposed development or improvement, on either existing private property or the city's or another local government's facilities or services;
- F. That the City of Fruita, acting within its lawful authority, requires all owners or developers similarly situated to provide similar, in both quantity and quality, or roughly similar dedications, or to pay the same or roughly the same fees;
- G. That the dedication or impact fee will serve the proposed development or improvement directly, provided, however, the fact that certain services or facilities of a general nature which provide a general benefit to all residents of the community including residents of the proposed development shall not constitute a valid ground for failing to impose a dedication or fee requirement; and
- H. That the dedication or impact fee is required to and does address needs for capital facilities brought about by the proposed development or improvement which needs are not addressed by any other requirement of this Title.

(Ord. 2019-21, S1)

17.19.040 ALTERNATIVE METHODS FOR DETERMINING THE EXTENT OF DEDICATION OR IMPACT FEE REQUIREMENTS. Upon a determination by the City Council pursuant to the provisions of this Chapter that payment of an impact fee or a dedication of land may lawfully be required, the extent of such fee or dedication shall be determined using whichever of the following methods is selected by the owner/developer.

- A. The city has adopted local or nationally recognized general standards or formulas relating to dedications and impact fees, as contained in this Chapter, and is authorized to adjust or modify these general standards and formulas from time to time by action of the City Council. Such standards or formulas shall be applicable to all owners/developers unless the owner/developer requests the city to implement the provisions of subsection C of this Section. If an owner/developer voluntarily accepts the general standards or

formulas of the city by proceeding to a hearing before the Planning Commission and/or City Council, the owner/developer shall be deemed to have waived any rights under subsection C and shall be conclusively presumed to have accepted the general standards or formulas contained in this Chapter.

- B. In the event no general standard or formula has been adopted relating to a certain type of dedication or impact fee, the owner/developer may voluntarily agree to comply with the dedication or fee recommended by the city staff, or request a review and determination by City Council in a public hearing. Unless the owner/developer affirmatively requests the city to implement the provisions of subsection C of this Section, at the pre-application conference prior to submittal of a subdivision Sketch Plan application, PUD Concept Plan application, or similar application, he shall be deemed to have waived any rights under subsection C and shall be conclusively presumed to have accepted the dedication or fee requirement recommended by city staff.
- C. Individualized Study.
1. An owner/developer may request that an individualized study or report be made by the city relating solely to its proposed development or improvement in order to determine whether or not dedications or improvements shall be required, and, if so, to determine the extent thereof. Such study or report shall be individualized to the owner/developer's property or proposed development or improvements, shall fairly and accurately delineate the need for additional public services or facilities which will be generated by the owner/developer's proposed development or improvement, and shall include consideration of the following criteria:
 - a. Whether the proposed public improvements or facilities would be required but for the owner/developer's proposed development or improvement;
 - b. Whether, and to what extent, it is reasonably likely that other developments or residents thereof will utilize the public facility or improvement in question;
 - c. Whether existing public facilities or services can adequately serve the proposed development or improvement without the additional expense to construct, expand, or improve the public facility or service in question; and
 - d. The conclusions of such study or report shall contain a recommendation as to the nature of the dedications(s) or impact fee(s) to be required, and the extent or amount thereof. In determining any such extent or amount of a dedication or impact fee to be required of an owner/developer, a proportion shall be established between the total cost of providing or expanding such necessary public facilities or services on the one hand, and the amount or extent of such total cost which is attributable to, or is

caused or generated by, the proposed development or improvement, on the other hand. The extent of the dedication or amount of the fee due from the owner/developer must bear roughly the same proportion to the total cost of providing the public services or facilities in question as the need for such facilities or services generated by the owner/developer's development or improvement bears to the general population's need for or use of the facilities or services.

2. The owner/developer shall request such an individualized study or report at the pre-application conference prior to the submittal of a subdivision Sketch Plan application, Planned Unit Development Concept Plan application, or similar application and shall pay to the city a fee established by the City Council to secure a portion of the city's review and supervision expenses. In addition, at such time the owner/developer shall submit to the city a deposit in an amount established by the city equal to the estimated costs the city will incur for any necessary engineering, consultant and planning services to be performed by persons not employed on a full time basis by the city or by city staff. The required fee and deposit shall be tendered to the City Clerk and no public hearing on the owner/developer's application shall be held unless the fee and deposit is paid in full. Unless a request for an individualized study or report is made at the time provided herein, such right shall be deemed to be waived by the owner/developer.
 3. Prior to the approval of any requested rezoning, conditional use permit, subdivision, Planned Unit Development, other development or Planning Clearance, if applicable, the owner/developer shall pay to the city the actual cost to the city for any engineering, consultant, or planning services provided under the direction of the city necessary to conduct the individualized study or report.
 4. The owner/developer may agree with the provisions of such study or report, in which case the same shall be submitted to the Planning Commission and the City Council as a joint finding and recommendation. However, if the owner/developer disagrees with all or any part of the city's report, the owner/developer may, at his sole expense, submit a written report detailing the owner/developer's findings with regard to the criteria set forth in this Chapter, and shall submit the same to the Planning Commission and the City Council. The Planning Commission and the City Council shall consider such reports at all required public hearings, and the City Council shall ultimately determine what dedications or impact fees, if any, are required, and if so, the extent or amount of such dedications or fees. The decision of the City Council shall be final, subject to the owner/developer's right to appeal to the Mesa County District Court.
- D. Any owner/developer may prepare or cause to be prepared, at his sole cost and expense, a study or report described in subsection (C) above. Said report shall be in writing and, upon the submission of such study or report, the owner/developer shall pay a fee established by the City Council to compensate the city for the review time and costs of the city's staff in reviewing said study or report. In the event the city needs to obtain

engineering, consultant or planning services by a person who is not a regular full time employee of the city to conduct such review, the owner/developer shall pay the costs for such services in the manner set forth in subsection (C). The city's staff shall review such study or report and shall comment thereon in writing to the Planning Commission and the City Council. Any disagreement by the city's staff with any of the findings or conclusions of such study or report shall be delivered to the owner/developer of the development or improvement in question. In the event of disagreement between the city's staff and the owner/developer as to what dedications or impact fees should be required, the City Council shall determine what dedications or impact fees, if any, are required, and if so, the extent or amount of such dedications or fees. The decision of the City Council shall be final, subject only to the right of the owner/developer to appeal the same to the Mesa County Court.

- E. The city staff retains the right to require preparation and submittal of an individualized report or study as a condition of review of the proposed development, with said report(s) paid for solely by the owner/developer.

(Ord. 2019-21, S1)

17.19.050 BASIS OF DETERMINATION. In deciding whether to impose a dedication or impact fee requirement, and the extent of such dedication or impact fee, the Planning Commission and the City Council shall consider the criteria set forth in Section 17.19.030, and shall be guided by the overriding principle that an impact fee or public dedication requirement is unfair, disproportionate and unconstitutional if it imposes a burden on an owner/developer which in equity and fairness should be borne by the public in general. However, an impact fee or dedication will be required in compliance with all existing constitutional requirements when the failure of the owner/developer to provide the dedication or impact fee would fail to remedy impacts to the city, other local governments or to the general public created or exacerbated by the owner/developer's proposed project or improvement to such an extent that the City Council would be justified in denying approval of the proposed project or improvement.

(Ord. 2019-21, S1)

17.19.060 FEE FUNDS ESTABLISHED, USE OF IMPACT FEES.

- A. All impact fees collected pursuant to this Chapter shall be deposited in funds created by the city and shall be used for the purposes for which they were collected. All impact fees collected pursuant to this Chapter shall be accounted for in the manner required by Sections 29-1-801, et. seq., C.R.S. and other applicable law.
- B. Funds collected from impact fees shall be used to acquire additional real property necessary for the purposes for which they were collected, or for purposes of acquiring or improving capital facilities, as defined in Section 29-20-104.5, C.R.S., related to the purposes for which such funds were collected. A "capital facility" includes planning, preliminary engineering, engineering design studies, land surveys, final engineering, permitting, property acquisition, and the construction and installation of all the

necessary features for the facilities. Funds collected from impact fees shall not be used for operations or periodic or routine maintenance of city or other government facilities.

- C. If an impact fee is assessed in lieu of a dedication to address large scale impacts that are borne by the city and by the public in general, as in the case of school land dedication fees, public park, open space, and trail fees, transportation impact fees and storm water and drainage management fees, such impact fees shall be considered as directly benefiting the proposed development even if such fees are used to partially fund the mitigation of impacts that are of general benefit to the community as a whole.
- D. In the event that bonds or similar debt instruments are issued for the advanced provision of capital facilities for which impact fees may be expended, such fees may be used to pay debt service on such bonds or similar debt instruments.
- E. Monies in the impact fee account shall be considered spent in the order collected, on a first-in/first-out basis.

(Ord. 2019-21, S1)

17.19.070 CREDITS, OFFSETS, AND REIMBURSEMENTS.

- A. As a general policy, owners/developers that propose, who are required to construct improvements of a type and nature for which an impact fee would normally be utilized, such owners/developers may be eligible for offsets of up to one hundred (100) percent of the impact fees assessed to a particular phase or filing of a development, provided that the constructed improvements are of general benefit to the City of Fruita and general public, as determined by the city, and are not required solely because of the development. No offsets shall be provided where the constructed improvement is required to be constructed pursuant to the requirements set forth in this Chapter.
- B. For improvements that meet the requirements set forth in subsection (A) above, where the required exceed the costs of the assessed impact fee, the city may fund a portion of the cost of the improvements using collected impact fees, if available.
- C. For constructed public improvements meeting the requirements set forth in subsection (A) above, where the construction cost exceeds the assessed impact fee, owners/developers may apply to the city for a credit against impact fees assessable at a future phase or filing. The eligibility and amount of the fee credit shall be determined by the city taking into consideration the intent and purpose of the applicable development impact fee and the monetary value of the constructed improvement provided by the owners/developers which otherwise would be paid for from development impact fee proceeds. Credits for the cost of constructed improvements may be carried over or transferred to successive filings or phases within the same development, but in no case shall credits be carried over or transferred to a different development, project or owner/developer. In lieu of applying for the credit set forth herein, owners/developers may apply for reimbursement by the city from impact fees

- previously collected by the city from the owners/developers in connection with the same development or project.
- D. In all cases, offsets or credits against one (1) fee, such as a transportation impact fee, cannot be used to offset or credit another type of fee, such as a Public Parks, Open Spaces, and Trail Impact Fee Dedication.
 - E. Constructed improvements to designated State Highways are eligible for the same offsets and credits provided for improvements to other streets and roads, provided the improvements are of benefit to the general public and not just the property being developed. By way of example, street widening and the installation of a sidewalk along a State Highway would be eligible for offsets and credits, but acceleration/deceleration lanes strictly servicing the development would not be eligible for offsets or credits.
 - F. Specific to transportation impact fees, offsets or credits for the value of right-of-way abutting the development are specifically not allowed.
 - G. The purpose and monetary value of any offset, credit, or reimbursement against assessed impact fees shall be specifically delineated in the appropriate section of the subdivision or development improvements agreement for the development, and the basis (e.g. cost of constructed improvements) of the offset, credit, or reimbursement shall be detailed in the improvements agreement.
 - H. The City Council may, in its sole discretion and by an affirmative vote of at least three fourths (3/4) of all members of the Council, waive, suspend, defer or alter all or some of the impact fees imposed by this Chapter, or agree to pay some or all of the impact fees imposed on a proposed development or redevelopment from other funds of the city that are not restricted to other uses upon finding such waiver, suspension, alteration or payment is necessary to promote the economic development of the city or public health, safety and general welfare of its residents. Any resolution adopted by the City Council providing for the waiver, suspension, deferment or altering of impact fees shall contain specific findings of fact supporting the waiver, suspension, deferment or alternation or payment.

(Ord. 2019-21, S1)

17.19.080 REFUND OF IMPACT FEES PAID.

If a development approval expires without commencement of construction or development, the owner/developer shall be entitled to a refund without interest, of impact fees paid, unless otherwise agreed by the city and the owner/developer, except that the city shall retain one (1) percent of the fee to offset a portion of the cost of collection and refund. The owner/developer must submit a letter requesting a refund to the Community Development Department within thirty (30) days following expiration of the development approval granted.

(Ord. 2019-21, S1)

17.19.090 PUBLIC PARKS, OPEN SPACES, AND TRAILS IMPACT FEE/DEDICATION.

- A. The City of Fruita has determined that new residential developments cause financial impacts to the city's public park, open space, and trail systems necessitating capital improvements that would not be required without such development. The city has adopted a Parks, Open Space, and Trails Master Plan which provides general policy guidelines and planning recommendations for provision of public parks, open space, and trails. The purpose of this section is to implement and be consistent with the City's Master Plan, specifically, the parks, open space, and trails section of the Master Plan, by requiring all new residential development to contribute a proportionate share of the public parks, open space, and trails necessary to accommodate any impacts or need for such facilities through the dedication of land and/or fees in lieu of land dedications.

The dedication of land and/or the payment of the cash equivalent will enable the city to provide parks in the proper location and of the proper size to serve the citizens of the city. This regulation also is adopted to help discourage the proliferation of small parcels, tracts, and outlots that are ostensibly created as open space and/or parks but are not sized, located or maintained as functional sites for these uses.

Consistent with this Section and with Chapter 17.29 of this Title, every residential development which increases the number of dwelling units above that which was approved as of the effective date of this title shall include a dedication of land to the city or other entity, as determined by the City Council, to be used for public parks, open space, and/or trails and/or payment of a public parks, open space, and trails fee in lieu of such dedication, as provided herein. Accessory dwelling units are not subject to this fee.

- B. Amount of Land Dedication Required. Land for public parks, open space, and trails shall be based on the adopted level of service standard as identified in the Parks, Open Space, and Trails Master Plan (POST Plan) as follows:

For every 1,000 residents, the following parks and trail areas are needed to

meet the level of service standard identified in the POST Plan:

2.0 acres of neighborhood parks
4.0 acres of community parks, and
1.0 mile of trails

Parkland per household is the product of the average household size multiplied by the level of service standard. Average household size is 2.52 people per dwelling unit (which is the US Census Bureau's 2006 Colorado statewide average):

$2.52 * (2.0/1,000 = .005$ acres per household for neighborhood parks
 $2.52 * (4.0/1,000 = .010$ acres per household for community parks

2.52 * (1.0/1,000 = .0025 miles per household for primary trails

- C. Dedication and Improvement of Public Parks, Open Space, and Trails. Standards for when a fee in lieu of land dedication is required or when land is required to be dedicated, including improvements to the dedicated land, is identified in Chapter 29 of this Title.

If credit is to be given for land and improvements dedicated for public use, the credit shall be based on the estimated cost of the improvements including installation costs and the average cost of land in the area. The average cost of land shall be set annually by the City Council by resolution.

- D. Payment in Lieu of Dedication and Improvements. The amount of payment to be provided in lieu of land dedication shall be based on the number of acres of land dedication which otherwise would be required. The following formula, combined with consideration of affordability issues, the goals of the city's Master Plan, and other community issues, will be used to determine the fee required and such fee shall be set annually the City Council by resolution.

Acquisition costs of un-subdivided development-ready land: \$57,000 per acre

Neighborhood park development costs: \$140,000 per
acre
Community park development costs: \$180,000 per
acre
Primary trails development costs: \$420,000 per
mile

Neighborhood park fee calculation: .005 acres X (\$57,000 + \$140,000) = \$985
per household

Community park fee calculation: .010 acres X (\$57,000 + \$180,000) =
\$2,370

Primary trails fee calculation: .0025 miles X \$420,000 = \$1,050
per household

Maximum combined parkland and trail impact fee =

\$4,405

The above land values and development costs are based on average land values in Fruita and data on recent park and trail construction costs in the region for 2009.

- E. The city may require the applicant to dedicate other land owned by the applicant for use as a public park, open space, or trail. If the city determines to accept other land not within the development instead of, or as partial payment toward, the land dedication/fee payment required hereunder, the amount of land dedication shall be the same amount of land that would otherwise be dedicated within the proposed development.

- F. The proceeds from a fee in lieu of land dedication shall be placed in a public parks, open space, and trails fund established by the city and maintained for the acquisition and improvement of land for public parks, open space, and trails, which may benefit the residents of the city in general, as well as those of the proposed development.

(Ord. 2019-21, S1)

17.19.100 SCHOOL LAND DEDICATION.

- A. When Required. Every subdivision or other development, which is proposed to contain residential units and which increases the number of permitted residential dwelling units over and above that approved as of the effective date of this Section shall be required to dedicate land for school purposes, based on the increased number of approved dwelling units, if the Mesa County School District No. 51 ("School District") determines that such development includes within it "suitable school lands" which are necessary for implementing a school plan. If such subdivision does not contain "suitable school lands," the fee required under Section 17.19.110 shall be paid in lieu of a school land dedication, based upon the increased number of approved residential dwelling units. The provisions of this Section and Section 17.19.110 shall be the exclusive standards for the dedication of "suitable school lands" and imposition of fees in lieu thereof as prescribed by Section 17.19.110, and in the event of any conflict between such provisions and any other provision contained in this Chapter, the requirements of this Section and Section 17.19.110 shall control.

In the event a dedication of land for school purposes is required under this Section, such dedication shall be made by the owner at or before the time of approval of the subdivision Final Plat, Final Planned Unit Development Plan, or Planning Clearance. No such approval shall be granted until good and sufficient title to the "suitable school lands" to be dedicated under this Section, free and clear of all liens and encumbrances whatsoever, except for current general property taxes and patent reservations, is conveyed or dedicated to, and accepted by, the School District.

- B. Amount. The amount of "suitable school lands" which may be required to be dedicated under this Section shall be roughly proportional to the additional real property required by the School District for expansion of existing school facilities and construction of new school facilities to accommodate enrollment growth from the proposed residential subdivision and the future inhabitants thereof. Such rough proportionality shall be deemed to be met by the following formula:

$$\begin{aligned} &\text{Number of dwelling units in the proposed residential development} \times \text{Student} \\ &\text{generation fee factor of .023} = \\ &\text{Number of acres of suitable school lands required} \end{aligned}$$

The student generation fee factor is based upon a study conducted by Mesa County Valley School District No. 51 and referenced in the Intergovernmental Agreement between Mesa County Valley School District No. 51 and the City of Fruita, and may be

modified from time to time in the manner provided in subsection 17.19.110(F) below.

(Ord. 2019-21, S1)

17.19.110 FEE IN LIEU OF SCHOOL LAND DEDICATION.

- A. When Required. Except for developments where a school land dedication is required in accordance with Section 17.19.100 above, or is permitted under subsection (D) below, or an exemption under subsection (C) applies, all proposed developments, which increases the number of approved dwelling units over and above the number approved as of the effective date of this Section, shall pay fees in lieu of school land dedication (SLD fee) in an amount per unit, based upon the increased number of dwelling units, set forth in subsection (F) hereof. In no case shall the requirement of SLD fees or the amount thereof be subject to individualized determination as provided in subsection 17.19.040(C) or (D). SLD fees shall be collected by the city for the exclusive use and benefit of the School District, and shall be expended by such School District solely to acquire real property or an interest in real property reasonably needed for development or expansion of school sites and facilities, or to reimburse the School District for sums expended to acquire such property or interests. Revenues derived from such fees shall be used only for such purposes.
- B. Payment of SLD Fee.
1. No Planning Clearance for a building containing residential units shall be approved until and unless the applicable SLD fee has been paid as required by this Section based on the increased number of approved dwelling units. No SLD fee shall be required or collected under this Section with respect to any subdivision for which final approval has been granted as of the effective date of this Section.
 2. In the sole discretion of the City Council, the city may elect to approve a Planning Clearance subject to payment of required SLD fees due under this Section pursuant to a deferred payment plan. Provided, however, any deferred payment plan shall provide for a performance guarantee such as a performance bond, irrevocable letter of credit, or escrow fund approved by the City Council, to assure payment of such fees.
 3. Any plan for payment of SLD fees on a deferred basis in accordance with subsection (B)(2) above shall be documented in a written deferred payment plan. Such deferred payment plan shall contain, at a minimum, the following:
 - a. The legal description of the real property subject to the deferred payment plan.
 - b. A detailed statement of the SLD fees owed pursuant to the condition of approval of the Planning Clearance, which remain unpaid.

- c. The agreement of the owner/developer to pay all SLD fees owed with respect to such real property upon the sale of such property or upon application for a Planning Clearance permit for one (1) or more dwelling units to be constructed on such property, which ever first occurs.
 - d. A description of the performance guarantee assuring that such fees shall be paid when due and owing.
 - e. The notarized signature of the record owners of the property or their duly authorized agents.
 - f. The notarized signature of the Community Development Department Director or his or her designee, indicating approval of the deferred payment plan.
- C. Exemptions. The following shall be exempted from dedication of school lands or payment of the SLD fee:
1. Subdivisions or other developments containing only non-residential buildings;
 2. Subdivisions or other developments containing only nursing homes, adult foster care facilities, or specialized group care facilities; and
 3. Approved residential developments that are subject to recorded covenants restricting the age of the residents of dwelling units contained within such developments in such a manner that the dwelling units may be classified as "housing for older persons" pursuant to the Federal Fair Housing Amendments Act of 1988.
- D. Credits.
1. An applicant for subdivision or other development approval who owns other "suitable school lands" within the same School District may offer to convey such lands to the District in exchange for credit against all or a portion of the SLD fees otherwise due or to become due. The offer must be in writing, specifically request credit against fees in lieu of school land dedication, and set forth the amount of credit requested. If the city and the School District accept such offer, the credit shall be in the amount of the value of the "suitable school lands" conveyed, as determined by written agreement between the city, the School District and the owner/developer.
 2. Credit against SLD fees otherwise due or to become due will not be provided until good and sufficient title to the property offered under this subsection is conveyed to and accepted by the School District in which the development is located. Upon such conveyance, the School District and the city shall provide the owner/developer with a letter or certificate setting forth the dollar amount of the credit, the reason for the credit, and a description of the project or development to

which the credit shall be applied.

3. Credits shall not be transferable from one project or development to another.

E. Refund of Fees Paid.

1. Any SLD fee, which has not been expended by a School District within five (5) years of the date of collection shall be refunded, with all accumulated interest, if any, to the person or entity which paid the fee. Prior to such refund, such amount shall be reduced by an amount equal to three (3) percent of the principal amount to be refunded, for the costs incurred by the city in the refund of such fee. The city shall give written notice by first class mail to the person or entity, which paid the fee at the last known address as contained in the records of the city or Mesa County Clerk and Recorder. If such person or entity does not file a written claim for such refund with the city within ninety (90) days of the mailing of such notice, such refund shall be forfeited and shall be retained and used for the purposes set forth in subsection 17.19.110(A).
2. The City Council may, upon the School District's request, extend the five (5) year period of time specified in Paragraph (1) of this subsection above upon a showing that such extension is reasonable necessary in order for the School District to complete or close a purchase transaction entered into in writing by the District prior to expiration of such period, or to give the District an opportunity to exercise a purchase option it acquired prior to expiration of such period. Such request shall be made at a public hearing of the City Council. In no event shall any extension of time exceed one (1) additional five (5) year period.

F. SLD Fees-Establishment and Application.

1. SLD fees shall be collected and held in trust for the use and benefit of the School District pursuant to Section 17.19.120. Such fees shall be expended by the School District to acquire additional real property for expansion of existing school facilities and construction of new school facilities necessitated by new residential development in the School District, or to reimburse the School District for sums expended to acquire such property. The amount of the SLD fee shall be based on a methodology which takes into account the student generation rates of new residential development, the quantity of land required to build new school facilities on a per pupil basis, and the anticipated cost of acquiring suitable school lands in the School District to expand existing school facilities and construct new school facilities to accommodate new residential development without decreasing current levels of educational services.
2. At the time SLD fees are initially adopted and annually thereafter, the City Council shall determine the average cost per acre of "suitable school lands," after a public hearing. The city shall give the School District sixty (60) days prior written notice of the hearing. Such hearing shall consider the School District's

long-range capital improvement plans and any other evidence, comments or recommendations submitted by the School District and the public in making such determination.

3. The SLD fee shall then be set, by resolution of the City Council, in accordance with the following formula:

$$\begin{aligned} & \text{Cost per acre of suitable school lands within the School District} \times \\ & \text{Student generation fee factor of } .023 = \\ & \text{SLD fee per dwelling unit} \end{aligned}$$

[For example, if the average cost of "suitable school lands" is fifteen thousand dollars (\$15,000.00) per acre, the SLD fee per dwelling unit would be fifteen thousand dollars (\$15,000.00) times (X) .023, or three hundred forty-five dollars (\$345.00).]

4. The student generation fee factor may also be modified at the hearing, provided that either the School District gives notice to the City Council that it requests such a modification at least thirty (30) days prior to the hearing, or the City Council adopts a motion providing for consideration of a modification of said fee factor and its hearing notice to the School District pursuant to this subsection so states. Said hearing shall consider the School District's school facilities plan currently in place, the methodology and data supporting the proposed modification, and any evidence, comments or recommendations submitted by the County Community Development Department, the City's Community Development Department, the School District and interested members of the public.

(Ord. 2019-21, S1)

17.19.120 SCHOOL LAND DEDICATION FEE TRUST FUND.

- A. Creation. A School Land Dedication Trust Fund ("SLD Trust Fund") shall be established for the benefit of School District. All SLD fees collected by the city, pursuant to this Chapter, for approved residential dwelling units in the city and within the boundaries of the School District shall be deposited in the SLD Trust Fund. Such SLD Trust Fund shall be governed by the provisions of this Chapter, as supplemented by the terms of the intergovernmental agreement entered into between the city and the School District. Such agreement shall substantially comply with the requirements of this Section, and shall include, but need not be limited to, provisions regarding the following:
 1. Maintenance and management of the SLD Trust Fund as a separate interest-bearing account in accordance with Sections 24-75-601 to 605 C.R.S., apart from all other funds of the city, the funds in which are held in trust for the use and benefit of the School District;

2. The powers and fiduciary obligations of one (1) or more trustees named in the agreement with respect to the management of the SLD Trust Fund;
3. The retention of a specified portion of the SLD fees collected by the city for the reasonable costs incurred by the city in the collection of said fees;
4. An accounting system to ensure that SLD fees are expended for the provision of new or expanded school sites benefiting the School District for which such fees are paid;
5. An annual audit of the SLD fees collected and disbursed, with said audit to be in accordance with generally accepted accounting standards for governmental entities;
6. A periodic update of the School District's school facilities plan;
7. An agreement by the School District to submit an annual report to the city describing the School District's expenditure of SLD fees during the preceding fiscal year;
8. An agreement by the School District to furnish, when requested by the city, an accounting from the chief financial officer of the District concerning the expenditure of the SLD fees paid to the School District; and
9. An annual review by the city of the matters set forth in the report described in subsection 17.19.110(F) above.

Any intergovernmental agreement entered into pursuant to this subsection may contain terms permitting an SLD Trust Fund to be managed by one (1) or more trustees in combination with other SLD Trust Funds established under provisions of comparable school site fee resolutions or ordinances adopted by the county or other municipalities within the county.

B. Ownership. The School District shall be beneficial owner of the funds in its SLD Trust Fund, but the signature of the chief financial officer of the School District, or his or her designee, and the signature of the City Manager or his or her designee, shall be required for the withdrawal of monies from such fund.

C. Earmarking And Expenditure Of SLD Fees.

1. All SLD fees collected by the city shall be properly identified and promptly deposited in the SLD Fee Trust Fund, and shall not be withdrawn for any purpose except as authorized in accordance with this Chapter, and any applicable intergovernmental agreement;
2. Each SLD fee collected by the city pursuant to this Chapter, shall be earmarked

for the School District, and shall be expended only for the purposes set forth in this Chapter. Any changes to School District boundaries that would affect the expenditure of fees in lieu of land dedication must be reviewed by the City Council prior to the implementation of such changes. Such fees shall not be used to pay general obligation bonds, or to compensate for costs incurred by the School District for costs incurred to upgrade existing educational facilities, unless such fees are expended for the purpose of increasing the site or land area for such existing facilities for the benefit of the School District.

3. Upon the written request of the School District or its authorized representative, the City Council or its authorized designee shall promptly notify the Board of Education of the amount of fees in lieu of dedication received and deposited in the SLD Trust Fund for its benefit and the amount of interest earned thereon, as of the end of the month immediately preceding the month in which the request was made. Upon receipt of such notice, the School District may file with the Board a request for disbursement to such District of all or part of the fees and interest accumulated in its SLD Trust Fund for purposes authorized by this Chapter.
4. Such request for disbursement shall be in writing, set forth the amount of funds needed, and contain a brief description of the purposes for which the funds will be used.
5. Such request shall be heard at a regular meeting of the City Council held within thirty (30) days after it is filed, at which time the School District, through its authorized representative, shall demonstrate to the City Council a need for the moneys requested to expend for purposes authorized by this Chapter. Such demonstration shall be deemed sufficient if it is shown that the request is in furtherance of an existing capital improvement or site acquisition plan duly adopted by the Board of Education and has been included and relied upon in its budget for the fiscal year in which the moneys are to be expended. Upon the City Council's approval, which shall not be unreasonably withheld, the requested funds shall be transferred to the School District's Capital Projects Fund.

(Ord. 2019-21, S1)

17.19.130 TRANSPORTATION IMPACT FEE.

- A. The City of Fruita has determined that new developments and expansion, modification or redevelopment of existing developments cause financial impacts to the city's transportation system necessitating capital improvements that would not be required without such development. These impacts include wear and tear on existing pavements requiring rehabilitation or reconstruction of existing streets, increased traffic volumes requiring widening to improve traffic flow and provide better turning movements, additional traffic control devices and safety concerns associated with the interaction of vehicular traffic with pedestrian and bicycle traffic.

- B. The city has further determined that typically, no single development creates enough traffic to warrant construction of off-site improvements based strictly on a traffic capacity analysis or a required level of service analysis. However, each development incrementally depletes existing capacity and incrementally decreases the level of service. The cumulative impacts from new developments results in unacceptable depletions in capacity and level of service, thereby requiring the expenditure of capital funds for improvements.
- C. The city has also determined that irrespective of a capacity or level of service analysis for traffic flow, construction of facilities to facilitate safe turning movements for vehicles, and for the safe movement of bicycles and pedestrians are reasonable requirements for urban streets, and shall be accounted for in any impact fee calculation.
- D. Consistent with the city's need to plan for, engineer and construct transportation improvements resulting from the cumulative impacts of new development, including bikeways and sidewalks, the city's general policy is that the proportional impact resulting from a new development be paid by the owner/developer, and consistent with the provisions of this Chapter, a transportation impact fee shall be assessed for new development.
1. For developments for which a site-specific traffic impact analysis is conducted pursuant to Sections 17.19.040 and 17.15.140 of this Title, the transportation impact fee shall be calculated by the city based upon the following criteria:
 - a. An evaluation of the site-specific traffic impact analysis, which shall describe the percentage impact of the development on the local street network in the vicinity of the development. The traffic impact analysis shall include an estimate of twenty (20) year future traffic volumes and use a pass-by traffic growth rate of two (2) percent or less, unless otherwise approved by the city.
 - b. Estimated costs of future improvements on local streets and intersections, plus a calculated pro rata cost for improvements to regional roads. The scope of future local improvements shall be based on the long-term needs of the city, as determined by the city, consistent with long range planning documents, and irrespective of a strict level of service analysis. Improvements may include, but are not limited to, curb, gutter, and sidewalk; bikeways; traffic signals; pavement widening, replacement, or rehabilitation; traffic calming devices; and traffic control devices. The scope of future regional road improvements, and estimated costs thereof, shall be determined from current and future regional planning studies, including the Transportation Impact Fee Study prepared for Mesa County by Duncan & Associates, and dated September 2002. (The "Duncan Study"), and the subsequent update (Transportation Impact Fee Study for Mesa County, Colorado) dated December 2018.
 - c. The roughly proportional impacts from the development on individual local streets and/or intersections multiplied by the total estimated costs for these improvements, plus a calculated pro rata amount for regional roads, shall

equal the total transportation impact fee.

2. The base rate for residential subdivisions with single family and duplex dwelling units for which no traffic impact analysis is performed, shall be six thousand seven hundred sixty-three dollars (\$6,763.00) per dwelling unit. The base rate may be adjusted by resolution of the City Council annually for inflation based on the change in the Colorado Department of Transportation's Construction Cost Index. For multi-family dwelling units in excess of two units, the base rate of six thousand seven hundred sixty-three dollars (\$6,763.00) shall be multiplied by a factor of 0.68 per unit for the fee per dwelling unit. Said fees are based upon traffic impact analysis performed according to subsection (D)(1) of this Section and adjusted to reflect recent actual costs incurred on local road projects. The base rate may be adjusted by resolution of the City Council annually for inflation based on the change in the Colorado Department of Transportation's Construction Cost Index.
3. The transportation impact fee for commercial, industrial and other uses specified in the following table shall be a base rate of six thousand seven hundred sixty-three dollars (\$6,763) multiplied by the factor listed for that use. The base rate may be adjusted by resolution of the City Council annually for inflation based on the change in the Colorado Department of Transportation's Construction Cost Index.

The increase in the Retail/Commercial impact fees provided in this Section 3 shall take effect on the phased schedule as provided below:

Year (January 1)	Percentage of Fee to be Imposed	Base Fee
January 1 2020	0%	\$1,589.00
July 1, 2020	25%	\$2,882.50
January 1, 2021	50%	\$4,176.00
July 1, 2021	75%	\$5,469.50
January 1, 2022	100%	\$6,763.00

4. For specific uses not identified in the table above, the transportation impact fee factor shall be determined by the city based on an evaluation of the traffic generating characteristics of the proposed development compared to specific uses listed in the table.
 - a. For non-single-family residential developments for which no traffic impact analysis is performed, the transportation impact fee shall be calculated based on the schedule set forth in subsection (3) above.
 - b. A change of use in an existing commercial, industrial, or institutional structure that does not involve a change in the square footage of the structure shall not require a new transportation impact fee unless the use requires a site plan review, conditional use permit or rezone in which case a traffic study may be required and a transportation impact fee may be imposed based on the net increase in traffic. Alternatively, the transportation impact fee assessed shall be calculated based on the difference in Table Values for the new versus the previous use.
 - c. In many instances, a particular structure may include auxiliary uses associated with the primary land use. For example, in addition to the actual production of goods, manufacturing facilities usually also have office, warehouse, research, and other associated functions. The impact fees generally are assessed based on the primary land use. If the applicant can document that a secondary land use accounts for over twenty-five (25) percent of the gross floor area of the structure, and that the secondary use is not assumed in the trip

- generation or other impact data for the primary use, then the impact fees may be assessed based on the disaggregated square footage of the primary and secondary land use.
- d. For an expansion, redevelopment, or modification of an existing development, the fee shall be based on the net increase in the impact of the new use and/or square footage as compared to the previous use and/or square footage.
 - e. In the event that the proposed change of land use type, redevelopment, or modification results in a net decrease in the fee for the new use or development as compared to the previous use or development, there shall be no refund of impact fees previously paid.
 - f. For fees expressed per one thousand (1,000) square feet, the square footage shall be determined according to gross floor area, measured from the outside surface of exterior walls and excluding unfinished basements and enclosed parking areas. The fees shall be prorated and assessed based on actual floor area, not on the floor area rounded to the nearest one thousand (1,000) square feet.
5. All transportation impact fees shall be deposited in a fund created by the city for transportation improvements until used to construct actual capital facilities and improvements on impacted local streets and intersections or allocated to regional road improvements. Consistent with Section 17.19.060, the total amount of deposited impact fees may be used at the discretion of the city to construct improvements to the local street network, or to regional street projects, so long as the fees are used to perform improvements to streets and/or intersections impacted by the development.

(Ord. 2019-21, S1)

17.19.140 CHIP AND SEAL IMPACT FEE. The city has determined that the life of a new asphalt street can be extended through the use of a "chip and seal" coat within the first two (2) to five (5) years after the construction of the new street. In order to extend the life of asphalt streets in new developments and reduce initial maintenance costs to the City of Fruita, a chip and seal impact fee will be assessed for each new development that provides additional constructed public streets. The chip and seal impact fee changes annually, and is calculated based on the current square yard bid cost of chip and seal work, as contracted by the city, multiplied by the total number of square yards of new asphalt for dedicated, city maintained streets interior to a development as shown in the approved schedule of improvements contained in the applicable subdivision improvements agreement or development improvements agreement.

(Ord. 2019-21, S1)

17.19.150 DRAINAGE IMPACT FEE.

- A. The City of Fruita had prepared a Storm Water Management Master Plan (SWMMP) (June 1998) which provides general policy guidelines and planning recommendations for storm water management and provides specific criteria for calculating drainage impacts and associated impact fees for new developments. The City of Fruita has determined that storm water management is a desirable and necessary part of new developments and has adopted the Storm Water Management Master Plan (SWMMP) (June 1998) as a component of its Master Plan. Technical criteria for drainage calculations are also found in the Mesa County Storm Water Management Manual (SWMM), which has also been adopted as a component of the city's Master Plan.
- B. Consistent with the justifications and formula found in the SWMMP, a drainage impact fee shall be assessed for all new developments when the calculated runoff volume and/or flow rate from developed conditions exceeds the runoff volume and/or flow rate from historic (pre-development) conditions. A drainage impact fee which the City Council has determined is roughly proportional to the infrastructure impacts caused by the development, shall be calculated according to the following formula:

Drainage impact fee (\$) = $B \times (C100_d - C100_h) \times A^{0.7}$ where:

B = Base Value = \$17,058.00, as of January 1, 2019, to be adjusted annually for inflation based on the Consumer Price Index, All Items, All Urban Consumers, Western Region, size B/C, published on a monthly basis by the United States Department of Labor (Bureau of Labor Statistic(ACPI-U).

C100 = 100-year Rational Method composite runoff coefficient, with subscripts "d" and "h" representing developed and historic conditions respectively.

A = Area to be developed, in acres

- C. Consistent with Section 17.19.060 of this Chapter, drainage impact fees shall be deposited in a fund established by the city for such purposes and shall be used to resolve drainage and flooding issues anywhere within the basin affected by the development being charged the impact fee, and may also be used for city-wide or regional studies and plans, so long as the percentage of impact fees used on city-wide or regional studies and plans is roughly proportional to the percentage of the study or plan devoted to the basin from which the fees were generated.

An approval of a land development application which requires a subdivision improvements agreement or development improvements agreement does not become effective until a subdivision or development improvements agreement and related documents, setting forth financial arrangements to secure the actual construction of required public or semi-public (shared) improvements required by the city, has been executed between the property owner and the City Council. The subdivision improvements agreement or development improvements agreement shall include a guarantee to construct all required improvements together with collateral which shall be sufficient to ensure the completion of the required improvements. With the property owner's written consent, the City Council may enter into a subdivision improvements agreement or development improvements agreement with a developer or applicant who is not the property owner, provided that the agreement(s) shall be binding on the subject property and shall run with the land. (Ord. 2009-02)

17.21.020 CONSTRUCTION OF IMPROVEMENTS. Every subdivision improvements agreement or development improvements agreement shall provide that the applicant, at its sole cost and expense, shall design, purchase, construct and install all elements of all improvements, whether such improvements are located within the subdivision or development property (on-site) or outside of the subdivision or development (off-site). The improvements shall be designed and built in conformance with this Title and other applicable city ordinances, building codes and regulations in effect as of the effective date of the subdivision improvements agreement or development improvements agreement, and the approved for construction drawings. Prior to the commencement of construction of the subdivision or development improvements, the city shall review and approve all drawings and plans. (Ord. 2009-02)

A subdivider shall provide, at its sole cost, all necessary engineering designs, surveys, field surveys, as-built drawings and incidental services, including the cost of updating city mapping related to the construction of the public and other required subdivision improvements. (Ord. 2009-02)

17.21.030 SCHEDULE OF IMPROVEMENTS TO BE CONSTRUCTED. Every subdivision improvements agreement or development improvements agreement shall include a schedule of the required improvements showing in detail the required improvements, the costs thereof, and make reasonable provision for the completion of said improvements in accordance with design and time specifications. No work shall be commenced on such improvements until such time as the schedule of improvements has been approved by the city and the required performance guarantee has been delivered to the city. (Ord. 2009-02)

17.21.040 TIMETABLE FOR CONSTRUCTION OF REQUIRED IMPROVEMENTS. Every improvement identified in the subdivision improvements agreement or development improvements agreement shall include a time schedule for the construction and completion of the required improvements. Said schedule shall provide for a commencement date as well as a date when such improvements will be substantially completed. Under such schedule, all required subdivision or development improvements shall be completed no later than one (1) year following the start of development, unless otherwise agreed by the City Council.

Where a developer or property owner is prevented from commencing or completing any of the required improvements within the time periods set forth in the subdivision improvements agreement or development improvements agreement, the times for commencement and/or completion of such improvements may be extended by the City Manager in accordance with Section 17.05.040.

(Ord. 2009-02)

17.21.050 CITY INSPECTIONS OF IMPROVEMENTS. Every subdivision improvements agreement or development improvements agreement shall provide that the city shall have the right to make inspections and require testing during construction of the required improvements in such reasonable intervals as the responsible city officials may request. Inspection, acquiescence and approval of any inspector of the construction of physical facilities, at any particular time, shall not constitute an approval by the city of any phase of the construction of such improvements. Such approval shall be made by the city only after completion of construction of all improvements in the manner set forth in Section 17.21.060. The city also reserves the right to perform or contract for independent quality assurance tests to confirm compliance with city requirements. (Ord. 2009-02)

17.21.060 FINAL APPROVAL OF IMPROVEMENTS BY CITY STAFF. Every subdivision improvements agreement or development improvements agreement shall provide that upon completion of construction of all required improvements, the responsible city officials shall perform final inspections of the improvements and certify with specificity their conformity or lack thereof to the approved plans, specifications and design standards. The subdivision

improvements agreement or development improvements agreement shall further provide that the property owner or developer shall make all corrections necessary to bring the improvements into conformity with applicable city standards, approved for construction drawings, and the utility, drainage and street improvements plans and requirements of other agencies, as approved. The city shall be under no obligation to provide any wastewater collection service, street maintenance or issue any further planning clearances for building permits or certificates of occupancy, until all such facilities are brought into conformance with the applicable standards, plans and specifications and approved by the responsible city officials. (Ord. 2009-02)

17.21.070 CONVEYANCE OF PUBLIC IMPROVEMENTS. A subdivision improvements agreement or development improvements agreement shall provide that all public improvements shall be conveyed to the city or other public entity, as applicable. Upon completion of construction in conformity with the applicable plans, standards, specifications and any properly approved changes, and final approval by the responsible city official, all public improvements shall be conveyed to the city or Colorado Department of Transportation or other public entity, as applicable. Acceptance of said conveyance to the city shall be made by majority vote of the City Council. Following such conveyance, the city shall be solely responsible for the maintenance of such public improvements, unless otherwise provided for by the agreement, except for any correction work required during the warranty period. (Ord. 2009-02)

17.21.080 WARRANTY FOR PUBLIC AND OTHER REQUIRED IMPROVEMENTS.

The property owner or developer shall warrant in the subdivision improvements agreement or development improvements agreement all required improvements for a period of twenty-four (24) months from the date the City Council accepts such improvements. Specifically, but not by way of limitation, the property owner or developer shall warrant the following:

- A. That the title conveyed shall be good and its transfer rightful;
- B. Any and all facilities conveyed shall be free from any security interest or other lien or encumbrance; and
- C. Any and all facilities so conveyed shall be free of any and all defects in materials or workmanship.

(Ord. 2009-02)

17.21.090 REVEGETATION OF DISTURBED AREAS REQUIRED. Every subdivision improvements agreement or development improvements agreement shall provide that all areas disturbed by construction shall be promptly revegetated with native vegetation following completion of such work unless a building permit application has been requested for a particular lot, in which case revegetation shall be provided prior to legal occupancy of such lot. The property owner or developer shall comply with all city regulations concerning dust suppression, drainage and the control of other nuisances. In addition, the applicant or developer shall control all noxious weeds and rodents within such areas to the reasonable satisfaction of the city until conveyed to individual lot owners. (Ord. 2009-02)

17.21.100 PERFORMANCE GUARANTEE REQUIRED.

- A. Every subdivision improvements agreement or development improvements agreement shall provide that in order to secure the construction and installation of the required improvements listed in the schedule of improvements, whether on-site or off-site, including tasks not specifically itemized within the schedule of improvements but which can be reasonably considered necessary for the development and for which the property owner or developer is responsible, the property owner or developer shall furnish the city with: (1) cash to be deposited in an escrow account that is acceptable to the city pursuant to an escrow and disbursement agreement approved by the city; or (2) an irrevocable letter of credit that is acceptable to the city, or (3) a performance bond issued by a surety approved by the city, in an amount equal to one hundred ten (110) percent of the estimated cost of all required improvements.
- B. The developer or property owner shall deliver to the city the performance guarantee required by subsection (A) above prior to the recording of a subdivision final plat, or prior to recording of a PUD final development plan, or prior to the issuance of a conditional use permit or planning clearance, as applicable. Unless expressly authorized by the city, work shall not be commenced within the development until the approved security is furnished to the city. No lot within a subdivision shall be conveyed to any third party until the approved security is delivered to the city and the final plat has been recorded in the records of the Mesa County Clerk and Recorder.
- C. Upon completion of a certain class of improvements, such as wastewater facilities by way of example, evidenced by a detailed cost breakdown of the completed improvements, the amount of any security tendered may be reduced by up to one hundred (100) percent of the approved cost for the installation of such class of improvements, upon approval by the city. Upon completion of all of the improvements required by the subdivision improvements agreement or development improvements agreement, and upon final inspection and approval by the city of all such improvements, the City Council shall further authorize a reduction of the amount of the security guaranteeing the required subdivision or development improvements to ten (10) percent of the total actual cost of the improvements.
- D. Any performance guarantee tendered to the city shall be fully released and discharged only by express action of the City Council upon expiration of the twenty-four (24) month warranty period described in Section 17.21.080 and the correction of any defects discovered during such warranty period. In the event that the correction of defects are not satisfactorily completed upon the expiration of the twenty-four (24) month warranty period, the city will retain the existing performance guarantee and may require a new performance guarantee and withhold further planning clearances for building permits and certificates of occupancy within the subdivision or development until the new performance guarantee is tendered to the city.
- E. Every subdivision improvements agreement or a development improvements agreement shall provide that upon the developer's or property owner's failure to perform its

obligations under such agreement and all other applicable plans, drawings, specifications and documents, as approved, within the time periods set forth in the agreement, the city may give written notice to the developer or property owner of the nature of the default and an opportunity to be heard before the City Council concerning such default. If the default has not been remedied within thirty (30) days of receipt of the notice or of the date of any hearing before the City Council, whichever is later (or such reasonable time period as is necessary to cure the default provided that the developer or the property owner has commenced in good faith to cure the default), the city may then give written notice to the developer or property owner and any surety on a performance bond, issuer of a letter of credit, or escrow agent that the city, as agent for the developer or property owner, is proceeding with the task of installing and completing the remaining required improvements in whole or in part.

- F. Every subdivision improvements agreement or development improvements agreement must contain a power of attorney whereby the developer or property owner designates and irrevocably appoints the City Manager of the City of Fruita, Colorado as its attorney in fact and agent for the purpose of completing all necessary improvements required by the subdivision improvements agreement or development improvements agreement in the event of a default by the developer or property owner. The agreement shall be recorded in the office of the Clerk and Recorder of Mesa County, Colorado, and shall constitute constructive notice of the agreement and the power of attorney contained therein. The agreement and power of attorney contained therein may be enforced by the city pursuant to all legal and equitable remedies available, including an action for specific performance in a court of competent jurisdiction.
- G. If a substantial amount of time elapses between the time of delivery of the security and actual construction of the improvements, the city may require a reasonable increase in the amount of the applicable security, if necessary because of estimated increased costs of construction.

(Ord. 2009-02)

17.21.110 INDEMNIFICATION AND INSURANCE. Every subdivision improvements agreement or development improvements agreement shall require the developer, property owner and any contractor or subcontractor employed by the developer or property owner who performs work within public rights-of-way, easements dedicated to the city, or within other property owned by the city to indemnify and hold harmless the City of Fruita, its officers, employees, insurers, and self insurance pool, from and against all liability, claims, and demands, on account of injury, loss, or damage, including without limitation claims arising from bodily injury, personal injury, sickness, disease, death, property loss or damage, or any other loss of any kind whatsoever, which arise out of or are in any manner connected with work performed by the developer or property owner, its contractors and subcontractors, within city rights-of-way, easements or other property, if such injury, loss, or damage is caused in whole or in part by, or is claimed to be caused in whole or in part by, an act, omission, error, professional error, mistake, negligence, or other fault of the developer, property owner, or contractor, and any subcontractor. The city may also require in a subdivision improvements agreement or development

improvements agreement that any contractor employed by the developer or property owner to perform work within public rights-of-way, easements dedicated to the city, or within any other property owned by the city to procure and maintain, at its own cost, a policy or policies of insurance sufficient to insure against all liability, claims, demands and other obligations assumed by contractors and subcontractors pursuant to this section. (Ord. 2009-02)

17.21.120 DEFAULT; NOTICE; AND TERMINATION OF SUBDIVISION AND DEVELOPMENT IMPROVEMENTS AGREEMENTS. In the event of any default or breach by a property owner or developer of a covenant, term, condition or obligation contained in a subdivision improvements agreement or development improvements agreement, and if such default or breach continues after notice thereof and an opportunity of a hearing as set forth in this Chapter, the agreement may be forthwith terminated, at the option of the city. Any declaration of termination of an agreement shall be effective only after and upon a resolution to that effect adopted by the City Council. In the event a property owner or developer fails to construct any required improvements in accordance with the terms of a subdivision improvements agreement or development improvements agreement, the city may suspend approval of the development during which time the property owner or developer shall have no right to sell, transfer or otherwise convey tracts or lots within the development or property without the express written approval of the city. (Ord. 2009-02)

17.21.130 ISSUANCE OF CERTIFICATE OF COMPLIANCE. Upon satisfactory completion of all required improvements, expiration of the applicable warranty period, and compliance with all of the terms of the subdivision improvements agreement or development improvements agreement, the city shall, upon request, execute a resolution or certificate stating that all improvements have been constructed in compliance with the subdivision or development improvements agreement. (Ord. 2009-02)

17.25.010 MANUFACTURED AND MOBILE HOME PARKS; GENERAL PROVISIONS

- A. Description. Manufactured and mobile home parks are a high density residential use on a parcel of land under single ownership or control on which two (2) or more manufactured homes or mobile homes may be permitted as a conditional use within the Community Residential (CR) zone and the Community Mixed Use (CMU) zone. They may also be permitted in a Planned Unit Development (PUD).
- B. Manufactured and Mobile Home Parks - Approval Procedure.
1. An applicant seeking to develop a manufactured or mobile home park as a conditional use in the CR and CMU zone shall apply for a conditional use permit in accordance with the requirements set forth in Section 17.13.040 of this Title. Prior to, or simultaneously with the submittal of an application for a conditional use permit, the applicant shall submit a manufactured or mobile home park development plan for the subject property for review and approval.
 2. An applicant seeking to develop a manufactured or mobile home park as part of a Planned Unit Development shall comply with the procedures and standards set forth in Chapter 17.17 of this Title.
 3. 17.29.020 GENERAL PROVISIONS.

- A. The city will typically require the payment of a fee in lieu of land dedication for the parks, open space, and trail impact fee/dedication requirement as outlined in Section 17.19.090 of this Title. As part of the dedication requirement set forth in Section 17.19.090, residential developments with 1,000 residents or more (based on the schedule in Section 17.19.090) shall provide at least six acres of land for a public neighborhood park and/or community park and at least one (1) mile of trail land. For residential developments with less than 1,000 residents, public parks, open space, and/or trails may be provided or a fee in lieu of this dedication requirement may be paid as determined by the city decision making body through the land development review process and based on the approval criteria of Section 17.29.030.
- B. Land to be dedicated for parks, open space, and/or trails must be contained in an outlot dedicated to either the City of Fruita or a Property Owners’ Association and the outlot must include an easement for public access/use on the same basis as the land in question is available to the residents of the development in which it is located. Private open space, parks, trails, or other private recreation areas in any development shall not be a substitute for the required public parks, open space, and trails impact fee/dedication.

- C. In all cases, land and improvements and/or a fee in lieu of land and improvements will be required to meet the requirements set forth in Section 17.19.090.
- D. Ownership and maintenance of public parks, open space, and trails shall be determined by the City Council on a case-by-case basis through the development review process. The city reserves the right to reject any land which it deems unsuitable for park, open space, and/or trail purposes.
- E. Landscape improvements to public parks, open space and trails must follow landscaping requirements of Appendix A of the Fruita Land Use Code.

(Ord. 2009-02, Ord. 2010-10, S4)

17.29.030 PUBLIC PARKS, OPEN SPACE, AND TRAILS CRITERIA.

- A. In determining which land areas are appropriate and/or necessary for public parks and eligible for credit against the otherwise required park, open space, and trails impact fee/dedication, the following criteria must be considered:
 - 1. Land area to be dedicated should be at least two acres in size.
 - 2. The land area to be dedicated should be in an area underserved by existing public parks as identified by the Fruita Parks, Open Space, and Trails Master Plan.
 - 3. The land should be located adjacent to other open space or schools.
 - 4. The land area's proposed improvements must be designed, signed and stamped by a licensed landscape architect and must include at a minimum the following: water rights, irrigation system, appropriate groundcover, at least one large tree per every 5,000 square feet of landscaped area, and at least one of the following:
 - Paved, multi-purpose area for court games (e.g. basketball, tennis);
 - A multi-purpose play field with backstop;
 - Playground equipment and a bench;
 - Shade structure for picnics and sitting within a landscaped setting.
 - 5. The land area to be dedicated should have at least twenty percent (20%) of the perimeter of the parkland area adjacent to a public right-of-way so that the park is visible to the public and to increase safety by allowing activities in the park to be easily seen from other public areas.
 - 6. The land to be dedicated should be relatively flat and lend itself to organized recreational activities without the need for substantial improvements to accommodate facilities for recreational activities.
 - 7. The size and shape of the land to be dedicated must lend itself to recreational activities.
 - 8. The soil conditions and drainage must allow for development of park facilities.
 - 9. The parkland should be used to organize and focus lot, block, and circulation patterns in a development and enhance surrounding development. Street, block,

- lot and building patterns shall respond to the views, landscape and recreational opportunities provided by such parks, open space, and trail areas.
10. Surrounding the site with the rear property lines of residential lots is strongly discouraged.
 11. Parks to be used for on-going organized recreational activities should include adequate access and parking areas (both motorized vehicles and bicycles) for the type and intensity of uses intended for the park.
 12. Uses designated within public parks shall be appropriate to the context and character of the site and the intensity of the proposed development.
 13. Notwithstanding the preceding criteria, a five-foot wide landscaped outlot abutting and parallel to public right-of-way for collector and arterial roads will be eligible for credit against the otherwise required parks, open space and trails impact fee/dedication. Both the land area and the improvement to the land are eligible for credit. The minimum required width is five feet and the minimum required landscaping must consist of one large tree for every forty linear feet along the public right-of-way and appropriate groundcover and irrigation. This outlot must be owned and maintained by a Homeowners Association and contain a public access easement in order to receive credit.
- B. The following public trails will be required to be provided in all developments to provide an adequate bicycle and pedestrian transportation system. The land area required for the public trail is not eligible for credit against the otherwise required public parks, open space, and trails impact fee/dedication. Construction of the public trail(s) may be required and the cost of trail construction of a primary trail or an off-site trail is eligible for credits against the public parks, open space, and trails impact fee/dedication. Internal links necessary to provide an adequate bicycle and transportation network internal to the development are not eligible for credits.
1. Land for primary trails as identified in the Parks, Open Space, and Trails Master Plan must be provided. Trail heads should be required for primary trails at all major access points and should include parking areas, restrooms, shaded seating and picnic areas, regulatory, informational and entry signs, and drinking fountains where feasible.
 2. Local trails must be provided to link to existing or planned future trails.
 3. Trails that provide a valuable link to a destination such as schools, parks, open space, other neighborhoods, and commercial areas must be provided.
 4. Trails are required to provide a connection to avoid out-of-direction travel by pedestrians and bicyclists. As an example, a trail is required at the end of all cul-de-sacs to connect to an existing road, other trail or future development connection if the property has development potential (regardless of future land use).
 5. Trails proposed adjacent to a roadway should be a last resort when no other options exist. Attached sidewalks are not considered trails. If a trail is proposed

- adjacent to a roadway, the trail must be detached from the roadway and trail user safety shall be a primary consideration.
6. The width of land required for primary trails shall be at least 30 feet, but 50 feet or more is preferred. The width of the trail surface for a primary trail should be at least 10 feet and may be required to be wider in certain circumstances such as in areas of limited sit distance. The width of land required for local trails must be at least 16 feet for short connections (such as between cul-de-sacs) and wider for longer connections (such as a trail behind rear property lines along a block). The width of the trail surface for local trails should be at least 8 feet and may be required to be wider in certain circumstances.
 7. Trails will be required to be paved in most circumstances and trails must be paved in order to receive credit.
 8. Vertical clearance on all trails must be at least eight (8) feet. Horizontal clearance must be at least 3 feet on both sides.
 9. Adequate lighting should be required at all trailheads, primary trail access points, underpasses and at intersections with other trails. Adjacent roadway lighting may be used where possible.
 10. Maximum grade should be no more than 5%.
- B. Open space that is not a park as defined in this Title is not eligible for credits against the otherwise required park, open space, and trails impact fee/dedication (with the exception of five foot wide landscape strips as described in Section 17.29.030.A.13). In open space areas, the emphasis is on resource protection or preservation and public use should be balanced with the need for resource protection. Types of public use should be limited to trails, benches, picnic sites, environmental interpretation and educational areas. Easements for a public trail, protection of natural or historical features, watersheds, wildlife, and similar resources may be required and improvements to open space areas may be eligible for credits against the otherwise required public parks, open space, and trails impact fee/dedication and will be determined on a case-by-case basis by the city decision making body through the land development review process.
- C. Appropriate buffering and setbacks shall be used between environmental resources and proposed development to ensure that the proposed development does not degrade the existing habitat or interfere with other uses. At a minimum, the following buffer standards apply to the following environmental resources:
- Canals and drains – fifty (50) feet on both sides of the canal or drain as measured from the centerline of the canal or drain.
- Washes and creeks and wetlands – one hundred (100) feet on both sides of the wash, or creek as measured from the centerline of the wash or 100 feet from the edge of the wetland area.

Colorado River – three hundred (300) feet on both sides of the river as measured from the centerline of the river.

17.29.040 MAINTENANCE OF PUBLIC PARKS, OPEN SPACE, AND TRAILS.

- A. Any homeowners' association or other organization established to own and maintain public parks, open space, or trails shall maintain such lands and improvements in a reasonable order and condition in accordance with the approved land development.
- B. In the event a homeowners' association or other organization established to own and maintain public parks, open space, or trails fails at any time after approval of the development by the city to maintain the public parks, open space, or trails in a reasonable order and condition, the Community Development Department may serve written notice upon such organization or upon the residents of the development setting forth the manner in which the organization has failed to maintain the public parks, open space, or trails, as applicable, in a reasonable order and condition, and said notice shall include a demand that such deficiencies of maintenance be cured within thirty (30) days thereof and shall state the date and place of a hearing thereon before the City Council which shall be held within twenty-one (21) days of the notice. At such hearing, the City Council may modify the terms of the original notice as to deficiencies and may give an extension of time within which they shall be cured.

If the deficiencies set forth in the original notice or in the modification thereof are not cured within said thirty (30) days, or any extension thereof, the City Council, in order to preserve the taxable values of the properties within the development, and to prevent the public park, open space, or trails from becoming a public nuisance, may enter upon said public park, open space, or trails and maintain the same for a period of one (1) year. Said entry and maintenance shall not vest in the public any right to use the park, open space, or trails, except when the same is voluntarily dedicated to the public by the developer. Before the expiration of said year, the City Council, upon its own initiative or upon the written request of the organization previously responsible for the maintenance of the public park, open space, or trails, shall call a public hearing upon notice to such organization or to the residents of the development, at which hearing such organization or the residents of the development shall show cause why such maintenance by the city should not, at the election of the city, continue for a succeeding year.

If the City Council determines that such organization is ready and able to maintain the public park, open space, or trails in a reasonable condition, the city shall cease to maintain such area at the end of the one (1) year period. If the City Council determines that such organization is not ready and able to maintain said public park, open space, or trails in a reasonable condition, the city may, at its discretion, continue to maintain the public park, open space, or trails during the next succeeding year and, subject to a similar hearing and determination, in each year thereafter.

- C. The cost of maintenance of a public park, open space, or trails by the City of Fruita, including and administration fee equal to ten (10) percent of such cost, shall be paid by the organization established to own and maintain the park, open space, or trail, and any unpaid assessments shall become a tax lien on the properties within the development. The city shall file a notice of such lien in the office of the Mesa County Clerk and Recorder upon the properties affected by such lien within the development and shall certify such unpaid assessments to the Mesa County Board of County Commissioners and the Mesa County Treasurer for collection, enforcement and remittance in the manner provided by law for the collection, enforcement, and remittance of general property taxes.

(Ord. 2010-10, S4)

17.29.040 GENERAL PROVISIONS.

- A. Public Sites, Parks and Open Spaces to Serve as Neighborhood Focus. Open spaces, such as the city's drainage ways and parks, shall be used to organize and focus lot, block and circulation patterns and to enhance surrounding development. Street, block, lot and building patterns shall respond to the views, landscape and recreational opportunities provided by such parks, public sites and open spaces areas.
- B. Public Access. Areas designated as public sites, parks and open spaces shall be both visibly and physically accessible to the community. Public access shall be provided to all public parks, open spaces, natural and developed, and trails directly from the public street and trail system. Public site, park and open spaces areas shall be bounded along at least ten (10) percent of the perimeter by a street, except for natural open spaces areas if authorized by the City Council.
- C. Buffering. Appropriate buffering and setbacks shall be used between environmental resources and proposed development to ensure that the proposed development does not degrade the existing habitat or interfere with other uses. At a minimum, the following buffer standards apply:
- Canals – fifty (50) feet on both sides of the canal as measured from the centerline of the canal.
 - Washes and creeks and wetlands – one hundred (100) feet
 - Colorado River – three hundred (300) feet
- D. Park and Open Spaces Uses. Uses designated within public and private parks and open spaces shall be appropriate to the context and character of the site and the intensity of the proposed development.
- E. Ownership and Maintenance of Public Sites, Parks, Open Spaces and Trails. Ownership

and maintenance of public sites, parks, open spaces and trails shall be determined by the City Council on a case-by-case basis through the development review process.

(Ord. 2009-02)

17.29.050 MAINTENANCE OF PRIVATE PARKS, RECREATION AREAS AND OPEN SPACES.

- A. Any homeowners' association or other organization established to own and maintain private parks, recreation areas or common open spaces shall maintain such lands and improvements in a reasonable order and condition in accordance with the developer's application, the development plan, as approved, and any conditions of approval, the applicable declaration of covenants.
- B. In the event a homeowners' association or other organization established to own and maintain private parks, recreation areas and common open spaces, or any successor organization, fails at any time after approval of the development by the city to maintain the private parks, recreation areas or common open spaces in a reasonable order and condition, the Community Development Department may serve written notice upon such organization or upon the residents of the development setting forth the manner in which the organization has failed to maintain the private parks, recreation areas and common open spaces, as applicable, in a reasonable order and condition, and said notice shall include a demand that such deficiencies of maintenance be cured within thirty (30) days thereof and shall state the date and place of a hearing thereon before the City Council which shall be held within twenty-one (21) days of the notice. At such hearing, the City Council may modify the terms of the original notice as to deficiencies and may give an extension of time within which they shall be cured.

If the deficiencies set forth in the original notice or in the modification thereof are not cured within said thirty (30) days, or any extension thereof, the City Council, in order to preserve the taxable values of the properties within the development, and to prevent the private park, recreation area or common open spaces from becoming a public nuisance, may enter upon said private park, recreation area or common open spaces and maintain the same for a period of one (1) year. Said entry and maintenance shall not vest in the public any right to use the private park, recreation area or common open spaces, except when the same is voluntarily dedicated to the public by the developer. Before the expiration of said year, the City Council, upon its own initiative or upon the written request of the organization previously responsible for the maintenance of the private park, recreation area or common open spaces, shall call a public hearing upon notice to such organization or to the residents of the development, at which hearing such organization or the residents of the development shall show cause why such maintenance by the city should not, at the election of the city, continue for a succeeding year.

If the City Council determines that such organization is ready and able to maintain the private park, recreation area or common open spaces in a reasonable condition, the city shall cease to maintain such area at the end of the one (1) year period. If the City Council determines that such organization is not ready and able to maintain said private park, recreation area or common open spaces in a reasonable condition, the city may, at its discretion, continue to maintain the private park, recreation area or common open spaces during the next succeeding year and, subject to a similar hearing and determination, in each year thereafter.

- C. The cost of the maintenance of a private park, recreation area, trail or common open spaces by the City of Fruita, including an administration fee equal to ten (10) percent of such cost, shall be paid by the owners of properties within the development that have a right of enjoyment of the private park, recreation area or common open spaces, and any unpaid assessments shall become a tax lien on said properties. The city shall file a notice of such lien in the office of the Mesa County Clerk and Recorder upon the properties affected by such lien within the development and shall certify such unpaid assessments to the Mesa County Board of County Commissioners and the Mesa County Treasurer for collection, enforcement and remittance in the manner provided by law for the collection, enforcement, and remittance of general property taxes.

Choosing a Soil Amendment

no. 7.235

by J.G. Davis and C.R. Wilson¹(5/05)

Quick Facts...

- Soil amendments improve the physical properties of soils.
- Amendments are mixed into the soil. Mulches are placed on the soil surface.
- The best soil amendments increase water- and nutrient-holding capacity and improve aeration and water infiltration.
- Wood products can tie up nitrogen in the soil.

- Sphagnum peat is superior to Colorado mountain peat.
- When using biosolids, choose Grade 1 biosolids.

A soil amendment is any material added to a soil to improve its physical properties, such as water retention, permeability, water infiltration, drainage, aeration and structure. The goal is to provide a better environment for roots.

To do its work, an amendment must be thoroughly mixed into the soil. If it is merely buried, its effectiveness is reduced, and it will interfere with water and air movement and root growth.

Amending a soil is not the same thing as mulching, although many mulches also are used as amendments. A mulch is left on the soil surface. Its purpose is to reduce evaporation and runoff, inhibit weed growth, and create an attractive appearance. Mulches also moderate soil temperature, helping to warm soils in the spring and cool them in the summer. Mulches may be incorporated into the soil as amendments after they have decomposed to the point that they no longer serve their purpose.

Organic vs. Inorganic Amendments

There are two broad categories of soil amendments: organic and inorganic. Organic amendments come from something that is or was alive. Inorganic amendments, on the other hand, are either mined or man-made. Organic amendments include sphagnum peat, wood chips, grass clippings, straw, compost, manure, biosolids, sawdust and wood ash. Inorganic amendments include vermiculite, perlite, tire chunks, pea gravel and sand.

Not all of the above are recommended by Colorado State University. These are merely examples. Wood ash, an organic amendment, is high in both pH and salt. It can magnify common Colorado soil problems and should not be used as a soil amendment. Don't add sand to clay soil -- this creates a soil structure similar to concrete.

Organic amendments increase soil organic matter content and offer many benefits. Organic matter improves soil aeration, water infiltration, and both water- and nutrient-holding capacity. Many organic amendments contain plant nutrients and act as organic fertilizers. Organic matter also is an important energy source for bacteria, fungi and earthworms that live in the soil.

Application Rates

If your soil has less than 3 percent organic matter, then apply 3 cubic yards of your chosen organic amendment per 1,000 square feet. To avoid salt buildup, do not apply more than this. Retest your soil before deciding whether to add more soil amendment.

Wood Products

Wood products can tie up nitrogen in the soil and cause nitrogen deficiency in plants. Microorganisms in the soil use nitrogen to break down the wood. Within a few months, the nitrogen is released and again becomes available to plants. This hazard is greatest with sawdust, because it has a greater surface area than wood chips. If you plan to apply wood chips or sawdust, you may need to apply nitrogen fertilizer.

If you plan to apply wood chips or sawdust, you may need to apply nitrogen fertilizer at the same time to avoid nitrogen deficiency.

Sphagnum Peat vs. Mountain Peat

Sphagnum peat is an excellent soil amendment, especially for sandy soils, which will retain more water after sphagnum peat application. Sphagnum peat is generally acid (i.e., low pH) and can help Gardeners grow plants that require a more acidic soil. Colorado mountain peat is not as good a soil amendment. It often is too fine in texture and generally has a higher pH.

Mountain peat is mined from high-altitude wetlands that will take hundreds of years to rejuvenate, if ever. This mining is extremely disruptive to hydrologic cycles and mountain ecosystems. Sphagnum peat is harvested from bogs in Canada and the northern United States. The bogs can be revegetated after harvest and grow back relatively quickly in this moist environment.

Are Biosolids Safe?

Biosolids are byproducts of sewage treatment. They may be found alone or composted with leaves or other organic materials. The primary concerns about biosolids are heavy metal content, pathogen levels and salts. To avoid excessive levels of heavy metals and to ensure that pathogens have been killed, always choose a Grade 1 biosolid. While Grade 1 biosolids are acceptable for food Gardens, do not use them on root Crops because they will come in direct contact with the edible portion of the plant. Do not use biosolids below Grade 1.

Manure vs. Compost

Fresh manure can harm plants due to elevated ammonia levels. To avoid this problem, use only aged manure (at least six months old). Pathogens are another potential problem with fresh manure, especially on vegetable Gardens. Compost manure for at least two heating cycles at 130 to 140 degrees F to kill any pathogens before applying the manure to vegetable Gardens. **Most home composting systems do not sustain temperatures at this level.** Home-composted products containing manure are best used in flower Gardens, shrub borders and other nonfood Gardens. See fact sheets [9.369, Preventing E. coli From Garden to Plate](#), and [7.212, Composting Yard Waste](#).

During composting, ammonia gas is lost from the manure. Therefore, nitrogen levels may be lower in composted manure than in raw manure. On the other hand, the

phosphorus and potassium concentrations will be higher in composted manure. Modify fertilizer practices accordingly. Salt levels also will be higher in composted manure than in raw manure. If salt levels are already high in your Garden soil, do not apply manures.

Other composts are available that are made primarily from leaf or wood products alone or in combination with manures or biosolids.

Factors to Consider When Choosing an Amendment

There are at least four factors to consider in selecting a soil amendment:

- how long the amendment will last in the soil,
- soil texture,
- soil salinity and plant sensitivities to salts, and
- salt content and pH of the amendment.

Laboratory tests can determine the salt content, pH and organic matter of organic amendments. The quality of bulk organic amendments for large-scale landscape uses can then be determined.

Longevity of the Amendment

The amendment you choose depends on your goals.

- Are you trying to improve soil physical properties quickly? Choose an amendment that decomposes rapidly.
- Do you want a long-lasting improvement to your soil? Choose an amendment that decomposes slowly.
- Do you want a quick improvement that lasts a long time? Choose a combination of amendments.

Amendment	Decomposition rate
Grass clippings, manures	Rapid decomposition (days to weeks)
Composts	Moderate decomposition (about six months)
Wood chips (redwood, cedar), hardwood bark, peat	Slow decomposition (possibly years)

Soil Texture

Soil texture, or the way a soil feels, reflects the size of the soil particles. Sandy soils have large soil particles and feel gritty. Clay soils have small soil particles and feel

sticky. Both sandy soils and clay soils are a challenge for Gardeners. Loam soils have the ideal mixture of different size soil particles.

When amending sandy soils, the goal is to increase the soil's ability to hold moisture and store nutrients. To achieve this, use organic amendments that are well decomposed, like composts or aged manures.

With clay soils, the goal is to improve soil aggregation, increase porosity and permeability, and improve aeration and drainage. Fibrous amendments like peat, wood chips, tree bark or straw are most effective in this situation.

Use Tables 2 and 3 for more specific recommendations. Because sandy soils have low water retention, choose an amendment with high water retention, like peat, compost or vermiculite. Clay soils have low permeability, so choose an amendment with high permeability, like wood chips, hardwood bark or perlite. Vermiculite is not a good choice for clay soils because of its high water retention.

Soil Texture	Permeability	Water Retention
Sand	high	low
Loam	medium	medium
Silt	low	high
Clay	low	high

Amendment	Permeability	Water Retention
Fibrous		
Peat	low-medium	very high
Wood chips	high	low-medium
Hardwood bark	high	low-medium
Humus		
Compost	low-medium	medium-high
Aged manure	low-medium	medium
Inorganic		
Vermiculite	high	high
Perlite	high	low

Soil Salinity and Plant Sensitivity to Salts

Some forms of compost and manures can be high in salts. Avoid these amendments in soils that are already high in salts (above 3 mmhos/cm) or when growing plants that are

sensitive to salts. Raspberry, strawberry, bean, carrot, onion, Kentucky bluegrass, maple, pine, viburnum and many other landscape plants are salt sensitive. In such cases, choose sphagnum peat or ground leaves instead of compost or manures.

Salt Content and pH of the Amendment

Always beware of salts in soil amendments. High salt content and high pH are common problems in Colorado soils. Therefore, avoid amendments that are high in salts or that have a high pH. Amendments high in salts and/or pH include wood ash, Colorado mountain peat and composted manures. An amendment with up to 10 mmhos/cm total salts is acceptable if well mixed into low-salt soils (less than 1 mmhos/cm). Amendments with a salt content greater than 10 mmhos/cm are questionable. Choose a low-salt amendment for soils testing high in salts.

Sphagnum peat and compost made from purely plant sources are low in salts and are good choices for amending Colorado soils. Ask for an analysis of the organic amendments that you are considering, and choose your amendments wisely. If no analysis is available, test a small amount of the amendment before purchasing a large quantity.

Chapter 17.31**MINERAL EXTRACTION AND MINING OPERATIONS****Sections:**

- 17.31.010 Purpose**
17.31.020 Procedure for Extraction and Rehabilitation Requests
17.31.030 Operation and Rehabilitation Standards for all Mining Operations
17.31.040 Revocation of Conditional Use Permit

17.31.010 PURPOSE. The purpose of this Chapter is to establish reasonable and uniform limitations, safeguards, and controls for conservation of natural resources and for rehabilitation of mineral extraction lands. Gravel and other mineral extraction, washing, crushing, cement batch plants, asphalt plants, and processing activities should be located and conducted in sufficiently sized parcels where extraction and rehabilitation can be undertaken while still protecting the health, safety, and welfare of the area and the city. In cases where the location of the proposed mining use abuts other zoning or land uses, or structures, mineral excavation, extraction, processing and rehabilitation may be restricted in order to be compatible with and protect the adjoining uses. (Ord. 2009-02)

17.31.020 PROCEDURE FOR EXTRACTION AND REHABILITATION REQUESTS.

The extraction of commercial mineral deposits with necessary accessory uses shall be allowed in the River Corridor (RC) zone, Monument Preservation (MP) zone, General Commercial (GC) zone, and the Limited Industrial Research and Development (LIRD) zone as a conditional use and in conformance with an approved excavation and rehabilitation plan. Any excavation plan being followed under previous regulations shall fulfill this requirement. A plan shall contain, in addition to those relevant requirements outlined for a conditional use application, the following requirements:

- A. A detailed description of the method of operation of extraction, processing and rehabilitation to be employed, including any necessary accessory uses; such as, but not limited to, crushers, washers, batch plants and asphalt plants;
- B. An extraction plan showing the areas to be mined, location of stockpile areas, location of structures, and general location of processing equipment, with accompanying time schedules, fencing if applicable, depth of deposit, estimated quantity of the deposit, and other pertinent factors;
- C. A detailed rehabilitation plan showing proposed rehabilitation with time schedule including, but not limited to, finish contours, grading, sloping, types, placement and amount of vegetation, reuse plans and any other proposed factors;

- D. Topography of the area with contour lines of sufficient detail to portray the direction and rate of slope of the land covered in the application;
- E. Type, character, and amount of proposed vegetation;
- F. The operator's estimated cost at each of the following segments of the rehabilitation process, including, where applicable, backfilling, grading, reestablishing top soil, planting, re-vegetation management, and protection prior to vegetation establishment and administrative costs;
- G. A drainage report and drainage basin plan prepared by a registered engineer in the State of Colorado with consideration of natural drainage, drainage during excavation including erosion and sedimentation controls, drainage after rehabilitation, such that proposed excavation will have no adverse effects in excess of natural conditions. Where applicable, the report shall include a flood plain permit;
- H. A traffic impact analysis, which reviews road and safety conditions in the pit area and in the vicinity of the pit area. This shall include ingress/egress, parking and loading areas, on-site circulation, estimate of the number of trucks per day and the average and maximum number of trucks per day (ranges are acceptable). The analysis shall include the times and location of school bus stops in the vicinity of the haul route and mitigation measures, such as staggering hours of operation, to avoid conflicts between hauling and school children on the haul route; and
- I. Additional information as may be required by the Community Development Department.
- J. Upon approval, the excavation and rehabilitation plans shall be recorded with the County Clerk and Recorder. Any change in the approved excavation and rehabilitation plan shall be prohibited unless amended by approval of the City Council.

(Ord. 2009-02)

17.31.030 OPERATION AND REHABILITATION STANDARDS FOR ALL MINING OPERATIONS. Mining and necessary accessory uses shall be subject to the following conditions and to the approved excavation and rehabilitation plan:

- A. A permit to extract minerals issued by the Colorado Division of Minerals and Geology (DMG) in conformance with the Open Mining Land Recovery Act and other applicable state laws;
- B. Excavation within one hundred twenty-five (125) feet of an existing residence is not permitted unless by written agreement of the owners and occupants of the residence, and no excavation involving the use of rock crushers, washers, asphalt plant, cement batch

- plant and other similar equipment shall take place within two hundred fifty (250) feet of a residence;
- C. At a minimum, a one hundred (100) foot greenbelt setback will be provided from watercourses for the protection of valuable plant life, riparian areas and wildlife areas. Erosion and sedimentation controls will be practiced throughout the life of the pit including the maintenance of vegetative buffers, use of straw bales in drainage ways and mulching and reseeded exposed areas adjacent to the active mining area. Existing trees and ground cover along public street frontage and drainage ways shall be preserved, maintained and supplemented, if necessary, for the depth of the setback to protect against and reduce noise, dust and erosion;
- D. The operator shall submit a haul route plan to the Community Development Department and Department of Public Works Director and receive permission to use for haulage in public rights-of-way not designated for such haulage by reason of load limit, dust, right-of-way or pavement width or other relevant factors. The City Public Works Director may place reasonable restrictions on such right-of-way use. Alternative haul routes shall be developed where hauling impacts the health, safety, and welfare of the local area;
- E. Haulage roads within the premises shall be maintained in a reasonably dust free condition. Dust retardant measures may include the use of watering, application of magnesium chloride, oiling, or paving;
- F. Unless otherwise approved, the hours of operation shall be 6:00 a.m. to 7:00 p.m. normally; shorter hours of operation may be imposed in urbanized areas as part of the conditional use permit;
- G. In no event shall a slope of less than 2:1 be left for dry pits, or the slope of 3:1 for pits deeper than ten (10) feet. In a wet pit, in no event shall a slope be less than 2:1 except as provided herein;
- H. The floor of excavation pits, whether wet or dry, shall be left in a suitable condition;
- I. The operator shall not store, overburden, or excavate materials or construct dikes or levies in such a manner as to increase any drainage or flooding on property not owned by the operator or damage public facilities;
- J. Prior to starting excavation, where the operation is adjacent to subdivided and/or developed commercial, residential, or industrial property, fencing may be required to prevent the visibility of the mining operation, and buffering and screening may be required if deemed necessary by the City Council as part of the conditional use permit. The operator may be required to fence and/or buffer and screen the entire parcel or fence only areas of excavation as it proceeds. None of these fences shall be removed until

- rehabilitation has been completed;
- K. Where the operation is adjacent to subdivided property, and/or developed commercial or residential property, once mining has been completed, the site shall not be used as an area to stockpile mineral and/or gravel resources, unless otherwise permitted by the conditional use permit. The mining operator shall reclaim mined areas as rapidly as possible;

A nuisance, for the purpose of this Section, shall be defined as a property for which the City receives three (3) or more animal complaints supported by competent evidence in a one (1) month period of time and which establishes a continuous neighborhood problem of noise, odor or a threat to safety. Chapter 17.35**SEXUALLY ORIENTED BUSINESSES****Sections:**

17.35.010	Purpose and Description
17.35.020	Definitions
17.35.030	Conditional Use Permit Required
17.35.040	Separation Requirements
17.35.050	Criteria for Permit Approval
17.35.060	Review Process

17.35.010 PURPOSE AND DESCRIPTION. The purpose of this Chapter is to allow the reasonable location of sexually oriented businesses within the city in a manner which will protect property values, neighborhoods and residents from the potential adverse secondary effects of sexually oriented businesses, while providing to those who desire to patronize sexually oriented businesses such opportunity in appropriate areas within the city. It is not the intent of this Chapter to suppress any speech activities protected by the First Amendment to the United States Constitution but to impose content neutral regulations which address the adverse secondary effects that sexually oriented businesses may have on adjoining properties.

It has been determined, and reflected in the land use studies of various U.S. cities, that businesses which have as their primary purpose the selling, renting or showing of sexually explicit materials have negative secondary impacts upon surrounding businesses and residences. The experience in other U.S. cities is that the location of sexually oriented businesses significantly increases the incidence of crimes, especially sex offenses, including sexual assault, indecent exposure, lewd and lascivious behavior, and child molestation.

It has been determined, and reflected in the land use studies of various U.S. cities, that sexually oriented businesses in business districts which are immediately adjacent to and which serve residential neighborhoods have a deleterious effect on both the business and the residential segments of the neighborhood, causing blight and down-grading of property values.

It is the intent of these regulations to allow sexually oriented businesses to exist within the city in various dispersed locations rather than to allow them to concentrate in any one business area. It is further the purpose of these regulations to require separation requirements between sexually oriented businesses and residential uses, churches, parks, and educational institutions in an effort to buffer these uses from the secondary impacts created by sexually oriented business activity.

(Ord. 2009-02)

17.35.020 DEFINITIONS.

- A. Unless otherwise defined below, terms used in this Chapter pertaining to sexually oriented businesses shall be as defined in Section 5.40.020 of the Fruita Municipal Code.
- B. Business: Means and includes a sexually oriented business as defined in subsection 5.40.020 (N) of Title 5 of the Fruita Municipal Code.

(Ord. 2009-02)

17.35.030 CONDITIONAL USE PERMIT REQUIRED. A conditional use permit is required for the operation of a sexually oriented business in the General Commercial (GC) zone and the Limited Industrial Research and Development (LIRD) zone. Additional requirements for the granting of a conditional use permit are found in Section 17.13.040, conditional use permits. (Ord. 2009-02)

17.35.040 SEPARATION REQUIREMENTS. No sexually oriented business shall be located within one thousand (1,000) feet of another sexually oriented business, residentially zoned or used property, church, day care center, park or educational institution (whether within or without the city). A waiver of the foregoing restrictions may be applied for in accordance with subsection (B) of this Section.

- A. Method of Measurement. The one thousand (1,000) feet separation measurement shall be made in a straight line without regard to intervening structures or objects from the nearest property line of the proposed sexually oriented business to the nearest property line of another sexually oriented business, residentially zoned or used property, church, park, day care center or educational institution.
- B. Waiver Criteria. In establishing the provisions of this Section, the City Council hereby finds and determines that there may be exceptional or extraordinary circumstances or conditions which are applicable to properties within the city or to the intended uses of properties within the city that do not generally apply to the property or class of uses in the same zone, and such that denial of an application for relief would result in an inability to reasonably utilize property. Therefore, it is necessary to provide for such extraordinary relief in the form of a waiver. In reviewing such applications for waivers, the burden shall be upon the applicant to meet the criteria set forth in this Section.

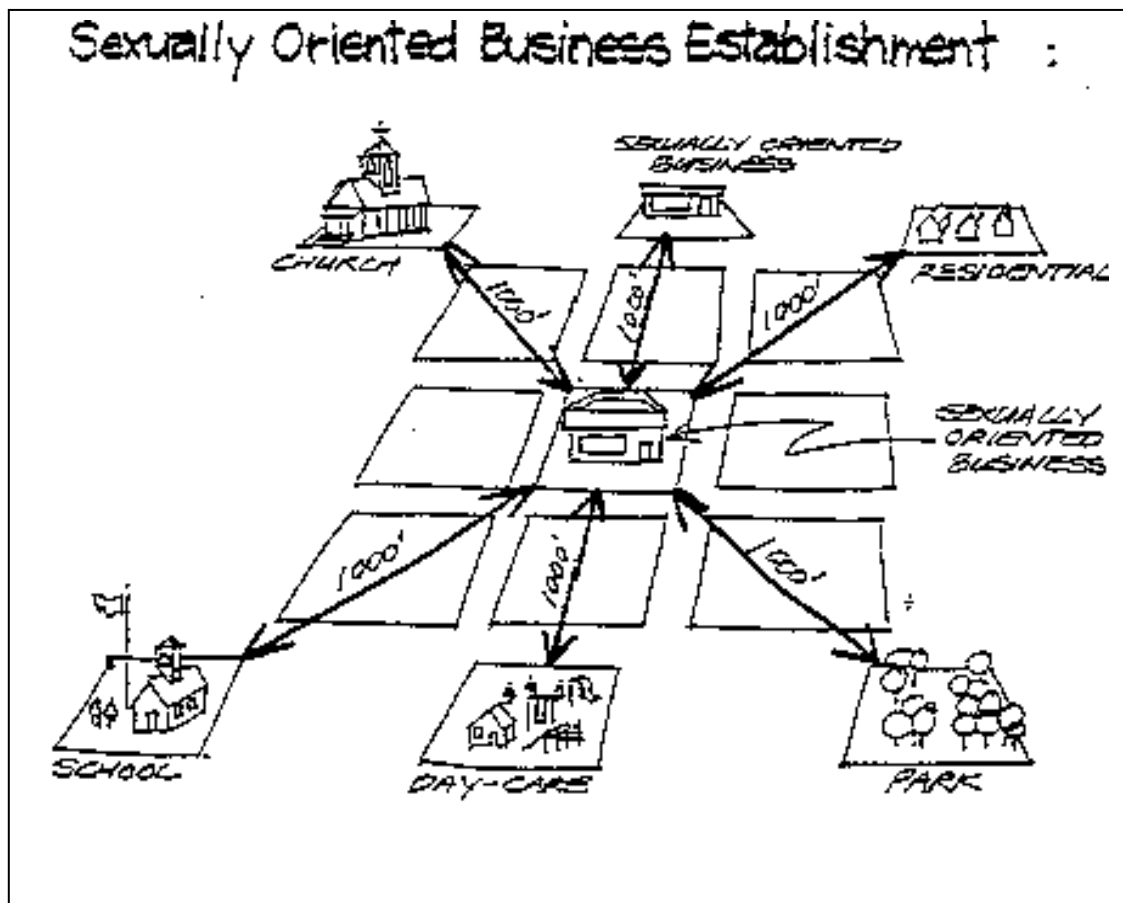

Figure 35-1

1. A waiver to the separation requirements set forth in this Section may be granted as a part of the conditional use review process if the presumptions in Section 17.35.010 of this Chapter are overcome by proof that the establishment of a sexually oriented business within one thousand (1,000) feet of another sexually oriented business establishment or establishment of a sexually oriented business within one thousand (1,000) feet of any residential zone, residential use, park, church or educational institution as applicable, will not have a deleterious effect on surrounding residential and business areas by creating blight, downgrading of property values or tending to cause an increase in crime.
2. In granting a waiver to the separation requirements the Planning Commission or City Council may impose reasonable conditions relating to hours of operation, screening, buffering and signage as long as the conditions imposed are not

designed to prohibit the dissemination of protected materials under the First Amendment to the United States Constitution.

(Ord. 2009-02)

17.35.050 CRITERIA FOR PERMIT APPROVAL. It shall be unlawful for any person to conduct or establish any sexually oriented business activity or enterprise until a conditional use permit for a sexually oriented business has been approved by the City Council. Such permits shall be approved if the criteria set forth in Section 17.13.040 and the following criteria are met:

- A. The subject property is zoned General Commercial (GC) and Limited Industrial and Research Development (LIRD);
- B. The subject property meets the one thousand (1,000) foot separation requirements as set forth subsection (A) of Section 17.35.040 or a waiver has been granted pursuant to subsection (B) of the same Section;
- C. The subject property contains off-street parking in accordance with the requirements of Chapter 17.39; and
- D. The proposed sexually oriented business building has a certificate of occupancy.

(Ord. 2009-02)

17.35.060 REVIEW PROCESS. Applicants for a conditional use permit for a sexually oriented business shall submit a completed conditional use application form which contains the information required by 17.13.040, and, in addition, distances to other sexually oriented businesses, residentially zoned or used property, churches, day care centers, and park or educational institutions. The application shall be reviewed pursuant to the conditional use permit process as outlined in Section 17.13.040. (Ord. 2009-02)

17.39.080	On-Street Parking Standards for Residential Cul-de-Sacs

17.39.010 OFF-STREET PARKING STANDARDS; GENERAL PROVISIONS. In order to ensure that sufficient parking is provided to serve the requirements of all land uses in the City of Fruita, and to avoid congestion in the streets, the requirements of this Chapter shall constitute minimum requirements for all land uses. Additional spaces above the minimum number required may be provided, but the maximum number of access ways to and from parking areas shall not be exceeded. (Ord. 2009-02)

17.39.020 OFF-STREET PARKING STANDARDS; APPLICABILITY.

- A. Except as provided herein, the provisions of this Chapter shall apply to all uses established or commenced on or after the effective date of this Title.
- B. For uses existing on the effective date of this Title, parking spaces or areas existing on such date shall not be diminished in number or size to less than that required for such use under this Chapter.
- C. When an existing use or building is expanded, off-street parking, loading areas and landscaping shall be provided as required for the added floor area, whether or not they were provided for the existing use or building.
- D. When the use of an existing building or land is changed and requires more off-street parking than the existing use, off-street parking, loading areas and landscaping shall be provided as required for the new use, whether or not they were provided for the existing use.

E. Parking Regulations in Downtown Mixed Use zone:

1. The Downtown Mixed Use (DMU) zone is subject to different parking standards than the rest of the City of Fruita. The DMU zone contains a unique historic area of Fruita that was established before the invention of the automobile. It provides a unique pedestrian oriented environment with each building built side by side with the next building and typically small narrow lots, relatively short blocks and alley access. Parking takes place on the streets and in back of the buildings off of the alleys. To require off-street parking facilities for each use at levels required for other commercial areas would destroy the character of the area and encourage the demolition of historic structures in favor of parking lots.
2. No off-street parking will be required for uses in existing buildings and reconstruction of existing buildings in the DMU zone south of Pabor Avenue (“Downtown Core”).
3. New buildings in the Downtown Core are subject to the requirements of this Chapter, except that the minimum parking standards in Section 17.39.030 shall be reduced by fifty (50) percent. Alternatively, upon City Council adoption of a Parking District In Lieu Fee, proponents of new buildings may pay an in lieu fee which shall be dedicated to developing public parking facilities in the Downtown Core.
4. Where new development abuts Aspen Avenue in the Downtown Core, all off-street parking shall be provided on the rear one-half (½) of the lot and not within forty (40) feet of Aspen Avenue. Alternatively, off-street parking may be placed closer than forty (40) feet to Aspen Avenue where it is provided underground, or in a multistory parking garage.

(Ord. 2009-02)

17.39.030 NUMBER OF OFF-STREET PARKING SPACES REQUIRED.

- B. For all uses requiring a Conditional Use Permit, parking requirements will be determined through the Conditional Use Permit review. More or less parking as identified in the table may be required as part of the Conditional Use Permit review.
- C. Other Uses. For uses not specifically listed above, the use classification for purposes of parking requirements shall be determined by the Community Development Department Director, based on the following criteria: (1) the similarity of the use to those uses listed in this Chapter; (2) the zone of the property; (3) the need for off-street parking in the area where the property is located; (4) the nature and extent of use of the property by the public; (5) the number of employees who will work on the subject property; and (6) the use capacity.
- D. Uses Not Known. For unknown commercial space for which all or part of the space has no designated use (such as strip malls or single buildings divided for more than two separate uses), the parking requirement shall be as follows: parking spaces shall be provided at the rate of one (1) space per three hundred (300) square feet for the first floor and one (1) space per six hundred (600) square feet for all other floor area.
- E. Alternative Parking Standards
1. Design Exception Process

An applicant may propose parking in amounts less than listed in Table 17.39.030. A design exception committee comprised of the Community Development Director, Public Works Director, and City Engineer may allow the reduction in the amount of required parking spaces based on the findings by the applicant. The decision from the committee must be unanimous. The proposed reduction shall be

considered based on lot size and restrictions, safety, proximity to public parking, and availability of on-street parking.

2. Joint Use of Parking Spaces.

- a. When an owner or developer can demonstrate that two (2) separate uses do not require parking during the same hours and that adequate provisions have been made to ensure that the uses will not require parking during the same hours, such owner or developer may request the Community Development Department Director for permission to allow parking spaces which otherwise comply with the provisions of this Chapter to fulfill the requirements for both uses. Permission for such joint use of parking spaces may be granted subject to such conditions as the Community Development Department Director finds necessary to carry out the purposes and intent of this Chapter.
- b. Off-street parking designated for joint use shall generally not be more than two hundred (200) feet from the property or use it is intended to serve, except that employee parking may be at a further distance if it can be reasonably used.
- c. An applicant requesting the joint use of parking spaces shall submit a proposed written agreement between the owners or other parties in interest of the structures or uses for which the joint parking arrangements are proposed, and a copy of such agreement, once executed, shall be recorded with the Mesa County Clerk and Recorder's Office.

(Ord. 2009-02, Ord. 2018-23)

17.39.040 LOCATION OF PARKING SPACES.

- A. Off-street parking shall be located only on portions of a lot improved for parking purposes, consistent with city standards and as approved by the city decision-making body. Enclosed underground parking spaces may be located anywhere on the lot.
- B. Parking areas shall not be located closer than five (5) feet to any public sidewalk (see also Section 17.39.070.G.2.a).
- C. Non-residential parking areas containing more than five parking spaces shall not be located closer than ten (10) feet to any residential zone or residential land use. This

requirement does not apply in the DMU zone or commercial portions of a CMU zone.

- D. Bicycle parking spaces shall be located as close as possible to the entrance to the building or land use and shall not interfere with motorized or pedestrian traffic.

(Ord. 2009-02)

17.39.050 LOADING AREAS. For those uses requiring deliveries or service by truck and which are not contiguous to an alley, an off-street delivery truck berth at least fourteen (14) feet wide and thirty (30) feet long shall be provided in addition to the required parking area. Where the property or use is served or designed to be served by tractor-trailer delivery vehicles, the off-street loading berth shall be designed so that delivery vehicles using the loading area do not obstruct traffic movements in the parking area or in the public right-of-ways. (Ord. 2009-02)

17.39.060 PARKING AREA SURFACING. All parking areas including bicycle parking areas shall be surfaced with asphalt, concrete or brick, except the Agricultural Residential and Rural Estate zones. All parking areas and driving aisles which are not paved shall provide a dust-free surface whether the parking area and driving aisles are required by this Title or not. This includes parking for heavy equipment and overflow parking areas. (Ord. 2009-02)

17.39.070 DESIGN OF PARKING AREAS. The following design standards shall be met for all parking areas, whether or not the parking area is required.

- A. Access.

Except single and two (2) family residential dwellings, each access way between a public street and the parking area shall be not less than fifteen (15) feet or more than thirty-two (32) feet wide at the intersection of the access way with the public street, and a divider stop at least six (6) feet long shall be installed if the access way exceeds twenty-five (25) feet in width. Each access way shall be clearly and permanently marked and defined through the use of landscaping, rails, fences, walls or other barriers or markers. Said marking and defining may be augmented by painting or striping.

- B. Stacking Spaces.

For any drive-in or drive-through retail use (such as fast food or pharmacy), four (4) stacking spaces shall be provided for each window, or counter on the entrance side, and one (1) such space on the exit side. For service uses (such as gas stations, quick lube and car washes), two stacking spaces shall be provided for each bay on the entrance side and one such space on the exit side. Stacking spaces shall not interfere with other required

parking areas. Stacking spaces must measure at least twenty-two (22) feet long by ten (10) feet wide.

C. Parking for the Disabled.

Parking shall be provided pursuant to the Americans With Disabilities Act guidelines and standards. In the event the Americans with Disabilities Act, as amended, or the city's building codes adopted pursuant to Title 15 of the Fruita Municipal Code contain additional requirements, the strictest standard shall apply.

D. Parking Area Layout.

The dimensions of required off-street parking areas shall comply with the standards shown in the following Parking Dimensions Table.

E. Grade of Parking.

Outdoor parking areas shall not exceed a four (4) percent grade and shall be not less than one (1) percent grade. The grade of access-ways shall not exceed four (4) percent within one hundred (100) feet of the intersection with a public street.

F. Bicycle Parking Design

Bicycle parking devices shall be designed to allow one tire and the frame of the bicycle to be locked to the parking device with a standard U-lock and shall support the bicycle by the frame and not the tire.

G. Landscaping of Parking Areas.

1. Parking areas. For parking lots containing more than fifteen (15) parking spaces, a minimum ten (10) percent of the total surface area of all parking areas, as measured around the perimeter of all parking spaces and maneuvering areas, shall be landscaped in addition to landscape requirements contained in other areas of this Code. Such landscaping shall consist of evenly distributed shade trees with shrubs and/or ground cover. “Evenly distributed” means that the trees and other plants are distributed around the parking lot perimeter and between parking bays to provide a partial shade canopy during summer months. At a minimum, one tree per seven (7) parking spaces shall be planted to create a partial tree canopy over and around the parking area. All parking areas with more than twenty (20) spaces shall include landscape islands with trees to break up the parking area into rows of not more than twelve (12) contiguous (side-by-side) parking spaces. All parking area landscapes shall have dimensions of not less than twenty-four (24) square feet of area, or not less than four (4) feet in width by six (6) feet in length, to ensure adequate soil, water, and space for healthy plant growth. Such areas shall have irrigation.
2. Buffering and Screening Required. Buffering and screening are required under the following circumstances:
 - a. Parking/Maneuvering Area Adjacent to Streets and Walkways. Where a parking or vehicle maneuvering area is within twenty (20) feet of a public street, sidewalk or walkway, an evergreen plant screen (e.g., ground covers and hedge) or decorative masonry wall, arcade, trellis, or similar partially opaque structure at least three (3) feet in width and three (3) feet in height shall be established between the parking/vehicle maneuvering area and public street, sidewalk or

walkway as applicable. The required screening shall have breaks or portals to allow visibility (natural surveillance) into the site and to allow pedestrian access to any adjoining walkways. Hedges used to comply with this standard shall be a minimum of thirty-six (36) inches, and not more than forty-eight (48) inches, in height at maturity, and shall be of such species, number, and spacing to provide year-round screening within one (1) year after planting. Landscaping must consist of desert landscaping or drought tolerant plant species as identified by the Colorado State University Tri-River Extension Service.

- b. Parking/Maneuvering Area Adjacent to Building or private street, sidewalk or walkway. Where a parking or maneuvering area or driveway is adjacent to a building or private street, sidewalk or walkway, the area shall be separated from the building private street, sidewalk or walkway by a curb or wheel stops and a raised walkway, plaza, or landscaped buffer. Raised curbs, bollards, wheel stops, or other design features shall be used to protect pedestrians, landscaping, and buildings from being damaged by vehicles. Where parking areas are located adjacent to residential ground-floor living space, a five (5) foot wide landscape buffer with a curbed edge may fulfill this requirement.

(Ord. 2009-02)

For cul-de-sacs in single family residential subdivisions, at least one (1) on-street parking space shall be provided for every unit with access along the cul-de-sac bulb. If one additional off-street space is provided for each dwelling unit with access from the cul-de-sac bulb, this on-street parking space requirement can be reduced up to fifty (50) percent. - D. Provide flexibility within the sign review/approval process to allow for unique circumstances and creativity.

(Ord. 2009-10)

17.41.020 SIGN PERMITS AND ADMINISTRATION. Any sign authorized by this Chapter may contain non-commercial copy in lieu of any other copy.

- A. Sign Permit Required. To ensure compliance with the regulations of this Chapter, a sign permit shall be required in order to erect, move, alter, reconstruct or repair any permanent or temporary sign, except signs that are exempt from permits in compliance with Section 17.41.040 (Exempt Signs). Changing or replacing the copy on an existing lawful sign shall not require a permit, provided the copy change does not change the nature of the sign or render the sign in violation of this Chapter.
- B. Application for a Sign Permit.
1. Sign Permit Application Requirements. Applications for sign permits shall be made in writing on forms furnished by the Community Development Department
 2. Staff Review and Approval. When the Community Development Department staff has determined the application to be complete, the Community Development Department shall review the sign permit in accordance with requirements of this Code and approve, approve with conditions or deny the sign permit.

 3. Approval Criteria. The City Council may approve a sign variance request upon finding that the sign variance application meets or can meet the following approval criteria:
 - a. That the sign variance granted is without substantial detriment to the public good and does not impair the intent and purposes of this Title and the Master Plan, including the specific regulation in question;
 - b. By reason of exceptional narrowness, shallowness, depth, or shape of a legal lot of record at the time of enactment of this Title, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of such property, the strict application of the subject regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the owner of such property;

- c. A sign variance from such strict application is reasonable and necessary so as to relieve such difficulties or hardships, and the sign variance will not injure the land value or use of, or prevent the access of light and air to, the adjacent properties or to the area in general or will not be detrimental to the health, safety and welfare of the public;
 - d. That the circumstances found to constitute a hardship are not due to the result or general conditions throughout the zone, was not induced by any action of the applicant, and cannot be practically corrected, and;
 - e. That the sign variance granted is the minimum necessary to alleviate the exceptional difficulty or hardship.
4. Final Decision. Any decision of the City Council shall be final, from which an appeal may be taken to a court of competent jurisdiction, as provided in accordance with Section 31-23-307, C.R.S.

Signs removed in compliance with this Section shall be stored by the City of Fruita for thirty (30) days, during which they may be recovered by the owner only upon payment to the City of Fruita for costs of removal and storage. If not recovered within the thirty (30) day period, the sign and supporting structure shall be declared abandoned and title shall vest with the City of Fruita. The costs of removal and storage, up to thirty (30) days, may be billed to the owner. If not paid, the applicable costs shall constitute a lien against the property and may be certified to the County Treasurer for collection in the same manner as delinquent ad valorem taxes, as authorized by law.

(Ord. 2009-10)

17.41.040 EXEMPT SIGNS. The following types of signs are exempt from the **permit** requirements of this Chapter and may be placed in any zone subject to the provisions of this Chapter. Such signs shall otherwise be in conformance with all applicable requirements contained in this Title. Signs shall not interfere with traffic signs or the sight distance triangle at intersections.

Engineered plans prepared by a Colorado registered professional engineer may also be required. All construction shall be in accordance with plans, specifications and details approved by the city. Approved permits shall not be changed without the written consent of the city.

2. Exceptions. The following work and/or projects are exempt from the permit requirements of this Chapter:
 - a. City capital improvement projects for which construction drawings have been issued and approved by the city and for which a project specific traffic control plan has been approved by the city.
 - b. Work performed in or adjacent to a County, State, or federal, right-of-way shall obtain applicable permits from the appropriate governing agency.
- E. Street Maintenance - Notice. The city shall not be responsible for the maintenance of public streets in new subdivisions and developments until the street improvements are approved and accepted by the city. In the event such street improvements have not been accepted, the city may post at all entrances to the subdivision or other development a sign which states: "Notice: Streets within this subdivision have not been accepted by the city for maintenance".

(Ord. 2009-02)

17.43.020 PRIVATE STREET CONSTRUCTION AND INSPECTION. Construction of private streets within the city is not preferred and shall be considered on an individual basis. Private streets shall be subject to the same process and design standards for a public street. Private streets will not be maintained by the city. (Ord. 2009-02)

17.43.030 PLANNING PRINCIPLES FOR LOCAL CIRCULATION SYSTEMS. Basic considerations in the design of local circulation systems shall recognize the following factors: (1) safety for both vehicular and pedestrian traffic; (2) efficiency of service for all users; (3) liability especially as affected by traffic elements in the circulation system; and (4) economy of both construction and the use of land. Design of streets should minimize maintenance costs.

Each of the following principles is an elaboration on one or more of these four (4) factors. The principles are not intended as absolute criteria since instances may appear where certain principles conflict. The principles should, therefore, be used as guides to proper systems layout.

- A. Ensure Vehicular and Pedestrian Access and Provide Utility Access. The primary function of local streets is to serve abutting properties. Street widths, placement of sidewalks, patterns of streets and the number of intersections are related to safe and efficient access to abutting lands.
- B. Control Access to Collectors and Arterials. Local circulation systems and land development patterns should not detract from the efficiency of peripheral collector and arterial streets. Ideally, land development should occur so that no lots require direct access to collector or arterial routes. The number of access points between the local circulation system and the arterial system should be minimized. Intersections along collector and arterial routes should be properly spaced for efficient signalization and traffic flow.
- C. Discourage Speeding. Residential streets should be designed to discourage fast movement of vehicular traffic and incorporate traffic calming measures where appropriate.
- D. Interconnectivity. All developments should be planned to provide both vehicle and pedestrian/bicycle connectivity to adjacent undeveloped properties and to the existing circulation system. Wherever possible, street stubs to adjacent parcels, and connections for pedestrian/bicycle paths shall be incorporated into the design of the development.

(Ord. 2009-02)

17.43.040 MINIMUM REQUIREMENTS FOR LOCAL CIRCULATION SYSTEMS. In addition to the planning principles outlined in Section 17.43.030, the minimum requirements of this Section shall apply to the design of new streets. Additional specific requirements can also be found in the Mesa County Standard Specification for Road and Bridge Construction. Where conflicts exist between this Section and provisions of the Mesa County Standard Specification for Road and Bridge Construction, the provisions of this Section shall apply.

- A. Development Access. Any development exceeding two hundred fifty (250) average daily trips (ADT) or twenty-five (25) units shall have a minimum of two (2) fully platted ingress/egress points (dedicated rights-of-way), or one (1) fully platted ingress/egress point plus a secondary access point for emergency vehicles. Any development exceeding three hundred fifty (350) ADT or thirty-five (35) units shall have a minimum of two (2) fully platted ingress/egress points. Any development exceeding seven hundred fifty (750) ADT or seventy-five (75) units shall have a minimum of three (3) fully platted ingress/egress points.
- B. Phased Developments. For phased developments, secondary access shall be installed at

or prior to the time at which the total number of units served by a single access exceeds twenty-five (25) units.

- C. Courts and Cul-de-sacs. A cul-de-sac shall not exceed two hundred fifty (250) ADT and in no case should its length exceed six hundred (600) feet, unless a secondary emergency access is provided, in which case the cul-de-sac length may be increased to one thousand (1000) feet. Dead end streets or cul-de-sacs without bulbs shall not be permitted. Streets provided or designed for future connection to adjacent areas shall be improved. Such connections which provide access to structures shall have dedicated cul-de-sacs. A cul-de-sac bulb which may be vacated in the future shall be improved to paved standards if access is provided to dwellings or other structures. Cul-de-sac bulbs not providing access to dwellings or other structures shall be improved with a gravel surface and barricades may be required.
- D. Street Stubs. Proposed street stubs to adjacent undeveloped property may be considered in meeting the requirements of subsections (B) and (C) of this Section. The City Council shall have sole discretion to make this determination based on a consideration of current information pertaining to the potential and timing of the development of adjacent parcels.
- E. Urban and Rural Street Sections Based on Lot Size. Urban street sections, which include concrete curb and gutter, and either detached or attached sidewalks on both sides, are required in all residential and commercial developments serviced by public streets, wherein the minimum lot size in the development is less than two (2) acres. For residential developments wherein the minimum lot size in the development is equal to or greater than one-half (½) acre, the sidewalk on one (1) side of the street may be deleted at the discretion of the City Council. Rural street sections without curb and gutter, or sidewalks, are allowed only in developments having a minimum lot size of two (2) acres or greater.

(Ord. 2009-02)

17.43.050 ACCESS TO PRIVATE PROPERTY. In order to qualify as access to property within the city, a street shall be one (1) of the following:

- A. Public Maintained Street. A public street maintained by the city, the Colorado Department of Transportation (C.D.O.T.) or other public agencies. All new driveways or other access points to a public street shall be designed in accordance with the Fruita Design Criteria and Construction Specifications.
- B. Private Street Not Maintained by a Public Agency. Such a street shall be constructed according to the provisions of this Chapter and shall be owned by a homeowners association or other private entity that will take responsibility for maintenance. A maintenance waiver shall be signed by all lot owners accessing the street acknowledging that the city does not maintain the street and will be recorded by the city in the records of

the Mesa County Clerk and Recorder. The right-of-way widths and level of improvement of such street shall be the same as that of a public street.

C. Shared Drives. The level of improvements required for shared driveways shall be designed according to the following guidelines.

1. Widths of Shared Drives:

- a. Less than twenty (20) feet: A maximum density of two (2) units will be allowed on the shared driveway. Minimum improved travel surface roadway width shall be considered on an individual basis.
- b. Twenty (20) feet to twenty-six (26) feet: A maximum density of four (4) units will be allowed on the shared driveway. Minimum improved travel surface roadway width of eighteen (18) feet.

2. Access Requirements. The access requirements for shared driveways are:

- a. Garages and other parking facilities accessing shared driveways shall be located on the lot in such a manner that movement into or out of the garage or parking area will not encroach on adjacent private property or parking areas.
- b. No parking is allowed on shared driveways. For all lots accessing from a shared driveway, one additional off-street car parking space must be provided.

(Ord. 2009-02)

17.43.060 GENERAL ACCESS STANDARDS.

A. Purpose. The lack of adequate access management to the city's street system and the proliferation of driveways and other access approaches can become a major contributor to traffic accidents and a major factor contributing to the functional deterioration of city streets. As new access approaches are constructed, the traffic speed and capacity of streets decrease, while congestion and hazards to the traveling public increase. As a result, significant amounts of tax dollars can be spent to improve city streets and provide additional operational capacity and safety.

The objective of these standards is to both maintain safety and preserve street capacity while at the same time allowing accessibility to adjacent land uses, in a manner consistent with the functional classifications of roads.

B. Standards.

1. In all areas where curb and gutter are provided, all driveways accessing single family building lots shall conform to the standard construction details published by the city. In areas where curb and gutter are not provided, all driveways shall have a minimum surface width of eighteen (18) feet at the edge of pavement, or drive surface, and taper to a minimum surface width of twelve (12) feet at a distance of six (6) feet from the edge of the drive, and maintain this surface width to the edge of the city street or right-of-way.
2. A paved surface with a minimum of twelve (12) feet in width shall be available to fire, ambulance and police vehicles to within one hundred (100) feet of the principal entrances to all principal buildings.
3. In the Rural Estate (RE) and Agricultural Residential (AR) zones for lots three (3) acres in size or larger, access surfacing material outside of the public right-of-way may be six (6) inches Class 6 aggregate base course, or other material such as recycled asphalt, so long as the surfacing material is treated to maintain a dust free condition.
4. The maximum total width of access(s) serving any one (1) parcel shall be limited to thirty-two (32) feet.
5. Access grades may not exceed ten (10) percent. The grade of the entrance and exit shall slope downward and away from the street surface at the same rate as the normal cross slope and for a distance equal to the width of the shoulder, but in no case less than ten (10) feet from the pavement edge.
6. All driveways and approaches shall be constructed so that they do not interfere with the drainage system of the public street or highway. The applicant will be required to provide, at its own expense, drainage structures at entrances and exits which will become an integral part of the existing drainage system. The dimensions of all drainage structures shall be approved by the city prior to installation.
7. No more than one (1) access shall be allowed to any parcel or lot having an area of one (1) acre or less. Additional accesses to parcels or lots having an area of greater than one (1) acre shall be subject to all of the provisions of Chapter 17.07 and this Chapter 17.43.
8. An access approach that has a gate across it shall be designed so that the longest vehicle using it can completely clear the traveled way of the public street when the gate is closed.
9. A parcel or lot fronting on two (2) public streets with identical functional classifications shall take access from the street with the lowest twenty (20) year projected traffic volume. Residential lots fronting on two local roads do not

necessarily have to take access from the street with the lowest twenty (20) year projected traffic volume.

(Ord. 2009-02)

17.43.070 ACCESS CONTROL STANDARDS FOR ARTERIAL STREETS.

- A. Private Direct Access. Private direct access to arterials is discouraged. Private direct access to such arterial streets shall be permitted only when the property in question has no other reasonable access to the city's street system. When direct access is necessary, the following shall be required:
1. Access shall continue until such time that some other reasonable access to a lower functional category street is available and permitted. Access permits issued by the city or by the Colorado Department of Transportation shall specify the future reasonable access location and, if known, the date the change will be made. This provision shall not be construed as guaranteeing a public street access. Subdivisions of land shall make provisions for all parcels or lots in the area to have access to a lower functional classification street in the future. Back-out driveways shall not be allowed.
 2. No more than one (1) access approach shall be provided to an individual parcel or to contiguous parcels or lots under the same ownership unless it can be shown that additional accesses would be significantly beneficial to the safety and operation of the street or the local circulation system. Subdivision of a parcel or lot shall not result in additional access unless shown as necessary for safety or operational reasons.
 3. On two-lane arterials, access approaches may be limited to right turns only if the approach is within five hundred (500) feet, measured near curb line to near curb line, from the nearest signalized intersection. Under no circumstances may a driveway be closer than one hundred (100) feet to the curb line of the intersecting street when measured from the driveway edge nearest the intersecting street.
 4. Access approaches on multi-lane divided roads shall be limited to right turns only unless either: (1) the approach does not have the potential for signalization; or (2) it can be shown that allowing left turns would significantly reduce congestion and safety problems at a nearby intersection; or (3) there are no intersections, existing or planned, which allow a U-turn, and left turns can be safely designed without signalization; or (4) a painted median is present which allows continuous turning storage.
- B. Spacing and Signalization Shall be Considered. In areas where higher traffic volumes are present or growth is expected in the foreseeable future that will require signalization, it is imperative that the location of all public approaches be planned carefully to ensure good

signal progression. An approved traffic engineering analysis shall be made to properly locate all proposed connecting access approaches that may require signalization.

(Ord. 2009-02)

17.43.080 ACCESS CONTROL STANDARDS FOR MAJOR COLLECTOR AND MINOR COLLECTOR STREETS.

- A. Private Direct Access. No more than one (1) access approach shall be provided to an individual parcel/lot or to contiguous parcels/lots under the same ownership unless it can be shown that additional access approaches would not be detrimental to the safety and operation of the public street, and are necessary for the safety and efficient use of the property. Back-out driveways shall not be allowed on Major Collector streets. Under no circumstances may a driveway be closer than one hundred (100) feet to the flow line or edge of the traveled way of the intersecting street when measured from the driveway edge nearest the intersecting street. Subdivision of a parcel shall not result in additional access unless shown as necessary for safety or operational reasons. Shared driveways are encouraged on all collector or larger roads to minimize access points.
- B. Spacing of Intersecting Streets. Spacing of major intersecting streets should be at one-quarter (1/4) mile intervals plus or minus two hundred (200) feet. Spacing of other streets where intersection channelization improvements are not required in accordance with the Fruita Design Criteria and Construction Standards shall be at intervals no less than three hundred (300) feet, providing that reasonable access cannot be obtained from lower classification streets.
- C. Separation of Driveways. Individual driveways shall have a minimum edge to edge separation distance of one hundred (100) feet. Where the lot dimensions or the location of existing driveways prevent one hundred (100) feet separation, the minimum separation distance shall be the maximum achievable, as determined by the City Engineer on a case-by-case basis.

(Ord. 2009-02)

17.43.090 ACCESS CONTROL STANDARDS FOR LOCAL STREETS.

- A. Private Direct Access. Accesses located near an intersection of two (2) local streets shall be constructed so that the edge of the access nearest the intersection is no less than fifty (50) feet from the flowline of the intersecting street. Where the intersecting street is classified as a collector or arterial, setbacks for accesses shall be no less than eighty (80) feet from the flowline of the intersecting street. All accesses are subject to the sight distance requirements of subsection 17.43.090.
- B. Spacing of Intersecting Streets. Intersecting public and private streets shall be located opposing where possible or be offset by a minimum of one hundred fifty (150) feet when measured from near curb line to near curb line

- C. Separation of Driveways. Individual driveways shall have a minimum edge to edge separation distance of ten (10) feet. Driveways cannot be located closer than five (5) feet to any side property line.

(Ord. 2009-02)

17.43.100 INTERSECTION REQUIREMENTS.

- A. General. Most streets intersect at grade. To minimize potential conflicts and to provide adequately for the anticipated crossing and turning vehicle movements, geometric design of the intersection at grade shall be given careful consideration. The geometric design components of all intersections, including but not limited to the location, approach radii, and sight distance, shall be designed in accordance with the Design Criteria and Construction Standards. (Ord. 2009-02)

17.45.250 Standards for Critical Facilities**PART I. TITLE AND PURPOSE**

17.45.010 STATUTORY AUTHORIZATION. The Legislature of the State of Colorado has, in Title 29, Article 20 of the Colorado Revised Statutes, delegated the responsibility of local governmental units to adopt regulations designed to minimize flood losses. Therefore, the City Council for the City of Fruita, Colorado, does hereby adopt the following floodplain management regulations:

(Ord. 2013-10, S1)

17.45.020 FINDINGS OF FACT.

- A. The flood hazard areas of the City of Fruita are subject to periodic inundation, which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the health, safety and general welfare of the public.
- B. These flood losses are caused by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazard areas by uses vulnerable to floods and hazardous to other lands because they are inadequately elevated, floodproofed or otherwise protected from flood damage.

(Ord. 2013-10, S1)

17.45.030 STATEMENT OF PURPOSE. It is the purpose of this ordinance to promote public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- A. Protect human life and health;
- B. Minimize expenditure of public money for costly flood control projects;
- C. Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- D. Minimize prolonged business interruptions;
- E. Minimize damage to critical facilities, infrastructure and other public facilities such as water, sewer and gas mains; electric and communications stations; and streets and bridges located in floodplains;

- F. Help maintain a stable tax base by providing for the sound use and development of flood-prone areas in such a manner as to minimize future flood blight areas; and
- G. Ensure that potential buyers are notified that property is located in a flood hazard area.

(Ord. 2013-10, S1)

17.45.040 METHODS OF REDUCING FLOOD LOSSES. In order to accomplish its purposes, this ordinance uses the following methods:

- A. Restrict or prohibit uses that are dangerous to health, safety or property in times of flood, or cause excessive increases in flood heights or velocities;
- B. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- C. Control the alteration of natural floodplains, stream channels, and natural protective barriers, which are involved in the accommodation of flood waters;
- D. Control filling, grading, dredging and other development which may increase flood damage;
- E. Prevent or regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands.

PART II. DEFINITIONS

FLOOD CONTROL DEFINITIONS. The following definitions are applicable only to the flood control regulations and Section 17.45 of the Land Use Code. Unless specifically defined below, words or phrases used in this ordinance shall be interpreted to give them the meaning they have in common usage and to give this ordinance its most reasonable application.

- A. **100-YEAR FLOOD** - A flood having a recurrence interval that has a one-percent chance of being equaled or exceeded during any given year (1-percent-annual-chance flood). The terms "one-hundred-year flood" and "one percent chance flood" are synonymous with the term "100-year flood." The term does not imply that the flood will necessarily happen once every one hundred years.
- B. **100-YEAR FLOODPLAIN** - The area of land susceptible to being inundated as a result of the occurrence of a one-hundred-year flood.
- C. **500-YEAR FLOOD** - A flood having a recurrence interval that has a 0.2-percent chance of being equaled or exceeded during any given year (0.2-percent-chance-annual-flood).

ALLUVIAL FAN FLOODING** - A fan-shaped sediment deposit formed by a stream that flows from a steep mountain valley or gorge onto a plain or the junction of a tributary stream with the main stream. Alluvial fans contain active stream channels and boulder bars, and recently abandoned channels. Alluvial fans are predominantly formed by alluvial deposits and are modified by infrequent sheet flood, channel avulsions and other stream processes.
- G. AREA OF SHALLOW FLOODING** - A designated Zone AO or AH on a community's Flood Insurance Rate Map (FIRM) with a one percent chance or greater annual chance of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

- N. CONDITIONAL LETTER OF MAP REVISION (CLOMR)** - FEMA's comment on a proposed project, which does not revise an effective floodplain map, that would, upon construction, affect the hydrologic or hydraulic characteristics of a flooding source and thus result in the modification of the existing regulatory floodplain.
- O. CRITICAL FACILITY** - A structure or related infrastructure, but not the land on which it is situated, as specified in Article 5, Section H, that if flooded may result in significant hazards to public health and safety or interrupt essential services and operations for the community at any time before, during and after a flood. See Article 5, Section H.
- P. DEVELOPMENT** - Any man-made change in improved and unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.
- Q. DFIRM DATABASE** - Database (usually spreadsheets containing data and analyses that accompany DFIRMs). The FEMA Mapping Specifications and Guidelines outline requirements for the development and maintenance of DFIRM databases.

ELEVATED BUILDING** - A non-basement building (i) built, in the case of a building in Zones A1-30, AE, A, A99, AO, AH, B, C, X, and D, to have the top of the elevated floor above the ground level by means of pilings, columns (posts and piers), or shear walls parallel to the flow of the water and (ii) adequately anchored so as not to impair the structural integrity of the building during a flood of up to the magnitude of the base flood. In the case of Zones A1-30, AE, A, A99, AO, AH, B, C, X, and D, "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of flood waters.
- T. EXISTING MANUFACTURED HOME PARK OR SUBDIVISION** - A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.
- U. EXPANSION TO AN EXISTING MANUFACTURED HOME PARK OR SUBDIVISION** - The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the

installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

- BB. FLOODPLAIN ADMINISTRATOR** - The community official designated by title to administer and enforce the floodplain management regulations.
- CC. FLOODPLAIN DEVELOPMENT PERMIT** – A permit required before construction or development begins within any Special Flood Hazard Area (SFHA). If FEMA has not defined the SFHA within a community, the community shall require permits for all proposed construction or other development in the community including the placement of manufactured homes, so that it may determine whether such construction or other development is proposed within flood-prone areas. Permits are required to ensure that

proposed development projects meet the requirements of the NFIP and this floodplain management ordinance.

These specialized flood modifying works are those constructed in conformance with sound engineering standards.
- GG. FLOODPROOFING** - Any combination of structural and/or non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.
- HH. FLOODWAY (REGULATORY FLOODWAY)** - The channel of a river or other watercourse and adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height. The Colorado statewide standard for the designated height to be used for all newly studied reaches shall be one-half foot (six inches). Letters of Map Revision to existing floodway delineations may continue to use the floodway criteria in place at the time of the existing floodway delineation.
- II. FREEBOARD** - The vertical distance in feet above a predicted water surface elevation intended to provide a margin of safety to compensate for unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood such as debris blockage of bridge openings and the increased runoff due to urbanization of the watershed.
- JJ. FUNCTIONALLY DEPENDENT USE** - A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

KK. HIGHEST ADJACENT GRADE - The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

LL. HISTORIC STRUCTURE - Any structure that is:

1. Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
2. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

 - b. Directly by the Secretary of the Interior in states without approved programs.

MM. LETTER OF MAP REVISION (LOMR) - FEMA's official revision of an effective Flood Insurance Rate Map (FIRM), or Flood Boundary and Floodway Map (FBFM), or both. LOMRs are generally based on the implementation of physical measures that affect the hydrologic or hydraulic characteristics of a flooding source and thus result in the modification of the existing regulatory floodway, the effective Base Flood Elevations (BFEs), or the Special Flood Hazard Area (SFHA).

NN. LETTER OF MAP REVISION BASED ON FILL (LOMR-F) - FEMA's modification of the Special Flood Hazard Area (SFHA) shown on the Flood Insurance Rate Map (FIRM) based on the placement of fill outside the existing regulatory floodway.

OO. LEVEE - A man-made embankment, usually earthen, designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding. For a levee structure to be reflected on the FEMA FIRMs as providing flood protection, the levee structure must meet the requirements set forth in 44 CFR 65.10.

- PP. LEVEE SYSTEM** - A flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.
- QQ. LOWEST FLOOR** - The lowest floor of the lowest enclosed area (including basement). Any floor used for living purposes which includes working, storage, sleeping, cooking and eating, or recreation or any combination thereof. This includes any floor that could be converted to such a use such as a basement or crawl space. The lowest floor is a determinate for the flood insurance premium for a building, home or business. An unfinished or flood resistant enclosure, usable solely for parking or vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirement of Section 60.3 of the National Flood insurance Program regulations.
- RR. MANUFACTURED HOME** - A structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term "manufactured home" does not include a "recreational vehicle".
- SS. MANUFACTURED HOME PARK OR SUBDIVISION** - A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.
- TT. MEAN SEA LEVEL** - For purposes of the National Flood Insurance Program, the North American Vertical Datum (NAVD) of 1988 or other datum, to which Base Flood Elevations shown on a community's Flood Insurance Rate Map are referenced.
- UU. MATERIAL SAFETY DATA SHEET (MSDS)** – A form with data regarding the properties of a particular substance. An important component of product stewardship and workplace safety, it is intended to provide workers and emergency personnel with procedures for handling or working with that substance in a safe manner, and includes information such as physical data (melting point, boiling point, flash point, etc.), toxicity, health effects, first aid, reactivity, storage, disposal, protective equipment, and spill-handling procedures.
- VV. NATIONAL FLOOD INSURANCE PROGRAM (NFIP)** – FEMA’s program of flood insurance coverage and floodplain management administered in conjunction with the Robert T. Stafford Relief and Emergency Assistance Act. The NFIP has applicable Federal regulations promulgated in Title 44 of the Code of Federal Regulations. The U.S. Congress established the NFIP in 1968 with the passage of the National Flood Insurance Act of 1968.

- WW. NEW MANUFACTURED HOME PARK OR SUBDIVISION** - A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by a community.
- XX. NO-RISE CERTIFICATION** – A record of the results of an engineering analysis conducted to determine whether a project will increase flood heights in a floodway. A No-Rise Certification must be supported by technical data and signed by a registered Colorado Professional Engineer. The supporting technical data should be based on the standard step-backwater computer model used to develop the 100-year floodway shown on the Flood Insurance Rate Map (FIRM) or Flood Boundary and Floodway Map (FBFM).
- YY. PHYSICAL MAP REVISION (PMR)** - FEMA’s action whereby one or more map panels are physically revised and republished. A PMR is used to change flood risk zones, floodplain and/or floodway delineations, flood elevations, and/or planimetric features.
- ZZ. RECREATIONAL VEHICLE** - means a vehicle which is:
1. Built on a single chassis;
 2. 400 square feet or less when measured at the largest horizontal projections;
 3. Designed to be self-propelled or permanently towable by a light duty truck; and
 4. Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.
- AAA. SPECIAL FLOOD HAZARD AREA** – The land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year, i.e., the 100-year floodplain.
- BBB. START OF CONSTRUCTION** - The date the building permit was issued, including substantial improvements, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other

structural part of a building, whether or not that alteration affects the external dimensions of the building.

CCC. STRUCTURE - A walled and roofed building, including a gas or liquid storage tank, which is principally above ground, as well as a manufactured home.

DDD. SUBSTANTIAL DAMAGE - Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure just prior to when the damage occurred.

EEE. SUBSTANTIAL IMPROVEMENT - Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before "Start of Construction" of the improvement. The value of the structure shall be determined by the local jurisdiction having land use authority in the area of interest. This includes structures which have incurred "Substantial Damage," regardless of the actual repair work performed. The term does not, however, include either:

1. Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary conditions or
2. Any alteration of a "historic structure" provided that the alteration will not preclude the structure's continued designation as a "historic structure."

FFF. THRESHOLD PLANNING QUANTITY (TPQ) – A quantity designated for each chemical on the list of extremely hazardous substances that triggers notification by facilities to the State that such facilities are subject to emergency planning requirements.

GGG. VARIANCE - A grant of relief to a person from the requirement of this ordinance when specific enforcement would result in unnecessary hardship. A variance, therefore, permits construction or development in a manner otherwise prohibited by this ordinance. (For full requirements see Section 60.6 of the National Flood Insurance Program regulations).

HHH. VIOLATION - The failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in Section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) is presumed to be in violation until such time as that documentation is provided.

III. WATER SURFACE ELEVATION - The height, in relation to the North American Vertical Datum (NAVD) of 1988 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

(Ord. 2013-10, S1)

PART III. GENERAL PROVISIONS

17.45.050 LANDS TO WHICH THIS ORDINANCE APPLIES. The ordinance shall apply to all Special Flood Hazard Areas and areas removed from the floodplain by the issuance of a FEMA Letter of Map Revision Based on Fill (LOMR-F) within the jurisdiction of the City of Fruita, Colorado. (Ord. 2013-10, S1)

17.45.060 BASIS FOR ESTABLISHING THE SPECIAL FLOOD HAZARD AREA. The Special Flood Hazard Areas identified by the Federal Emergency Management Agency in a scientific and engineering report entitled, "The Flood Insurance Study of Mesa County, Colorado and Incorporated Areas," dated October 16, 2012, with an accompanying Flood Insurance Rate Maps (FIRM) and any revisions thereto are hereby adopted by reference and declared to be a part of this ordinance. These Special Flood Hazard Areas identified by the FIS and attendant mapping are the minimum area of applicability of this ordinance and may be supplemented by studies designated and approved by the City of Fruita. The Floodplain Administrator shall keep a copy of the Flood Insurance Study (FIS), DFIRMs, and/or FIRMs on file and available for public inspection. (Ord. 2013-10, S1)

17.45.070 ESTABLISHMENT OF FLOODPLAIN DEVELOPMENT PERMIT. A Floodplain Development Permit shall be required to ensure conformance with the provisions of this ordinance. (Ord. 2013-10, S1)

17.45.080 COMPLIANCE. No structure or land shall hereafter be located, altered, or have its use changed within the Special Flood Hazard Area without full compliance with the terms of this ordinance and other applicable regulations. Nothing herein shall prevent the Fruita City Council from taking such lawful action as is necessary to prevent or remedy any violation. These regulations meet the minimum requirements as set forth by the Colorado Water Conservation Board and the National Flood Insurance Program. (Ord. 2013-10, S1)

17.45.090 ABROGATION AND GREATER RESTRICTIONS. This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another ordinance, easement, covenant, nor deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail. (Ord. 2013-10, S1)

17.45.100 INTERPRETATION. In the interpretation and application of this ordinance, all provisions shall be:

1. Considered as minimum requirements;
2. Liberally construed in favor of the governing body; and
3. Deemed neither to limit nor repeal any other powers granted under State statutes.

(Ord. 2013-10, S1)

17.45.110 WARNING AND DISCLAIMER OF LIABILITY. The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. On rare occasions greater floods can and will occur and flood heights may be increased by man-made or natural causes. This ordinance does not imply that land outside the Special Flood Hazard Area or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of the Community or any official or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made thereunder. (Ord. 2013-10, S1)

17.45.120 SEVERABILITY. This ordinance and the various parts thereof are hereby declared to be severable. Should any section of this ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole, or any portion thereof other than the section so declared to be unconstitutional or invalid.

(Ord. 2013-10, S1)

PART IV. ADMINISTRATION

17.45.130 ESTABLISHMENT OF A FLOODPLAIN ADMINISTRATOR. The City Engineer is hereby appointed as Floodplain Administrator to administer, implement and enforce the provisions of this ordinance and other appropriate sections of 44 CFR (National Flood Insurance Program Regulations) pertaining to floodplain management. (Ord. 2013-10, S1)

17.45.140 DUTIES & RESPONSIBILITIES OF THE FLOODPLAIN ADMINISTRATOR. Duties and responsibilities of the Floodplain Administrator shall include, but not be limited to, the following:

- A. Maintain and hold open for public inspection all records pertaining to the provisions of this ordinance, including the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures and any floodproofing certificate required by Article 4, Section C.
- B. Review, approve, or deny all applications for Floodplain Development Permits required by adoption of this ordinance.
- C. Review Floodplain Development Permit applications to determine whether a proposed building site, including the placement of manufactured homes, will be reasonably safe from flooding.

- D. Inspect all development at appropriate times during the period of construction to ensure compliance with all provisions of this ordinance, including proper elevation of the structure.
- E. Where interpretation is needed as to the exact location of the boundaries of the Special Flood Hazard Area (for example, where there appears to be a conflict between a mapped boundary and actual field conditions) the Floodplain Administrator shall make the necessary interpretation.
- F. When Base Flood Elevation data has not been provided in accordance with Article 3, Section B, the Floodplain Administrator shall obtain, review and reasonably utilize any Base Flood Elevation data and Floodway data available from a Federal, State, or other source, in order to administer the provisions of Article 5.
- G. For waterways with Base Flood Elevations for which a regulatory Floodway has not been designated, no new construction, substantial improvements, or other development (including fill) shall be permitted within Zones A1-30 and AE on the community's FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one-half foot at any point within the community.
- H. Under the provisions of 44 CFR Chapter 1, Section 65.12, of the National Flood Insurance Program regulations, a community may approve certain development in Zones A1-30, AE, AH, on the community's FIRM which increases the water surface elevation of the base flood by more than one-half foot, provided that the community first applies for a conditional FIRM revision through FEMA (Conditional Letter of Map Revision), fulfills the requirements for such revisions as established under the provisions of Section 65.12 and receives FEMA approval.
- I. Notify, in riverine situations, adjacent communities and the State Coordinating Agency, which is the Colorado Water Conservation Board, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to FEMA.
- J. Ensure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.

(Ord. 2013-10, S1)

17.45.150 PERMIT PROCEDURES. Application for a Floodplain Development Permit shall be presented to the Floodplain Administrator on forms furnished by him/her and may include, but not be limited to, plans in duplicate drawn to scale showing the location, dimensions, and elevation of proposed landscape alterations, existing and proposed structures, including the

placement of manufactured homes, and the location of the foregoing in relation to Special Flood Hazard Area. Additionally, the following information is required:

- A. Elevation (in relation to mean sea level), of the lowest floor (including basement) of all new and substantially improved structures;
- B. Elevation in relation to mean sea level to which any nonresidential structure shall be flood-proofed;
- C. A certificate from a registered Colorado Professional Engineer or architect that the nonresidential floodproofed structure shall meet the floodproofing criteria of Article 5, Section B(2);
- D. Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development.
- E. Maintain a record of all such information in accordance with Article 4, Section B.

Approval or denial of a Floodplain Development Permit by the Floodplain Administrator shall be based on all of the provisions of this ordinance and the following relevant factors:

- A. The danger to life and property due to flooding or erosion damage;
- B. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
- C. The danger that materials may be swept onto other lands to the injury of others;
- D. The compatibility of the proposed use with existing and anticipated development;
- E. The safety of access to the property in times of flood for ordinary and emergency vehicles;
- F. The costs of providing governmental services during and after flood conditions including maintenance and repair of streets and bridges, and public utilities and facilities such as sewer, gas, electrical and water systems;
- G. The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site;
- H. The necessity to the facility of a waterfront location, where applicable;
- I. The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use; and

J. The relationship of the proposed use to the comprehensive plan for that area.

(Ord. 2013-10, S1)

17.45.160 VARIANCE PROCEDURES.

- A. The Board of Adjustment, as established by the Community, shall hear and render judgment on requests for variances from the requirements of this ordinance.
- B. The Board of Adjustment shall hear and render judgment on an appeal only when it is alleged there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the enforcement or administration of this ordinance.
- C. Any person or persons aggrieved by the decision of the Board of Adjustment may appeal such decision in the courts of competent jurisdiction.
- D. The Floodplain Administrator shall maintain a record of all actions involving an appeal and shall report variances to the Federal Emergency Management Agency upon request.
- E. Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing the relevant factors in Section C of this Article have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.
- F. Upon consideration of the factors noted above and the intent of this ordinance, the Board of Adjustment may attach such conditions to the granting of variances as it deems necessary to further the purpose and objectives of this ordinance as stated in Article 1, Section C.
- G. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- H. Variances may be issued for the repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary to preserve the historic character and design of the structure.
- I. Prerequisites for granting variances:
 - 1. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

2. Variances shall only be issued upon:
 - a. Showing a good and sufficient cause;
 - b. A determination that failure to grant the variance would result in exceptional hardship to the applicant, and
 - c. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
 3. Any applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with the lowest floor elevation below the Base Flood Elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.
- J. Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a Functionally Dependent Use provided that:
1. The criteria outlined in Article 4, Section D (1)-(9) are met, and
 2. The structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.

(Ord. 2013-10, S1)

17.45.170 PENALTIES FOR NONCOMPLIANCE. No structure or land shall hereafter be constructed, located, extended, converted, or altered without full compliance with the terms of this ordinance and other applicable regulations. Violation of the provisions of this ordinance by failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall upon conviction thereof be fined or imprisoned as provided by the laws of City of Fruita. Nothing herein contained shall prevent the City of Fruita from taking such other lawful action as is necessary to prevent or remedy any violation. (Ord. 2013-10, S1)

PART V. PROVISIONS FOR FLOOD HAZARD REDUCTION

17.45.180 GENERAL STANDARDS. In all Special Flood Hazard Areas, the following provisions are required for all new construction and substantial improvements:

- A. All new construction or substantial improvements shall be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;
- B. All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage;
- C. All new construction or substantial improvements shall be constructed with materials resistant to flood damage;
- D. All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;
- E. All manufactured homes shall be installed using methods and practices which minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable State and local anchoring requirements for resisting wind forces.
- F. All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system;
- G. New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system and discharge from the systems into flood waters; and,
- H. On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(Ord. 2013-10, S1)

17.45.190 SPECIFIC STANDARDS. In all Special Flood Hazard Areas where base flood elevation data has been provided as set forth in (i) Article 3, Section B, (ii) Article 4, Section B(7), or (iii) Article 5, Section G, the following provisions are required:

A. RESIDENTIAL CONSTRUCTION

New construction and Substantial Improvement of any residential structure shall have the lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), elevated to one foot above the base flood elevation. Upon completion of the structure, the elevation of the

lowest floor, including basement, shall be certified by a registered Colorado Professional Engineer, architect, or land surveyor. Such certification shall be submitted to the Floodplain Administrator.

B. NONRESIDENTIAL CONSTRUCTION

With the exception of Critical Facilities, outlined in Article 5, Section H, new construction and Substantial Improvements of any commercial, industrial, or other nonresidential structure shall either have the lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), elevated to one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be designed so that at one foot above the base flood elevation the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

A registered Colorado Professional Engineer or architect shall develop and/or review structural design, specifications, and plans for the construction, and shall certify that the design and methods of construction are in accordance with accepted standards of practice as outlined in this subsection. Such certification shall be maintained by the Floodplain Administrator, as proposed in Article 4, Section C.

C. ENCLOSURES

New construction and substantial improvements, with fully enclosed areas below the lowest floor that are usable solely for parking of vehicles, building access, or storage in an area other than a basement and which are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters.

Designs for meeting this requirement must either be certified by a registered Colorado Professional Engineer or architect or meet or exceed the following minimum criteria:

- a. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
- b. The bottom of all openings shall be no higher than one foot above grade.
- c. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

D. MANUFACTURED HOMES

All manufactured homes that are placed or substantially improved within Zones A1-30, AH, and AE on the community's FIRM on sites (i) outside of a manufactured home park or subdivision, (ii) in a new manufactured home park or subdivision, (iii) in an expansion to an existing manufactured home park or subdivision, or (iv) in an existing manufactured

home park or subdivision on which manufactured home has incurred "substantial damage" as a result of a flood, be elevated on a permanent foundation such that the lowest floor of the manufactured home, electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), are elevated to one foot above the base flood elevation and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

All manufactured homes placed or substantially improved on sites in an existing manufactured home park or subdivision within Zones A1-30, AH and AE on the community's FIRM that are not subject to the provisions of the above paragraph, shall be elevated so that either:

1. The lowest floor of the manufactured home, electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork) are one foot above the base flood elevation, or
2. The manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and be securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

E. RECREATIONAL VEHICLES

All recreational vehicles placed on sites within Zones A1-30, AH, and AE on the community's FIRM either:

1. Be on the site for fewer than 180 consecutive days,
2. Be fully licensed and ready for highway use, or
3. Meet the permit requirements of Article 4, Section C, and the elevation and anchoring requirements for "manufactured homes" in paragraph (4) of this section.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

F. PRIOR APPROVED ACTIVITIES

Any activity for which a Floodplain Development Permit was issued by City of Fruita or a CLOMR was issued by FEMA prior to November 5, 2013 (date of this ordinance) may be completed according to the standards in place at the time of the permit or CLOMR issuance and will not be considered in violation of this ordinance if it meets such standards.

(Ord. 2013-10, S1)

17.45.200 STANDARDS FOR AREAS OF SHALLOW FLOODING (AO/AH ZONE)

Located within the Special Flood Hazard Area established in Article 3, Section B, are areas designated as shallow flooding. These areas have special flood hazards associated with base flood depths of 1 to 3 feet where a clearly defined channel does not exist and where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow; therefore, the following provisions apply:

A. RESIDENTIAL CONSTRUCTION

All new construction and Substantial Improvements of residential structures must have the lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), elevated above the highest adjacent grade at least one foot above the depth number specified in feet on the community's FIRM (at least three feet if no depth number is specified). Upon completion of the structure, the elevation of the lowest floor, including basement, shall be certified by a registered Colorado Professional Engineer, architect, or land surveyor. Such certification shall be submitted to the Floodplain Administrator.

B. NONRESIDENTIAL CONSTRUCTION

With the exception of Critical Facilities, outlined in Article 5, Section H, all new construction and Substantial Improvements of non-residential structures, must have the lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), elevated above the highest adjacent grade at least one foot above the depth number specified in feet on the community's FIRM (at least three feet if no depth number is specified), or together with attendant utility and sanitary facilities, be designed so that the structure is watertight to at least one foot above the base flood level with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads of effects of buoyancy. A registered Colorado Professional Engineer or architect shall submit a certification to the Floodplain Administrator that the standards of this Section, as proposed in Article 4, Section C, are satisfied.

Within Zones AH or AO, adequate drainage paths around structures on slopes are required to guide flood waters around and away from proposed structures.

(Ord. 2013-10, S1)

17.45.210 FLOODWAYS. Floodways are administrative limits and tools used to regulate existing and future floodplain development. The State of Colorado has adopted Floodway standards that are more stringent than the FEMA minimum standard (see definition of Floodway in Article 2). Located within Special Flood Hazard Area established in Article 3, Section B, are areas designated as Floodways. Since the Floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and erosion potential, the following provisions shall apply:

- A. Encroachments are prohibited, including fill, new construction, substantial improvements and other development within the adopted regulatory Floodway *unless* it has been demonstrated through hydrologic and hydraulic analyses performed by a licensed Colorado Professional Engineer and in accordance with standard engineering practice that the proposed encroachment would not result in any increase (requires a No-Rise Certification) in flood levels within the community during the occurrence of the base flood discharge.
- B. If Article 5, Section D (1) above is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of Article 5.
- C. Under the provisions of 44 CFR Chapter 1, Section 65.12, of the National Flood Insurance Regulations, a community may permit encroachments within the adopted regulatory floodway that would result in an increase in Base Flood Elevations, provided that the community first applies for a CLOMR and floodway revision through FEMA.

(Ord. 2013-10, S1)

17.45.220 ALTERATION OF A WATERCOURSE. For all proposed developments that alter a watercourse within a Special Flood Hazard Area, the following standards apply:

- A. Channelization and flow diversion projects shall appropriately consider issues of sediment transport, erosion, deposition, and channel migration and properly mitigate potential problems through the project as well as upstream and downstream of any improvement activity. A detailed analysis of sediment transport and overall channel stability should be considered, when appropriate, to assist in determining the most appropriate design.
- B. Channelization and flow diversion projects shall evaluate the residual 100-year floodplain.
- C. Any channelization or other stream alteration activity proposed by a project proponent must be evaluated for its impact on the regulatory floodplain and be in compliance with all applicable Federal, State and local floodplain rules, regulations and ordinances.

- D. Any stream alteration activity shall be designed and sealed by a registered Colorado Professional Engineer or Certified Professional Hydrologist.
- E. All activities within the regulatory floodplain shall meet all applicable Federal, State and City of Fruita floodplain requirements and regulations.
- F. Within the Regulatory Floodway, stream alteration activities shall not be constructed unless the project proponent demonstrates through a Floodway analysis and report, sealed by a registered Colorado Professional Engineer, that there is not more than a 0.00-foot rise in the proposed conditions compared to existing conditions Floodway resulting from the project, otherwise known as a No-Rise Certification, unless the community first applies for a CLOMR and Floodway revision in accordance with Section D of this Article.
- G. Maintenance shall be required for any altered or relocated portions of watercourses so that the flood-carrying capacity is not diminished.

(Ord. 2013-10, S1)

17.45.230 PROPERTIES REMOVED FROM THE FLOODPLAIN BY FILL. A Floodplain Development Permit shall not be issued for the construction of a new structure or addition to an existing structure on a property removed from the floodplain by the issuance of a FEMA Letter of Map Revision Based on Fill (LOMR-F), unless such new structure or addition complies with the following:

A. RESIDENTIAL CONSTRUCTION

The lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), must be elevated to one foot above the Base Flood Elevation that existed prior to the placement of fill.

B. NONRESIDENTIAL CONSTRUCTION

The lowest floor (including basement), electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities (including ductwork), must be elevated to one foot above the Base Flood Elevation that existed prior to the placement of fill, or together with attendant utility and sanitary facilities be designed so that the structure or addition is watertight to at least one foot above the base flood level that existed prior to the placement of fill with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads of effects of buoyancy.

(Ord. 2013-10, S1)

17.45.240 STANDARDS FOR SUBDIVISION PROPOSALS.

- A. All subdivision proposals including the placement of manufactured home parks and subdivisions shall be reasonably safe from flooding. If a subdivision or other development proposal is in a flood-prone area, the proposal shall minimize flood damage.
- B. All proposals for the development of subdivisions including the placement of manufactured home parks and subdivisions shall meet Floodplain Development Permit requirements of Article 3, Section C; Article 4, Section C; and the provisions of Article 5 of this ordinance.
- C. Base Flood Elevation data shall be generated for subdivision proposals and other proposed development including the placement of manufactured home parks and subdivisions which is greater than 50 lots or 5 acres, whichever is lesser, if not otherwise provided pursuant to Article 3, Section B or Article 4, Section B of this ordinance.
- D. All subdivision proposals including the placement of manufactured home parks and subdivisions shall have adequate drainage provided to reduce exposure to flood hazards.

17.45.250 STANDARDS FOR CRITICAL FACILITIES. A Critical Facility is a structure or related infrastructure, but not the land on which it is situated, as specified in Rule 6 of the Rules and Regulations for Regulatory Floodplains in Colorado, that if flooded may result in significant hazards to public health and safety or interrupt essential services and operations for the community at any time before, during and after a flood.

A. CLASSIFICATION OF CRITICAL FACILITIES

It is the responsibility of the City of Fruita to identify and confirm that specific structures in their community meet the following criteria:

Critical Facilities are classified under the following categories: (a) Essential Services; (b) Hazardous Materials; (c) At-risk Populations; and (d) Vital to Restoring Normal Services.

1. Essential services facilities include public safety, emergency response, emergency medical, designated emergency shelters, communications, public utility plant facilities, and transportation lifelines.

These facilities consist of:

- a. Public safety (police stations, fire and rescue stations, emergency vehicle and equipment storage, and, emergency operation centers);
- b. Emergency medical (hospitals, ambulance service centers, urgent care centers having emergency treatment functions, and non-ambulatory surgical structures but excluding clinics, doctors' offices, and non-urgent care medical structures that do not provide these functions);
- c. Designated emergency shelters;
- d. Communications (main hubs for telephone, broadcasting equipment for cable systems, satellite dish systems, cellular systems, television, radio, and other emergency warning systems, but excluding towers, poles, lines, cables, and conduits);
- e. Public utility plant facilities for generation and distribution (hubs, treatment plants, substations and pumping stations for water, power and gas, but not including towers, poles, power lines, buried pipelines, transmission lines, distribution lines, and service lines); and
- f. Air Transportation lifelines (airports (municipal and larger), helicopter pads and structures serving emergency functions, and associated infrastructure (aviation control towers, air traffic control centers, and emergency equipment aircraft hangars).

Specific exemptions to this category include wastewater treatment plants (WWTP), non-potable water treatment and distribution systems, and hydroelectric power generating plants and related appurtenances.

Public utility plant facilities may be exempted if it can be demonstrated to the satisfaction of the City of Fruita that the facility is an element of a redundant system for which service will not be interrupted during a flood. At a minimum, it shall be demonstrated that redundant facilities are available (either owned by the same utility or available through an intergovernmental agreement or other contract) and connected, the alternative facilities are either located outside of the 100-year floodplain or are compliant with the provisions of this Article, and an operations plan is in effect that states how redundant systems will provide service to the affected area in the event of a flood. Evidence of ongoing redundancy shall be provided to the City of Fruita on an as-needed basis upon request.

2. Hazardous materials facilities include facilities that produce or store highly volatile, flammable, explosive, toxic and/or water-reactive materials.

These facilities may include:

- a. Chemical and pharmaceutical plants (chemical plant, pharmaceutical manufacturing);
- b. Laboratories containing highly volatile, flammable, explosive, toxic and/or water-reactive materials;
- c. Refineries;
- d. Hazardous waste storage and disposal sites; and
- e. Above ground gasoline or propane storage or sales centers.

Facilities shall be determined to be Critical Facilities if they produce or store materials in excess of threshold limits. If the owner of a facility is required by the Occupational Safety and Health Administration (OSHA) to keep a Material Safety Data Sheet (MSDS) on file for any chemicals stored or used in the work place, AND the chemical(s) is stored in quantities equal to or greater than the Threshold Planning Quantity (TPQ) for that chemical, then that facility shall be considered to be a Critical Facility. The TPQ for these chemicals is: either 500 pounds or the TPQ listed (whichever is lower) for the 356 chemicals listed under 40 C.F.R. § 302 (2010), also known as Extremely Hazardous Substances (EHS); or 10,000 pounds for any other chemical. This threshold is consistent with the requirements for reportable chemicals established by the Colorado Department of Health and Environment. OSHA requirements for MSDS can be found in 29 C.F.R. § 1910 (2010). The Environmental Protection Agency (EPA) regulation “Designation, Reportable Quantities, and Notification,” 40 C.F.R. § 302 (2010) and OSHA regulation “Occupational Safety and Health Standards,” 29 C.F.R. § 1910 (2010) are incorporated herein by reference and include the regulations in existence at the time of the promulgation this ordinance, but exclude later amendments to or editions of the regulations

Specific exemptions to this category include:

- a. Finished consumer products within retail centers and households containing hazardous materials intended for household use, and agricultural products intended for agricultural use.
- b. Buildings and other structures containing hazardous materials for which it can be demonstrated to the satisfaction of the local authority having jurisdiction by hazard assessment and certification by a qualified professional (as determined by the local jurisdiction having land use

authority) that a release of the subject hazardous material does not pose a major threat to the public.

- c. Pharmaceutical sales, use, storage, and distribution centers that do not manufacture pharmaceutical products.

These exemptions shall not apply to buildings or other structures that also function as Critical Facilities under another category outlined in this Article.

3. At-risk population facilities include medical care, congregate care, and schools.

These facilities consist of:

- a. Elder care (nursing homes);
- b. Congregate care serving 12 or more individuals (day care and assisted living);
- c. Public and private schools (pre-schools, K-12 schools), before-school and after-school care serving 12 or more children);

4. Facilities vital to restoring normal services including government operations.

These facilities consist of:

- a. Essential government operations (public records, courts, jails, building permitting and inspection services, community administration and management, maintenance and equipment centers);
- b. Essential structures for public colleges and universities (dormitories, offices, and classrooms only).

These facilities may be exempted if it is demonstrated to the City of Fruita that the facility is an element of a redundant system for which service will not be interrupted during a flood. At a minimum, it shall be demonstrated that redundant facilities are available (either owned by the same entity or available through an intergovernmental agreement or other contract), the alternative facilities are either located outside of the 100-year floodplain or are compliant with this ordinance, and an operations plan is in effect that states how redundant facilities will provide service to the affected area in the event of a flood. Evidence of ongoing redundancy shall be provided to the City of Fruita on an as-needed basis upon request.

B. PROTECTION FOR CRITICAL FACILITIES

All new and substantially improved Critical Facilities and new additions to Critical Facilities located within the Special Flood Hazard Area shall be regulated to a higher standard than structures not determined to be Critical Facilities. For the purposes of this ordinance, protection shall include one of the following:

1. Location outside the Special Flood Hazard Area; or
2. Elevation of the lowest floor or floodproofing of the structure, together with attendant utility and sanitary facilities, to at least two feet above the Base Flood Elevation.

C. INGRESS AND EGRESS FOR NEW CRITICAL FACILITIES

New Critical Facilities shall, when practicable as determined by the City of Fruita, have continuous non-inundated access (ingress and egress for evacuation and emergency services) during a 100-year flood event.

17.47.010 PURPOSE. The purpose of this Chapter is to provide the procedures necessary to implement the provisions of Article 68 of Title 24, Colorado Revised Statutes, which Article establishes a vested property right to undertake and complete development and use of real property under the terms and conditions of a site specific development plan. (Ord. 2009-02)

17.47.020 DEFINITIONS. The following definitions are for the purposes of administration of this Chapter only and do not apply to other sections of this Code. Unless modified in this Section, the terms used in this Chapter shall have the same meaning as set forth in Section 24-68-102, C.R.S.

- A. A "site specific development plan" means a plan that has been submitted to the city by a landowner or such landowner's representative describing with reasonable certainty the type and intensity of use for a specific parcel or parcels of property, which plan shall create a vested property right if the landowner wishes said approval to have the effect of creating vested rights pursuant to Sections 24-68-101, *et. seq.*, C.R.S. The landowner must request vested rights approval in writing at the time a land development application is submitted. Failure to request vested rights renders the approval not a "site specific development plan" and no vested rights shall be deemed to have been created. The following shall be considered "site specific development plans" if a landowner wishes to have a "site specific development plan" approved:

DEVELOPMENT REVIEW PROCEDURE	SITE SPECIFIC DEVELOPMENT PLAN
1. Site Design Review pursuant to Section 17.13.020	Site Design Review as approved by City Council
2. Conditional Use Permit pursuant to Section 17.13.040	Conditional Use Permit as approved by City Council
3. Minor Subdivisions pursuant to Chapter 17.15.	Subdivision final plat as approved by the City Council
4. Major Subdivisions pursuant to Chapter 17.15	Subdivision final plat as approved by the City Council AND the applicable subdivision improvements agreement as approved by the City Council
5. Planned Unit Development (PUD), not accompanied by subdivision of land pursuant to Chapter 17.17	Final PUD Plan, any applicable PUD Guide AND the applicable development improvements agreement as approved by City Council
6. Planned Unit Development (PUD) pursuant to Chapter 17.17, accompanied by subdivision of land pursuant to Chapter 17.15	Subdivision final plat together with Final PUD Plan, PUD Guide AND any applicable subdivision improvements agreement as approved by City Council

If not indicated above, a "site specific development plan" shall mean the final approval step, irrespective of the name or designation of such approval, which occurs prior to a Planning Clearance application.

Provided however, the City Council may, by agreement with the applicant, designate an approval step other than those indicated above, or the final approval step, to serve as the "site specific development plan" approval for a specific project.

The following are specifically excluded from, and shall not constitute, a "site specific development plan": variances, subdivision Sketch Plans, subdivision Preliminary Plans, PUD Concept Plans, PUD Preliminary Plans, business licenses, floodway or floodplain permits, franchises, temporary use permits, any Master Plan element, creation of improvement districts, zoning, rezoning other than Planned Unit Developments, final

architectural plans, or final construction drawings and related documents specifying materials and methods for construction of improvements.

- B. "Vested property right" means the right to undertake and complete development and use of property under the terms and conditions of a "site specific development plan."

(Ord. 2009-02; Ord. 2012-07, S4)

17.47.030 APPLICATIONS; APPROVAL BY THE CITY.

- A. Except as otherwise provided in this Section, an application for approval of a "site specific development plan" as well as the approval, conditional approval, or denial of approval of a plan shall be governed only by the duly adopted laws and regulations in effect at the time the application is submitted to the city. For purposes of this Section, "laws and regulations" includes any zoning, development, or land use law of general applicability adopted by the city as well as any zoning, development or land use regulations that have previously been adopted for the particular parcel described in the plan and that remain in effect at the time of application for approval of the plan. In the event the application for a "site specific development plan" requires review and approval in multiple stages, "application" means the original application submitted at the first stage in any multi-stage process that may culminate in the ultimate approval of a "site specific development plan."
- B. Notwithstanding the limitations contained in subsection (A) above, the city may adopt a new or amended law or regulation when necessary for the immediate preservation of public health and safety and may enforce such law or regulation in relation to applications for "site specific development plans" pending at the time such law or regulation is adopted.

(Ord. 2009-02)

17.47.040 ALTERNATIVE CREATION OF VESTED PROPERTY RIGHTS. If any applicant desires an approval step, other than as defined in subsection 17.47.020(A) above, to constitute an approval of a "site specific development plan" with the effect of creating vested property rights pursuant to this Chapter and Article 68 of Title 24, C.R.S., the applicant must so request at least thirty (30) days prior to the date of the public hearing on said approval step by the City Council or Community Development Director, as applicable, is to be considered. Failure to do so renders the approval by the City Council or Community Development Director, as the case may be, to not constitute an approval of a "site specific development plan" and no vested property right shall be deemed to have been created by such approval, except in the case of an approval as set forth in subsection 17.47.020(A) above. (Ord. 2009-02; Ord. 2012-07, S4)

17.47.050 ESTABLISHMENT OF VESTED PROPERTY RIGHTS; PUBLIC NOTICE AND HEARING REQUIRED. A vested property right shall be deemed established with

respect to any property upon the approval, or conditional approval, of a "site specific development plan," following notice and public hearing, by the City Council. A vested property right shall attach to and run with the applicable property and shall confer upon the landowner the right to undertake and complete the development and use of said property under the terms and conditions of the "site specific development plan", as approved, including any amendments thereto. A "site specific development plan" shall be deemed approved upon the effective date of the city's legal action, resolution or ordinance relating thereto. Such approval shall be subject to all rights of referendum and judicial review; except that the period of time permitted by law for the exercise of such rights shall not begin to run until the date of publication, in a newspaper of general circulation within the city, of a notice advising the general public of the "site specific development plan" approval and creation of a vested property right pursuant to this Chapter and Article 68 of Title 24, C.R.S. Such publication shall occur no later than fourteen (14) days following approval. (Ord. 2009-02; Ord. 2012-07, S4)

17.47.60 APPROVAL OF SITE SPECIFIC DEVELOPMENT PLAN; CONDITIONS.

- A. The city may approve a "site specific development plan" upon such terms and conditions as may reasonably be necessary to protect the public health, safety and welfare, and failure to abide by such terms and conditions, at the option of the City Council following a public hearing, shall result in the forfeiture of vested property rights. This subsection shall be strictly construed.
- B. Terms and conditions imposed or agreed upon may include, without limitation:
1. Future approvals by the city not inconsistent with the original approval;
 2. Approvals by other agencies or other governments;
 3. Satisfactory inspections;
 4. Completion of all or certain phases or filings of a project by certain dates;
 5. Waivers of certain rights;
 6. Completion and satisfactory review of studies and reports;
 7. Payment of fees to the city or other governmental or quasi- governmental agencies as they become due and payable;
 8. Payment of costs and expenses incurred by the city relating to the review and approval;
 9. Continuing review and supervision of the plan and its implementation and development;

10. Obtaining and paying for planning clearances, building permits, water plant investment fees (taps) and wastewater plant investment fees (taps);
11. Compliance with other codes and laws, including building codes, of general applicability;
12. Construction of on-site or off-site improvements or facilities for the use of future inhabitants or the public at large;
13. Payment of any applicable impact fees; and
14. Dedication or conveyance of public site or parkland, trails, school land, common area or open spaces, with provision for its maintenance; or payment of a fee in lieu thereof, and dedication of necessary easements and rights-of-way.

(Ord. 2009-02)

17.47.070 DURATION AND TERMINATION OF VESTED PROPERTY RIGHTS.

- A. A property right, which has been vested pursuant to this Chapter and Article 68 of Title 24, C.R.S., shall remain vested for a period of three (3) years. This vesting period shall not be extended by any amendments to a "site specific development plan" unless expressly authorized by the City Council.
- B. Notwithstanding the provisions of subsection (A) above, the City Council is authorized to enter into development agreements with landowners providing that property rights shall be vested for a period exceeding three (3) years where warranted in the light of all relevant circumstances including, but not limited to, the size and phasing of the development, economic cycles, and market conditions. Such development agreements shall be adopted as legislative acts subject to referendum.
- C. Following approval or conditional approval of a "site specific development plan", nothing contained in this Chapter or Article 68 of Title 24, C.R.S. shall exempt such a plan from subsequent reviews and approvals by the city to insure compliance with the terms and conditions of the original approval, if such further reviews and approvals are not inconsistent with said original approval.

(Ord. 2009-02)

17.47.080 WAIVER OF VESTED PROPERTY RIGHTS. An applicant may waive a vested property right by separate written agreement, which shall be recorded in the office of the Mesa County Clerk and Recorder. Unless otherwise agreed to by the City Council, any landowner requesting annexation to the City of Fruita shall waive in writing any pre-existing vested property rights as a condition of such annexation. (Ord. 2009-02)

17.47.090 SUBSEQUENT REGULATION PROHIBITED; EXCEPTIONS.

- A. A vested property right, once established as provided in this Chapter and Article 68 of Title 24, C.R.S., precludes any zoning or other land use action by the city or pursuant to an initiated measure which would alter, impair, prevent, diminish, impose a moratorium on development, or otherwise delay the development or use of the property as set forth in an approved "site specific development plan," except:
1. With the consent of the affected landowner;
 2. Upon the discovery of natural or manmade hazards on or in the immediate vicinity of the subject property, which hazards could not reasonably have been discovered at the time of "site specific development plan" approval, and which hazards, if uncorrected, would pose a serious threat to the public health, safety, and welfare; or
 3. To the extent that the affected landowner receives just compensation for all costs, expenses and liabilities incurred by the landowner after approval by the city, including, but not limited to, costs incurred in preparing the site for development consistent with the "site specific development plan", all fees paid in consideration of financing, and all architectural, planning, marketing, legal, and other consultants' fees, together with interest thereon at the legal rate until paid. Just compensation shall not include any diminution in the value of the property, which is caused by such action.
- B. Establishment of a vested property right pursuant to law shall not preclude the application of ordinances or regulations which are general in nature and are applicable to all property subject to land use regulation by the City of Fruita, including, but not limited to, building, fire, plumbing, electrical, housing, mechanical, and dangerous building codes.

(Ord. 2009-02)

17.47.100 PAYMENT OF COSTS. In addition to any and all other fees and charges imposed by this Title, the applicant for approval of a "site specific development plan" shall pay all costs incurred by the city as a result of the "site specific development plan" review and approval, including publication of notices, public hearing and review costs, when such costs are incurred apart and in addition to costs otherwise incurred by the city or applicant for a public hearing relative to the subject property. (Ord. 2009-02)

17.47.110 OTHER PROVISIONS UNAFFECTED. Approval of a "site specific development plan" shall not constitute an exemption from or waiver of any other provisions of this Title pertaining to the development and use of property. (Ord. 2009-02)

17.47.120 LIMITATIONS. Nothing in this Chapter is intended to create any vested property right, but only to implement Article 68 of Title 24, C.R.S., as amended. In the event of the repeal of said Article or judicial determination that said Article is invalid or unconstitutional, this Chapter shall be deemed to be repealed and the provisions hereof no longer effective. (Ord. 2009-02)
